COUNTY OF HURON 2020 BUDGET

Consolidated

CORPORATION OF THE COUNTY OF HURON TREASURY FINANCE

TO: Chair and Members of the Committee of the Whole

FROM: Michael Blumhagen, Treasurer

DATE: February 5, 2020

SUBJECT: 2020 Draft Budget Commentary

DRAFT 2020 BUDGET COMMENTS:

Staff are currently proposing a levy increase of \$2,084,532 or 5% year over year to a total of \$43,775,188. Staff are have had some significant challenges to address in 2020 Draft Budget particularly with looming provincial funding cuts, labour pressures, upcoming infrastructure costs.

The 2020 returned roll for property assessment value has increased by \$1,226,886,213, therefore, if the County were to maintain the same tax rates as 2019, it would support a 6.66% on the levy, or an increase of \$2,774,766. To fund the proposed 2020 draft budget increase of 5.00%, the County would see a tax rate decrease of 1.55%.

The average impact of the draft 2020 budget increase on \$100,000 residential assessment is an increase of \$4.77. On the median residential property for Huron County valued at \$213,000, the proposed increase in 2020 is \$3.21. For farmland, the increase per \$100,000 is \$13.04 and on the median farm property valued at \$1,020,300, the increase is \$114.90.

New assessment growth in 2019 for the County was \$125,289,256 in total taxable assessment with a tax impact to the County of \$814,537 or approximately 2.0% on the levy. This growth helps to mitigate the 2020 levy increases for existing assessment.

It is important to note that with the new current value assessment data for 2020, there are some significant taxation shifts occurring amongst both property classes and local municipalities in Huron County. This is primarily due to the significant increase in the current market value of farmland in Huron County with an increase in value of 14.28%.

One change being proposed this year is the small farm subclass for up to \$50,000 for commercial and industrial farm operations. The ratios will be included at 0.25 rather than at 1.10, in-line with the provincial change for the education rates. There are only approximately 7 properties that this change affects.

The operational details for the Health Unit have been removed from the detailed schedules, and only their budget request of \$3,094,960 has been included in the Consolidation. The estimated portion of the overall Health Unit 2020 budget is 43.27% for an estimate of \$1,339,189.

Included in the budget package are a number of schedules:

- Consolidated Net Levy

- Assessment and tax rate calculations
- Capital Budgets
- Departmental Budgets
- Reserve Schedule

Key Budget Considerations for 2020:

- In respect of Council's desire to limit staff salary increases we have set nonunion salary increases at 1.5% for 2020. Staff will strive that future union settlements will fall in-line within this amount. Union salaries continue to cause pressures as many settlements are based on arbitrated settlements. The nonunion salaries are being kept in-line with 2017, 2018 and 2019 at 1.5% in an effort to mitigate overall budget increases.
- The only grants currently included in the budget to be funded from the levy is for the Huron County Food Bank Distribution Centre - \$66,000. The balance of the grants to the Wingham Hospital - \$100,000, REACH - \$33,000, and Goderich Hospital - \$150,000 are funded from reserves. There is no additional funding included in the budget for any grants as there is a current moratorium on grants until it is reviewed by the this term of Council.
- Capital expenditures have been increased for Public Works and will continue to do so for the foreseeable future as our aging linear and overhead structure infrastructure is due to be replaced. To support the County's asset management efforts, funding is available from the Federal and Provincial governments.
- Funding from Gas Tax in 2020 is as follows: 2020 allocation \$1,798,847, 2019 one-time gas tax top up of \$1,882,391, and accumulated gas tax surplus of \$239.109.
- Funding from the Ontario Community Infrastructure Fund (OCIF) is estimated at the same level as 2019 of \$2,419,803, plus some carryforwards from projects not completed in 2019 of \$401,500. The 2020 OCIF allocation has not yet been announced so the amount estimated in the budget may change.

ONGOING BUDGET PRESSURES

With the County only eligible for the Transitional Assistance (a non-core grant) of the OMPF, it is expected that the OMPF for the County will be eliminated within the next several years. This assumption is based on the recent trend in reallocating the non-core transitional assistance to the core grants. For 2020, the decrease was 220,300 to a total of \$1,249,000.

Labour represents a significant portion of the County budget with approximately \$45,955,596 in total labour costs (salary and benefits). This figure excludes the amalgamated Huron Perth Health Unit. Staff have included 1.5% in the budget for non-union and Council per diems. Union increases are based on existing agreements or estimated settlements. Grid movements and job evaluation results are also to be factored in. Total salary and benefit increases are estimated to be \$1,345,000. While some of these salary costs are provincially funded, we are often seeing the provincial funding increases falling short of the increases in collective agreements.

Page: 3

For 2020, staff have included \$1,750,000 of estimated 2019 operating surplus, plus an additional \$420,494 from general reserves, plus \$1,090,670 in estimated Public Works capital surplus into the budget in an effort to reduce the overall 2020 estimated levy increase. Staff had previously estimated that we would be in an overall surplus position for 2019, final quarter events in various departments have reduced previous estimates but until year-end adjustments are finalized, the final year end surplus will not be known.

COUNTY OF HURON 2020 BUDGET

COUNCIL

Corporation of the County of Huron

County Council

2020 Budget

The County Council budget represents those expenditures related to attendance at Council and Committee meetings, board meetings, mileage, conference and convention attendance for all Councillors, the Warden, and all appointed members of the various boards.

County Council provides overall direction for all program responsibilities. Council is accountable to the taxpayers of Huron County.

Section 224 of the Municipal Act states that it is the role of Council:

- (a) to represent the public and to consider the well-being and interests of the municipality:
- (b) to develop and evaluate the policies and programs of the municipality;
- (c) to determine which services the municipality provides;
- (d) to ensure that administrative practices and procedures are in place to implement decisions of council;
- (e) to maintain financial integrity of the municipality; and
- (f) to carry out the duties of council under this or any other Act.

Salaries and Benefits

Salaries and benefits are calculated based on each councillor and board member. Certain assumptions are made in determining this budget item. It is assumed that all councillors will have 100% attendance at the required meetings such as council and committee meetings and at a full day's rate. This budget includes a total of 15 councillors plus citizen members of the Library Board.

Staff assumes there will be special meetings that councillors will need to attend from time to time as well as strategic planning days and two bus trips.

The budget includes the \$5,644 Councillor annual honorarium, the Warden's honorarium at \$20,597 and conference allowance at \$3,814. Library Board member's conference allowance is \$1,250. Full day per diem is \$330.68 and a half day per diem is \$188.95.

The (4) Board of Health Huron councillors are now to be paid directly from the County, increasing costs by \$16,000

New Equipment

There are no anticipated equipment purchases for 2020, however, a small amount is being included for unexpected costs.

Purchased Service

In preparing a budget for Council, staff must make assumptions on the activities in which Council wishes to participate or become involved. One assumption is strategic planning. \$10,000 is being included within the Council budget for such activities.

Operational

Operational expenditures are those expenditures that occur in most program areas in order to be able to function. The expenses include office expense, travel and meals, training, publications, memberships, postage, etc.

The conference budget is based on each councillor utilizing their full conference allowance of \$3,814, with no limit for the Warden. Past experience has shown than many councillors will not utilize their full allowance. Library Board member's conference allowance is \$1,250.

Overall, the operational accounts are reflecting an increase over 2020 of \$3,805.

Program

Included in this area are expenses for promotional/public relations and special events such as a council bus tour, the Warden's banquet and reception and other events. There is no change in the program account budget for 2020.

Summary

Overall, Council's budget is planned to increase by \$13,305 or 2.28% to a total of \$596.510.

COUNTY OF HURON 2020 BUDGET

CORPORATE EXPENSE

Corporation of the County of Huron

Corporate Expense

2020 Budget

The types of expenditures captured in the Corporate Expense budget are those that cannot be allocated to a specific department or program. These include general legal and consulting fees, Council approved grants to various organizations, provision for unforeseen/contingencies, the County's share of tax write-offs. cost of MPAC, etc.

Purchased Services

There is \$15,000 budget for general consulting costs in 2020. \$39,000 is also being included in this budget line for the ECM program and Novus Agenda – which is the annual support costs required for ongoing maintenance, upgrades and support of the system.

Operational

There are no changes in 2020 for the operational expenses.

Program

Council has approved the following grants to various organizations:

Recipient	2020	2021	2022
REACH	\$33,000	\$20,000	
Wingham	\$100,000		
Hospital			
Goderich	\$150,000	\$150,000	\$150,000
Hospital			
Total	\$283,000	\$170,000	\$150,000

In addition to the above amounts, \$66,000 has been included in the budget for the Huron County Food Bank Distribution Centre. The \$66,000 for the HCFBDC is being funded by the levy, the balance of the grant funding is from reserves.

MPAC expenses are also increasing by 1.89% to \$1,243,000. MPAC charges the upper tier municipality to provide assessment services to the overall County and its local municipalities.

Other Expenditures

There are no provisions currently built into the budget for any additional 2019 grant requests.

Capital

Asset Management software - \$60,000 has been included in the Corporate budget. The project work on asset management software was initiated in 2018 with the integration between the GIS and Worktech systems. Work will continue into 2020.

Reserve Usage

Reserves are being utilized in order to offset the OMPF funding impacts and capital expenditures. \$60,000 is being used to cover Asset Management, while a total of \$1,750,000 is being funded from the 2019 estimated annual surplus. An additional transfer from reserves of \$420,494 was made to reduce the overall budget levy increase to 5%.

\$283,000 relates to the funding for the REACH, Wingham Hospital, and Goderich Hospital which is to be funded from reserves. \$150,000 is for the Corporate Kaizen project.

Corporate Special Projects

\$150,000 is being budget for the Corporate Kaizen project, to be funded from reserves. The one-time Efficiency funding from the Province is proposed to be used for the following: Public Works Yard service review – estimated at \$60,000, County of Huron service review – estimated at \$250,000 and the Human Resource Information System RFP estimated at \$250,000. A total of \$560,000 of the one time finding is being allocated in the 2020 budget.

Revenue

The 2020 OMPF funding is being reduced by \$220,300 to a total of \$1,249,000. Interest income has been increased by \$250,000 based on current rates.

Summary

Overall, the levy required to support corporate expenses is decreasing by \$745,088 or -41.30% from the 2019 budget. This decrease is due to the estimated 2019 surplus being brought forward and additional reserve transfer into the 2020 budget.

COUNTY OF HURON 2020 BUDGET

CAO/ CLERK/ CORPORATE RECORDS / ACCESSIBILITY

Corporation of the County of Huron

CAO/Clerk/Corporate Records and Accessibility

2020 Budget

The CAO/Clerk budget represents the cost of operating the CAO and County Clerk offices.

The Municipal Act, 2001 section 229 states the Chief Administrator position can be expected to be responsible for:

- Exercising general control and management of the affairs of the municipality for the purpose for of ensuring the efficient and effective operation of the municipality
- Performing such other duties as are assigned by the municipality

The Clerk position is mandated and the duties are listed in the Municipal Act, 2001 Section 228 (1).

Salaries and Benefits

Salaries and benefits are calculated on an employee by employee basis. Each annual grid movement is calculated as is the general wage increase for all non-union employees. All positions in the CAO/Clerk area are non-union. Each statutory deduction, extended benefit, and pension plan deduction is calculated separately on an individual basis.

Overall, total salaries and benefits are proposed to increase by \$85,630 over the previous year's budget.

A new Communications Coordinator position (\$71,100) is being proposed as a pilot project in an effort to streamline the communication function across the County. For the duration of the pilot, it is proposed that the position is funded from County general reserves. For 2021, after an assessment of the effectiveness of the position, if continued it would be proposed to be funded by the levy.

Equipment

There are no proposed changes in equipment expenditures for 2020.

Purchased Service

Purchased service costs cover insurance and legal fees. There are minimal changes being budget for 2020.

Operational

Operational expenditures are those expenditures that occur in most program areas in order to be able to function. The expenses include office expense, staff travel and meals, training, publications, postage, etc. The budget for these expenditures is decreasing on a year over year basis by 0.75% or \$580, primarily due to a reduction in staff training expenditures.

Revenue

There is an increase of \$9,549 in the anticipated recovery from the departments.

Capital Budget

\$8,000 is being budget for office furniture and replacement computers

Corporate Records

The responsibility for the County's corporate records has shifted from Cultural Services over to the CAO/Clerk's department. Overall costs are increasing by \$2,291.

Accessibility

The overall budget for Accessibility is increasing by \$968 to a total of \$66,000. Currently, a 3rd party consultant is providing the required services for the department. Total program budget for various accessibility initiatives is set at \$11,000. Fees for the consultant services are \$37,000.

Existing Staff:

Chief Administrative Officer
County Clerk
Executive Assistant
Admin Clerk
Deputy Clerk
Corporate Records Coordinator

Proposed:

Communications Coordinator

Summary

The overall county levy requirement for the CAO/Clerk's operating budget is increasing by \$8,274 or 1.19%

COUNTY OF HURON 2020 BUDGET

FINANCE

Corporation of the County of Huron

Finance Department

2020 Budget

The Treasurer's position is mandated by the Municipal Act, 2001 section 286(1): A municipality shall appoint a treasurer who is responsible for handling all of the financial affairs of the municipality on behalf of and in the manner directed by the council of the municipality.

This position is not able to fulfill this mandate without the team in the Treasury department. The Treasury Department serves both needs of Council and the needs of the other departments within the County.

The Treasury department serves Council by:

- Assuring the protection of the County's assets by having adequate internal controls in place and that these controls are adhered to.
- Providing Council with information with respect to the financial affairs of the municipality as it requires or requests
- Co-ordinating, analyzing and presenting a consolidated budget that provides the basis to identify the levy requirement and provide Council with a benchmark for the activities in the year
- Ensuring compliance with legislative and regulatory guidelines related to financial controls and reporting
- Achieving an unqualified audit opinion on the County's corporate financial statements each year
- Providing appropriate insurance claims management and risk management to protect the County's assets and personnel

The Treasury department serves the other County departments by:

- Preparing reports for the various programs to assist in obtaining Ministry grants and funding
- Assisting in interpretation of policy and internal controls
- Ensuring accuracy and reliability in pay and compensation systems
- Providing analysis of the financial information
- Providing assistance in preparing of departments budgets and financial statements
- Ensuring the correct recording of costs and liabilities to ensure the accuracy of the financial system and records

The budget being presented is in full compliance with PSAB. Capital requirements are budgeted separate from the operational costs. Depreciation is budgeted as an operational cost. The levy raised to fund depreciation is used for the cost of replacing and upgrading those capital assets.

Third Party Recoveries

Other departments within the County receive funding from the various Ministries. Most grants allow a portion of the funding be used for overhead or administration piece. Because the financial piece of the County is within the Treasury department, Treasury recover its services from the other departments for the service. There is an overall reduction of \$33,503 in recoveries from other departments, primarily as a result of the \$45,000 no longer being charged to the Health Unit for payroll and finance support.

Salaries and Benefits

Salaries and benefits are calculated on an employee by employee basis. Annual grid movements are calculated.

Salaries are \$27,494 higher than the previous year. These changes are a result of the budgeted 1.5% Non-union pay increase for 2020 and staff grid movements. There are no changes being proposed for 2020.

Equipment

These expenditures consist of rental of office equipment and repairs for computers and replacement of minor equipment. These costs are consistent with 2019.

Purchased Services

These expenditures include audit, insurance and consulting. This group of costs increased by \$2,475.

Operational

Operational expenditures are costs incurred so that the Treasury department can function. This includes office expense, staff travel, training, postage and depreciation etc. There is a decrease in the budget of \$13,427 for 2020. This is due to a decrease in postage and staff training costs.

Capital Budget

The capital budget request is for the scheduled replacement of 2 computers and office furniture. The total costs are \$7,000.

Summary

Overall, the net change in the Treasury budget is an increase of \$49,072 or 6.01%.

COUNTY OF HURON 2020 BUDGET

Business Technology Solutions

Corporation of the County of Huron Corporate Services Department

(BTS) Business Technology Solutions Division 2020 Budget

Background:

The Business Technology Solutions (BTS) Division budget includes 3 sub-budgets: IT, GIS (Geographic Information System), and 9-1-1.

BTS uses a modified zero-based budgeting approach where major budget lines are built up from zero based on the expected needs for the coming year. Each budget line item has detailed information supporting the figures, which are available to review upon request.

2019 Highlights:

- Deployed the New Centralized Telephone System
 - o Departmental Site migrations Complete
 - Decommissioning old telephone systems In Progress
 - o Reduced the number of copper lines saved recurring costs
- Remote Access Pilot launch Social Services Department Staff provided remote access
- Developed new and updated existing policies through the Information Governance Steering Committee, TIM Committee and SMT - Ongoing
- Successfully delivered 12 projects to the business (at the time of writing this report)
- Responded to approx. 2200 IT Help Tickets from staff for IT and GIS services
- Processed approx. 70 IT Purchase Orders on behalf of corporate departments
- Developed in-house and launched the new Museum Kiosk Application
- Ongoing implementation of Watsec security audit disabling protocols, securing credentials, etc.
- Security Incidents outbreak remediation reimaging of over 30 plus computers on zero day outbreak
- Completed GIS Review
- WebGIS municipal training and feedback session
- NG911 progression (initiate conversion to NG911)
- Initiated Corporate Security Awareness campaign for the staff Ongoing
- Connected 3 new staffed sites with the County Network
- Connected 4 new unstaffed sites with the County Network for video surveillance
- Supported emergency services move and refreshed all Paramedic computer systems
- Administrative Tools upgrade Microsoft System Center Phase II in progress
- Re-negotiated Bell Wireless contract (Mobile Phones) for additional value
- Launched an automated Corporate project intake tool/process
- Completed Information Classification and Privacy Impact Assessment for seven applications, mainly:
 - Connect Texting (A Communication Application for Social Services Department)
 - Info Keeper (Record Management Application for the Corporate Records)
 - Lynda / LinkedIn Learning (Technology Team Training Resource)
 - o ProProfs (Corporate Project Management Application)
 - o RMS Rave Alert (County Emergency Notification Application)
 - Synergy (A Food Inventory Tool for Homes for the Aged)
 - o Zoom Pro (Video Conferencing Tool for the Corporation)

Work Plan

BTS ensures that corporate systems, business applications and mission critical services are readily available and reliable. BTS Division partners with County departments to provide technical leadership, consultation and solution based services encouraging collaboration across the corporation. IT is involved with ongoing and planned projects including software and application implementation, new build and

renovations, web and social media development, training, technology purchases, and ongoing advancements in technology.

Work for the coming year 2020 includes (not limited to):

- Migration of Novus Agenda to the Cloud Systems
- Upgrade of the ECM Application Laserfiche
 - o Digitization Project
 - Secure file sharing
- Continue bringing new policies to address the known information security gaps and establish required controls
- Broadband project
- Migrating from the legacy systems and continue decommissioning older systems
- Corporate Information Security Project Continued
 - o Remote Access for Departments Phased
 - Network Security Audit
- Facilitate prioritization of 47 IT projects for 2020
 Launch selected ERP/ECM business processes in collaboration with business units (Treasury and Clerk's Office) and the TIM Ongoing
- Continue providing strategic solutions for technical services and capacity management including (but not limited to): data integrity, data security, data privacy, database development, network storage, back-up systems, and systems support
- Continue with 35-40 HR schedule for some BTS staff on voluntary basis to increase available staff hours to the business departments

Both the IT and GIS operating sub-budgets are funded from the County levy, with reduced recoveries from the Huron Perth Public Health and regular recoveries from EMS for the services delivered.

Staff

Status	Hours	2019 FTE	# Positions	2020 FTE Additions/Reductions	Total 2019 FTE
Regular	Full-time	11 IT <u>6</u> GIS/911 17	17	0.0	17.0
Occasional (students)	Full- time/Part- time	0.4 IT <u>1.0</u> GIS 1.4	2	0.0	1.4
Total		18.4	19	0.0	18.4

BUDGET IMPACTS

Overall costs have been moderated by controlling operating expenses where possible, and by securing funding from Emergency Services and from Huron Perth Public Health post-merger. The attached budget would accommodate the core functions of the department, Shared technology infrastructure Services and priority projects for the coming year. The overall levy increase is \$154,184 which is directly attributed to the lost funding from the Health Unit merging with Perth County of \$169,000.

County of Huron Information Technology Total Capital Requirements For the year ending December 31, 2019

Capital Expense	Asset Type	Reason for Request	Priority	Description	Total Cost	External Funding Amount	External Funding Source
Enterprise Phone System	Equipment > \$1000	Asset Maintenance/Replacement	High	Handsets, additional hardware requirements	1,000		
Network Infrastructure Devices	Equipment > \$1000	Growth Related Need & Asset Maintenance/Replacement	High	Asset refresh - WAPs,	25,500

COUNTY OF HURON 2020 BUDGET

COURT SERVICES - PROVINCIAL OFFENCES

CORPORATION OF THE COUNTY OF HURON

2020 BUDGET

HURON COUNTY COURT SERVICES – PROVINCIAL OFFENCES

The Provincial Offences budget is comprised of all costs relating to the administration, adjudication, and prosecution of charges laid under Parts I, II, III of the Provincial Offences Act. Acts which fall under POA include some of the following: Highway Traffic Act, Liquor Licence Act, The Cannabis Licence Act, The Cannabis Control Act, Trespass to Property Act and Compulsory Automobile Insurance Act. Other charges under Provincial Offences jurisdiction include contraventions to municipal by-laws and minor federal statutes such as Fish and Game.

2020 Budget Changes

Salaries and Benefits

Salaries and Benefits are increasing by \$4843 or 1.85%, primarily due to the annual increase for staff. Staffing compliment is not expected to change for 2020.

Total approved Full Time Equivalents –3.0. There are 2.0 full time staff and 2 casual staff for court reporting and office backfill.

Purchased Service

The bulk of the consulting fees relate to the collection agency commissions being charged for POA collections. The agency charges a 32% commission, however, this cost is passed on to the debtor, and collected along with the fine amount. Therefore, the net impact to the County for collections is 1.76% due to the non-rebate able portion of the HST on the collection agency commission. Based on the current collection results, we have increased the agency commission to reflect actuals.

Overall, purchased service costs are expected to decrease by \$753. This is based on projections from 2020 costs.

Operational

Operational expenditures are those expenditures that occur in most program areas in order to be able to function. The expenses include office expense, staff travel and meals, training, publications, postage, etc.

Program

The program items relate to non-discretionary expenditures such as monitoring and enforcement fees, prosecution, adjudication and ICON usage. For example, the County must pay \$1.95 for every charge entered in ICON. The Victim Fine Surcharge, Dedicated Fines, and Fines – Other Court Areas relate to monies the

County collects on behalf of the province and other municipal courts. Each dollar collected on behalf of another court is reflected as revenue in the County's ledger, with the corresponding expense. The net impact is zero.

With the decrease in charges programming costs are expected to decrease. However, this is a number that we have little control over and is based on the actual volumes, payment activity and court time for 2020.

Revenue

POA revenue is difficult to accurately forecast as the County has limited control in the process. Budgets are being adjusted downward based on current results. Some variables impacting fine revenue are the number of charges being issued across the County, court rulings, and the success of the collection agency.

Capital Budget

Capital assets being requested in 2020 relate to cycle replacement of the staff and courtroom computers.

Summary

The net revenue estimate to the County Levy on a year over year basis is a decrease in net revenue of \$54,040 to \$184,382.

COUNTY OF HURON 2020 BUDGET

Human Resources

CORPORATION OF THE COUNTY OF HURON

2020 BUDGET

HUMAN RESOURCES DEPARTMENT

The Human Resources Team supports over 630 full, part-time, casual and seasonal staff across the County's 13 departments. The Team consists of 5 Human Resources professionals who are responsible for all areas of Human Resources Management to include recruitment and selection, onboarding, training and development, labour relations, job evaluation, pay equity, compensation to include employee group benefits, organizational development and change management, employee engagement, leadership development, health and safety to include mental health in the workplace, WSIB and return to work programs, human resources information system software and all human resources policies, procedures and practices.

The Human Resources Team also has the responsibility for ensuring that the County of Huron is compliant with all relevant legislation. The Human Resources Team serves to negotiate and administer seven collective agreements with accompanying provincial union representatives as well as all employment policies, salaries and benefits with the non-union employees.

The Human Resources Team leads with values to include respect, integrity, honesty, inclusiveness, understanding, trust and excellence.

2020 Budget Changes

Revenue

As a result of the Huron County and Perth District Health Unit amalgamation, we will experience a decrease of \$39,022 in our Intra County Recoveries.

Salaries

The 2020 HR Salary and Benefits line has decreased by \$17,135 bringing the total budgeted amount to \$570,688. This decrease is a result of a maternity leave scheduled for mid-year, while still accounting for the budgeted 1.5% non-union pay increase for 2020.

Purchased Services

Consulting/Professional Fees has decreased by \$3,325 partially due to fewer union contracts being negotiated in 2020 and the cancellation of HR Downloads.

Operational

Corporate wide Staff Training has remained the same \$60,750 as was budgeted in 2019. This includes our Management and Leadership series which is fully funded through the HR budget for all departments county wide. Other training needs are first aid, and mandated training such as AODA (Accessibility for Ontarians with Disability Act), and health and safety. Our Safety and Wellness Supervisor will continue to be engaged in Mental Health/Mindful certification training to help support our psychologically healthy and safe workplace initiative. We are continuing to partner with Thomas International using both recruitment and leadership tools as an additional resource for staff moving though the talent pipeline as well as provide additional resources for any areas of performance improvement.

Conventions / Conferences has been decreased by \$5,300 due to HR staff taking relevant HR courses versus attending conferences which also saves on travel and meal expenses. We will continue to attend the Ontario Municipal Human Resources Association's spring and fall conference. This conference is specific to municipal leaders and is a valuable networking and learning opportunity.

Human Resources Information System software project has been carried forward from 2019's budget and it is dependent on the Enterprise Content Management project. It is of crucial importance that the HRIS software work seamlessly with the ECM software. This will assist in service improvements by reducing duplication of work, tracking of employee information, reporting and improved efficiencies.

Summary

The total Human Resources budget is projected to increase by \$17,276 to \$657,866 for the 2020 budget year, or an increase of 2.7%.

COUNTY OF HURON 2020 BUDGET

Public Works / Fleet / Hazardous Waste

CORPORATION OF THE COUNTY OF HURON 2020 BUDGET

PUBLIC WORKS / HIGHWAYS DEPARTMENT

BACKGROUND

The Public Works Department, including Highways and Fleet services, has a combined staff of 44 full time and 26 part time employees to maintain approximately 775 km of County Roads (including 66 km of urban streets), 263 large bridges and culverts, along with thousands of smaller culverts. As well, the Public Works Dept provides administration of Fleet vehicles & equipment and highway facilities owned by the County.

Organizationally, Highways and Fleet is represented by the following table showing the staff complement, paid hours, and expenses:

Division	Full Time Equivalent (FTE)	Annual Hours	Total Salary & Benefits
Highways	49.61	102,922	\$4,496,005
Fleet	3.95	8,216	\$ 399,756
Total	53.56	111,138	\$4,895,761

Summary of Expense Categories

Operations and Maintenance

The Maintenance/Operations and Administration component of the 2020 Public Works Budget was prepared based a review of 2019 forecasted year end expenses.

Note that the Public Works 2020 budget is now in the third year of a transformation of budget/expense tracking. Prior to 2018, Public Works budgets were published as an activity-based budget and expenses tracked at a general ledger level. The financial systems and work management systems through 2018 have been undergoing modification at a system and procedural level to ensure that all expenses are fully tracked at a high level of detail (activity/job) for day-to-day operations and project management monitoring within the work management system. Through this process, there have been improvements in the allocation of expenses and revenues and are reflecting in the preparation of the 2020 budget.

This includes some re-allocations within the budget show as variances to prior year budgets and do not indicate an increase or reduction in service levels except where explicitly noted in the commentary below.

All bridge, culvert and road sections proposed for rehabilitation in 2020 were selected based on site inspections, technical analysis, Pavement Condition Index (PCI) scores, Ontario Structure Inspection Manual (OSIM) bridge inspections, prioritization based on the optimal timing for rehabilitation and in progress of being updated in the revised Asset Management Plan.

Rural Road Renewal Program

A review of the County Road renewal program began in 2017 and has continued through 2019 that re-focus renewal of roads based on industry best practice of being driven by the current condition of pavement and base and best value investments that manage the road base, shoulder, drainage, and road surface at acceptable levels for the longest period of time at the lowest average annual cost. This approach incorporates the principals of Asset Management full life-cycle planning.

The County has been served very well with its strong history of Cold-In-Place Recycling (CIP) of surface asphalt to build-up layers of asphalt on the road as part of a phased construction strategy over a long period of time. Almost all of the County road network has now been built using this strategy with CIP providing exceptionally good results. Overall, the County road network is in very good condition with a limited number of roads in need of renewal at this time.

However, through more detailed assessments of both asphalt and granular base there is evidence that shows a more holistic approach to Pavement Management is needed to address an aging road base and layers of asphalt. This approach follows industry best practices that include rehabilitation of the road base as well as pavement preservation methods to additionally protect good pavements to further extend the life of road surfaces. The objective is to apply the highest value treatment to a road in the form of preservation or renewal that achieves the lowest total life cycle cost. In some cases, these are inexpensive surface treatments to protect the surface asphalt from oxidation, in other cases, this be a more aggressive treatment that addresses issues with the road base granular material. Collectively, the industry has shown that doing the right treatment at the right time under the right conditions can significantly lower average annual cost of maintaining roads at a high level of service over a long period of time.

County Road 87 between County Road 86 and County Road 28 (11.2 km) with a PCI of 62 is an example where the asphalt is in poor condition and the base is no longer sound. This road is in need of base rehabilitation which requires a higher investment then previous methods used in Huron County. There are various options for base rehabilitation with the most common being Full Depth Recycling (FDR) in which the existing asphalt is pulverized to create a blend of 50% asphalt and 50% original granular base. This provides a renewed and stronger base upon which two lifts of new asphalt will be placed. This is considered a cost effective partial re-construction that is expected to provide at least an additional 18 years of high service before the next major intervention which can include options such as Cold-in-Place Recycling (CIR) of asphalt. This project includes 600m of 1.1m paved shoulder (valued at \$34k) in support of a high priority request of the Cycling

102

Committee and is nominal service level improvement. While other pavement renewal options can be done at a lower immediate cost, treatments that do not renew the base will likely experience early pavement failures resulting in a poorer return on investment.

An option is provided to also extend the 1.1m paved shoulder for the remaining road (11.2 km) identified as a medium priority by the Cycling Committee. The next opportunity for this would be at the next major intervention in approximately 18 years. This is a service level improvement valued at \$640k.

Hot-in-Place recycling of County Road 17 (16.3km) from County Road 15 to Perth Boundary at an estimated cost of \$2,212,500 that will maintain service level of this road at the lowest life-cycle cost. This involves on-site removal of the top layer of asphalt, heating, mixing, addition of solvents and asphalt cement and other additives to renew the recycled material. This recycled material is placed back on the road

Additional rural road work in 2020 includes culvert replacements, core sampling, and asphalt mix designs on County Road 3 in preparation for pavement renewal in 2021 or 2022.

Other work includes a provision for a spray patching contract as a holding strategy for County Road 86 in collaboration with Bruce County to address growing number of deficiencies and mitigate a progressively increased level of re-active repairs by operations staff. This road is at the end of its functional life and will require base rehabilitation in collaboration with Bruce County and is anticipated to be done in 2024.

There are pavement preservation opportunities such as microsurfacing to extend the life of pavement to align with next major pavement treatment of adjacent sections of road. These locations include: County Road 5 (2.0km), County Road 21 (1.7km), and County Road 31 (4.1km). These opportunities are being deferred due to other budget pressures and priorities and will remain an opportunity to consider when preparing the 2021 budget.

Urban Road Renewal Program

Site investigations, engineering, public consultation, designs and permits are in progress for the urban reconstruction of Seaforth as part of the 2018/2019 approved budgets. Additional funding for the urban road reconstruction of County Road 12 through Seaforth in 2020 is the second of two phases of construction and will include replacement and upgrades of the storm sewer system to current standards. This project is being done in conjunction with Huron East replacing water distribution system through this area along with the replacement of curb/gutter, boulevards, and sidewalks, installation of a pedestrian crossing, and accessibility improvements to local storefronts. Estimated construction cost for Huron County's portion of Phase II is approximately \$4M with \$1M in carry-over construction cost from the Egmondville project (Phase I) due to weather related delays.

Work will begin in 2020 with respect to detailed investigations, public consultation, permits, and design to prepare for an anticipated reconstruction of County Road 4 through the core area of Clinton from Highway 8 to Beach St with the intent of

construction in 2021. A preliminary estimate of construction cost for Huron County's portion of this project is \$1,800,000.

Large Culvert and Bridge Program

The County of Huron Public Works Department is dedicated to maintaining a high quality road network that includes bridges and large culverts. In order to be efficient with capital funding, the County has implemented asset management planning into their everyday roles in order to make the most financially responsible decisions.

For bridge and large culvert projects, the County uses regular maintenance, industry best practices, and asset management planning to prioritize capital funding. In an effort to prevent major structure replacement projects from occurring simultaneously, the County is recommending to complete a greater number of small-scale rehabilitations. At the same time, structures that have deteriorated beyond repair or have been prioritized through asset management planning are being recommended for replacement. By replacing structures before severe deterioration has become critical, the County is able to keep the road network safe and avoid lengthy closures or high engineering fees. Smaller rehabilitations are more cost effective when timed appropriately.

Bridges and large culverts have a recommended expected life of 75 years. The expected life can be extended by regular maintenance and timely rehabilitations. Currently, the County owns 52 bridges and 211 large culverts.

In 2020, the Public Works Department is proposing the following bridge/large culvert projects.

RB01249 – Rehabilitation of 01-24.9 (Cooke's Bridge)

Rigid Frame, Built = 1960, Current BCI = 71, Deck Length = 13.7m, Spans = 1 This bridge was last rehabilitated in 2008 (new barrier walls). The bridge is generally in good condition but the asphalt is showing signs of bottom up defects. Patching the deck and waterproofing and paving the bridge is expected to extend the life by at least 10 years to 2045. Design work to be undertaken by consulting services and construction in 2020 by the County Bridge Crew.

RB19183 – Rehabilitation of 19-18.3 (Brown's Bridge)

Rigid Frame, Built = 1956, BCI = 71, Deck Length = 17.2m, Spans = 1 This bridge was last rehabilitated in1988 (patch, waterproof, and pave). The bridge is generally in good condition. However, new barriers and waterproofing is expected to extend the life of the bridge by at least 15 years to 2046. New guiderails will also be installed to replace the substandard end treatments. Design work to be undertaken by consulting services and construction in 2020 by the County Bridge Crew.

RC04360 – Replacement of Culvert 04-36.0

Open Footing Concrete Box, Built = 1940, BCI = 53, Span = 2.44m, Spans = 2.44m. This concrete box culvert was last rehabilitated in 2004 culvert extensions on the original 1940 structure. The original section of the culvert is in poor condition. The

BCI is skewed due to the newer concrete extensions. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has commenced on this structure in 2019 to be tendered for construction in 2020

RC04362 – Replacement of Culvert 04-36.2

Open Footing Concrete Box, Built = 1940, BCI = 69, Span = 2.44m, Spans = 2.44m This concrete box culvert was last rehabilitated in 2004 culvert extensions on the original 1940 structure. The original section of the culvert is in poor condition. The BCI is skewed due to the newer concrete extensions. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has commenced on this structure in 2019 to be tendered for construction in 2020

RC08140 - Replacement of Culvert 08-14.0

Corrugated Steel Pipe Arch, Built = 1970, BCI = 45, Span = 1.83m, Spans = 1.83m This steel culvert is in very poor condition with severe corrosion and perforations. The culvert bottom is starting to show signs of uplift which creates uneven stresses on the barrel walls. A new culvert would provide a 75 year life and improved hydraulic capacity. Design to be completed by consultant with tender for construction in 2021.

RC17061 – Replacement of Culvert 17-06.1

Corrugated Steel Pipe, Built = 1955, BCI = 35, Span = 2.44m

The culvert is in poor condition with severe corrosion and perforations. The high water mark is also high inside the culvert. This may be an indication that the culvert is undersized hydraulically. A new culvert would provide a 75 year life and improved hydraulic capacity. Design to be completed by consultant with tender for construction in 2021.

RB87074-18 – Rehabilitation of 87-07.4 (Wroxeter Bridge)

Rigid Frame, Built = 1953, BCI = 64, Deck Length = 53.5m, Spans = 3

This bridge was last rehabilitated in 2007 (patch, waterproof, and pave with barrier replacement). The approaches to the bridge are in poor condition with potholes and wide cracks due to drainage issues. Removing the granular base and installing a subdrain will help get water out from behind the abutments and stop the asphalt from cracking. The top layer of asphalt across the bridge will be milled and paved in conjunction with paving of County Road 87 in 2020.

RB83147 – Replacement of 83-14.7 (Black Creek Bridge)

Rigid Frame, Built = 1948, BCI = 55, Deck Length = 20.1m, Spans = 1
This bridge was last rehabilitated in 1998 (patch, waterproof, and pave). The bridge is in fair to poor condition with substandard railings. Additionally, preliminary hydraulic investigations indicate that the span may be undersized. Replacing the bridge will provide 75 years of service and has a similar annual average cost vs. rehabilitation. Replacement at this time offers the longest life and aids the County in long term capital planning. Design and permit work has commenced in 2019 with Environmental Assessment and Public Information Sessions to be undertaken in 2020 with tender in late 2020 for 2021 construction.

RB83192 – Replacement of 83-19.2 (Ausable 1 Bridge)

Rigid Frame, Built = 1948, BCl = 55, Deck Length = 20.1m, Spans = 2
This bridge was last rehabilitated in 1998 (patch, waterproof, and pave). The bridge is in fair to poor condition with substandard railings. Additionally, preliminary hydraulic investigations indicate that the span may be undersized. Replacing the bridge will provide 75 years of service and has a similar annual average cost vs. rehabilitation. Replacement at this time offers the longest life and aids the County in long term capital planning. Design and permit work has commenced in 2019 with Environmental Assessment and Public Information Sessions to be undertaken in 2020 with tender in late 2020 for 2021 construction.

RC04294 - Replacement of Culvert 04-29.4

Open Footing Box Culvert, Built = 1940, BCI = 42, Span = 2.65m The culvert is in poor condition. A new culvert would provide a 75 year life and improved hydraulic capacity. Design to be undertaken in 2020 with tender issued in 2021 for construction.

RC04297 - Replacement of Culvert 04-29.7

Concrete Arch, Built = 1940, BCI = 38, Span = 2.75m

The culvert is in poor condition. A new culvert would provide a 75 year life and improved hydraulic capacity. Design to be undertaken in 2020 with tender issued in 2021 for construction.

RC86154 - Replacement of Culvert 86-15.4

Open Footing Box Culvert, Built = 1940, BCI = 26, Span = 3.65m ***Shared project with Bruce County***

The culvert is in poor condition. A new culvert would provide a 75 year life and improved hydraulic capacity. Design to be undertaken in 2020 with tender issued in 2021 for construction.

RB08063 – Rehabilitation of 08-06.3 (Summerhill Bridge)

Deck on Steel Girders, Built = 1959, BCI = 58, Deck Length = 57.6m, Spans = 3 This bridge was last rehabilitated in 2006 (patch, waterproof, and pave with barrier replacement. Conversion to semi integral abutments) by the County Bridge Crew. The bridge is in fair to good condition. The recent rehabilitation addressed all issues above the deck but the abutments need to be patched for it to reach its design life. Coating the bridge girders and patching the abutments is expected to extend the life of the bridge by at least 15 years to 2049. Design to be undertaken in 2020 with tender release in 2021 for construction.

RB015069 – Rehabilitation of 15-06.9 (Westerhout Bridge)

Rigid Frame, Built = 1960, BCI = 64, Deck Length = 11.3m, Spans = 1 This bridge was last rehabilitated in 1992 (patch, waterproof and pave). The structure is generally in good condition. However, new barriers and waterproofing is expected to extend the life of the bridge by at least 10 years to 2045 with design in 2020 and construction to be undertaken by the County Bridge Crew in 2021.

RB15146 – Rehabilitation of 15-14.6 (Wallace Bridge)

Rigid Frame, Built = 1956, BCI = 59, Deck Length = 21.0m, Spans = 1 The structure is generally in good condition. However, new barriers and waterproofing is expected to extend the life of the bridge by at least 15 years to 2046 with design in 2020 and construction to be undertaken by the County Bridge Crew in 2021.

Patrol Yards & Equipment Capital

There are 12 buildings located in four patrol yards (Auburn, Wroxeter, Wingham and Zurich) which are maintained by the Public Works Department. Expenditures for regular maintenance items and small tool/equipment replacements are included in the capital budget and operating budgets. There is a gradual increase in operating costs associated with these buildings as components are aging and required higher order maintenance and/or replacements. Items include windows, doors, locks, flooring, waste oil handling stations, etc.

Road Safety Capital

A number of projects related to highway safety are proposed for 2020 and include:

- Replacement guide rails where are in need of replacement including extensions in length where they have been identified to be warranted.
- Completion of projects underway include:
 - purchase of radar speed boards to further support traffic calming efforts.
 - Pedestrian crossings in Blyth and Huron Park.
 - Upgrades to traffic signals in Seaforth and Exeter.
 - Completion of guide rail installations delayed due to weather.

Minor Drainage

Drainage improvements have been identified in a number of locations including:

• A number of culvert replacements ahead of anticipated road renewal within the next few years.

Road Maintenance

The County is fortunate to have roads that are very good condition and held to a high standard. Maintaining roads at this level of service provides a safe, reliable transportation network for residents, visitors, and local economy and minimizes risk.

Localized sections of roads and some older roads are experiencing an increasing rate of degradation and require some form of patching. The County has been undertaking localized repairs via cold-patch which has very limited use as well as large cut-out asphalt repairs. In the past 3 years, the County has been able to pilot repairs via spray-patching machine as a service provided by Bruce County with exceptionally positive results. Bruce County's spray patching program has been very successful and has expanded to service local municipalities in Bruce County. Their expanded shared service within Bruce County no longer has the capacity to

extend their services to Huron County. There are no local contractors providing this service.

A cost analysis was undertaken by Public Works and it has been estimated that spray patching localized pavement defects can defer major pavement work such as Cold-In-Place Recycling, Hot-in-Place Recycling, Mill and Pave, Full Depth Recycling ranging from 1 to 5 years. The value of this deferral is estimated to reduce the sustainable pavement funding level by \$3.5M annually delivered by a spray patching operations program costing approximately \$250k for staff, equipment, and materials. The results in an estimated reduction of 26% of the annual sustainable funding need of roads from \$19.4M to \$12.8M. Note, the County is not currently at sustainable funding levels so this does not translate into a current tax savings, but, it represents a significant reduction in future rate increases needed to achieve sustainable funding levels.

The 2020 budget includes the purchase of the necessary equipment and one (1) additional FTE to implement a spray patching program for County Roads as well as offer spray patching services to local Huron County Municipalities mirroring the successful program implemented by Bruce County.

Winter Maintenance

The County has adopted the Provincial Minimum Maintenance Standards (MMS) for winter control and provides staffing to minor and respond to winter weather conditions. The road class is based on speed limits and traffic volumes and are primarily class 2 and class 3 with lower speed limit sections being class 4 and class 5. Winter maintenance is provided by 4 Patrol Yards and 16 plow routes (3 plow routes by contracted services).

Public Works is experiencing a trend of increasing need to use road salts and sand to address, what appears to be, a trend of increasing frequency of freeze/thaw cycles on the road. This places additional pressure on staff to respond to icy road conditions as well as increasing costs of materials.

The 2020 budget contains an increased budget of approximately \$200k of sand and salt materials based on this trend.

In addition, there is an increasing challenge in attracting and retaining qualified staff to patrol and plow roads through the winter months with seasonal and temporary staff. Un-filled positions as well as sick time of staff results in the remaining staff and management working overtime to cover patrol and plow routes. Some staff are more frequently working to the limits of provincial regulations (CVOR) in order to meet service levels. Addressing this challenge is expected to place an ongoing pressure on future budgets to enable the County to continue to meet Provincial winter maintenance standards.

General Administration

In addition to road and drainage related infrastructure management, the Public Works Department comments on development controls, severances, rezoning, etc. along county roads, issues entrance permits and annual & oversize load permits, all in conformance with adopted County Policies and By-Laws.

The Minimum Maintenance Standards (MMS) for Municipal Highways, Ontario Regulation 239/02 dictates a minimum level of service required for operations. The on-going maintenance and good condition of the County's road-related assets assist in minimizing operational costs.

Budget Notes

Revenue

The County receives Provincial Grants in the form of OCIF (Ontario Community Infrastructure Funding) and allocates this revenue towards Capital projects to support ongoing renewal and replacement of infrastructure. The 2020 budget reflects the funding estimated to be received from the Province based on formulas previously provided. The reduced 2020 value reflect a one-time OCIF surplus contribution in 2019 from previous OCIF funded projects closing out in net surplus position.

The County receives annual Federal Gas Tax Funding (GTF) and allocates this revenue to eligible capital expenditures. In 2019, it is valued at \$1,798,848 and is a reduction from previous funding levels. This reduction in funding reflecting a revised national distribution of funding based on most recent census information.

The County was provided notice from the Association of Municipalities of Ontario (AMO) that a one-time top-up of GTF will be provided to Huron County with an estimated value of \$1,882,391 and has been applied to the Pavement Management Capital Budget.

Salary

In 2019, a few remaining Job Descriptions were reviewed and updated with a corresponding Job Evaluation as part of an overall review of operations, business continuity, and succession planning. The increases noted below did not result in over-expenditures in 2019 as a result of temporary gapping of vacant positions. The following are items that have resulted in some increase in the labour budget for 2020 related to JE outcomes:

- The Mechanic position was evaluated and increased one pay step from grade 8 to grade 9.
- The Bridge Worker 2 position was evaluated and increased one pay step from grade 5 to grade 6.

Salary budget increases reflect the following operational items:

A temporary staff position to backfill an 18 month maternity leave.

- Re-allocation of contract services costs (loss of contract plow in Zurich) to seasonal staff to operate an additional County owned plow.
- Inclusion of staffing to operate the spray patching machine and provide traffic control as-needed.
- Movement in the pay scale within the grid for returning seasonal Plow
 Operators and Road Patrollers. Previously, experienced seasonal plow
 operators and patrollers were compensated at the lowest step of the grade
 regardless of experience. Recognizing experience will provide additional
 support for attracting and retaining experienced operators which is a
 significant challenge in the industry at this time and expected to be an
 increasing challenge into the future.

Intra-County Purchases

This is primarily the costs associated with using County owned and maintained Fleet that includes an increase of approximately \$160k comprised of:

- Cost associated with extending the use 3 tandems (1 at each yard) as spare plows to reduce the pressure on after-hours call-outs of mechanics and enable staff to continue winter operations when equipment failures occur with minimal interruption.
- cost associated with operating the new spray patcher
- Cost associated with the additional plow needed to cover the winter route in Zurich previously supported by a contract. This cost is offset by a corresponding reduction within Maintenance Contracts.
- Cost to support extending the use of crew cabs needed by patrol staff
 through the summer months to deploy crews to address a growing
 number of issues associated with aging infrastructure. Having
 additional vehicles stationed at each patrol increases the productivity
 of existing staff by enabling multiple small crews and individuals to be
 deployed through the day vs one or two large crews. While the latter
 is still needed for some work, there is an increasing number of tasks
 that can be accomplished by individuals or smaller crews.

An additional increase of \$50k to support various Corporate Services.

Consulting/Professional Fees

This cost comprises 97% capital expenditures providing a wide variety of external specialized professional services such as: site investigations, material sampling, topographic surveying, hydrological surveys and studies, drainage design/review, geometric design, structural review/analysis/design, preparation of tender drawings and specifications, on-site construction supervision and inspection, various permit applications, hosting public information sessions, and validation of invoiced/certificate quantities and invoices. Collectively, these services are commonly referred to as 'Engineering Services'. These professional services are being provided at the direction and supervision of in-house staff. The variance shown in this budget reflect a normal year-to-year fluctuation to support capital work.

Operating costs in this category are associated with regulated bridge inspections (OSIM) and a nominal allocation towards re-active specialized consulting needs to address traffic and drainage issues that arise throughout the year.

Capital/Maintenance Contracts

This cost comprises 90% capital expenditures related to construction.

Operations costs within this category have increased by \$325k related to aging rural drainage infrastructure and a reduction of \$100k associated with contract plow services no longer available in Zurich (with corresponding increases in salary and equipment costs to operate a county plow).

Purchase of Services

This cost includes both capital and operating expenses in which the capital component fluctuates substantially each year based on the capital projects being undertaken in the current year. The reduction shown in the budget reflects a lower need for services related to capital projects in this particular year.

Program Supplies & Costs

This cost includes both capital and operating expenses in which the capital component fluctuates substantially each year based on the capital projects being undertaken in the current year. In 2020, 18% of this budget is allocated to capital projects. The operating component includes \$1.3M (51%) associated with winter materials such as salt, sand, and de-icing liquids. The 2020 budget reflects an increase of approximately \$200k due to an increased quantity of salt being needed to maintain the roads associated as a result of increased freeze/thaw cycles and fluctuating weather conditions. An additional cost allocation is included to support the spray patching program.

2020 DEPARTMENT SUMMARY

The Public Works Department 2020 budget reflects a responsible funding level in order to maintain the required level of service and supports operational changes that address the need for succession planning, mitigating liabilities, and improvement in business continuity.

A good balance of maintenance and reconstruction funding results in the good quality infrastructure that residents and visitors of Huron have come to enjoy and appreciate. This enhances the quality of life, economic return to commerce and overall health of the County.

OVERAL BUDGET IMPACTS

The proposed 2020 Public Works Budget has utilized revenue and funding from several sources to assist the County in reducing the overall levy impact.

The Public Works Department's 2020 budget proposes a year-over-year levy increase of \$2,296,587 which translates into a 14.91% increase for the County's Public Works budget from 2019.

Steven Lund, P.Eng., PWLF,

A new culvert would provide a 75 year life and improved hydraulic capacity.	Engineering/Design/Environmental Review in 2020 with replacement in 2021 with preliminary estimate of \$350,000.	\$	54,000			10-6000-6035
RC04297	Replacement of Culvert 04-29.7 Built = 1940, BCI = 38, Span = 2.75m, 75 year expected life, design in 2020, construction in 2021.	Bridge	The culvert is in poor condition. A new culvert would provide a 75 year life and improved hydraulic capacity.	Engineering/Design/Environmental Review in 2020 with replacement in 2021 with preliminary estimate of \$350,000.	\$	54,000			10-6000-6035
RC04360	Replacement of Culvert 04-36.0 Built = 1940, BCI = 53, Span = 2.44m, 75 year expected life, design in 2019/2020, construction in 2020. Last rehab = 2004 (culvert extensions)	Bridge	The original section of the culvert is in poor condition. The BCI is skewed due to the newer concrete extensions. A new culvert would provide a 75 year life and improved hydraulic capacity.	Design started in 2019 - Tender for replacement in 2020 in conjunction with 04-36.2	\$	426,000			10-6000-6035
RC86154	Replacement of Culvert 86-15.4 Built = 1940, BCI = 26, Span = 3.65m, 75 year expected life, design in 2020, construction in 2021 ***Shared project with Bruce County***	Bridge	The culvert is in poor condition. A new culvert would provide a 75 year life and improved hydraulic capacity.	Engineering/Design/Environmental Review in 2020 with replacement in 2021 with preliminary estimate of \$450,000. Note: this structure is shared with Bruce County and only Huron County share of costs shown in budget.	\$	33,000			10-6000-6035
RB08063	Rehabilitation of 08-06.3 (Summerhill Bridge) Built = 1959, BCI = 58, Deck Length = 57.6m, 20 year life extension, design in 2020, construction in 2021 Last rehab = 2006 (patch, waterproof, and pave with barrier replacement. Conversion to semi integral abutments)	Bridge	The bridge is in fair to good condition. The recent rehabilitation took care of everything above the deck but the abutments need to be patched for it to reach its design life. Coating the bridge girders and patching the abutments is expected to extend the life of the bridge by at least 15 years to 2049.	Engineering/Design/Environmental Review in 2020 with replacement in 2021 with preliminary estimate of \$550,000.	\$	95,000			10-6000-6035
RB15069	Rehabilitation of 15-06.9 (Westerhout Bridge) Built = 1960, BCI = 64, Deck Length = 11.3m, 15 year life extension, design in 2020, construction in 2021 Last rehab = 1992 (patch, waterproof and pave)	Bridge	The structure is generally in good condition. However, new barriers and waterproofing is expected to extend the life of the bridge by at least 10 years to 2045.	Engineering to be completed in 2020 with rehabilitation work to be undertaken by County Bridge Crew in 2021 with a preliminary estimate of \$350,000.	\$	19,000			10-6000-6035
RB15146	Rehabilitation of 15-14.6 (Wallace Bridge) Built = 1956, BCI = 59, Deck Length = 21.0m, 15 year life extension, design in 2020, construction in 2021	Bridge	The structure is generally in good condition. However, new barriers and waterproofing is expected to extend the life of the bridge by at least 15 years to 2046.	Engineering to be completed in 2020 with rehabilitation work to be undertaken by County Bridge Crew in 2021 with a preliminary estimate of \$350,000.	\$	19,000			10-6000-6035

	CARRY OVER ITEMS				\$	7,862,933			
RB19183	Rehabilitation of 19-18.3 (Brown's Bridge) Built = 1956, BCI = 71, Deck Length = 17.2m, 15 year life extension, design and construction in 2020 Last rehab = 1988 (patch, waterproof, and pave)	Bridge	The bridge is generally in good condition. However, new barriers and waterproofing is expected to extend the life of the bridge by at least 15 years to 2046. New guiderails will also be installed to replace the substandard end treatments.	Rehabilitation of bridge by County Bridge Crew in 2020	\$	390,000	\$ 20,000	Reserves CF	10-6000-6035
RC04362	Replacement of Culvert 04-36.2 Built = 1940, BCI = 69, Span = 2.44m, 75 year expected life, design in 2019/2020, construction in 2020. Last rehab = 2004 (culvert extensions)	Bridge	The original section of the culvert is in poor condition. The BCI is skewed due to the newer concrete extensions. A new culvert would provide a 75 year life and improved hydraulic capacity.	Design started in 2019 - Tender in 2020	\$	500,000	\$ 59,000	Reserves CF	10-6000-6035
RB87074-18	Rehabilitation of 87-07.4 (Wroxeter Bridge) Built = 1953, BCI = 64, Deck Length = 53.5m, no life extension, design and construction in 2020. Last rehab = 2007 (patch, waterproof, and pave with barrier replacement)	Bridge	The approaches to the bridge are in poor condition with potholes and wide cracks. Removing the granular base and installing a subdrain will help get water out from behind the abutments and stop the asphalt from cracking. It is important to complete this repair prior to paving CR 87 in 2020.	Drainage improvement of both approaches through installation of sub-drainage as well as mill & pave top asphalt layer over bridge deck in conjunction with FDR work being	\$	180,000	\$ 180,000	Reserves CF	10-6000-6035
RB83147	Replacement of 83-14.7 (Black Creek Bridge) Built = 1948, BCI = 55, Deck Length = 20.1m, 75 year expected life, design in 2019/2020, construction in 2021 Last rehab = 1998 (patch, waterproof, and pave)	Bridge	The bridge is in fair to poor condition with substandard railings. Additionally, preliminary hydraulic investigations indicate that the span may be undersized. Replacing the bridge now has a similar annual average cost vs. rehabilitation but replacement offers the longest life and aids the County in long term capital planning.	Environmental asssessment and design started in 2019 to be completed in 2020 with tender award in late 2020 for construction in 2021 with an early estimate of construction being in the order of \$2M to be proposed in the 2021 budget.	\$	131,000	\$ 106,000	Reserves CF	10-6000-6035
RB83192	Replacement of 83-19.2 (Ausable 1 Bridge) Built = 1948, BCI = 55, Deck Length = 20.1m, 75 year expected life, design in 2019/2020, construction in 2021 Last rehab = 1998 (patch, waterproof, and pave)	Bridge	The bridge is in fair to poor condition with substandard railings. Replacing the bridge now has a lower annual average cost vs. rehabilitating it. Additionally, replacement offers the longest life and aids the County in long term capital planning.	Environmental asssessment and design started in 2019 to be completed in 2020 with tender award in late 2020 for construction in 2021 with early estimate of construction being in the order of \$2M to be proposed in the 2021 budget.		156,000	\$ 131,000	Reserves CF	10-6000-6035
RB28026-18	RB28026-18 - Earls Bridge Rehabilitation	Bridge	Early 2019 winter weather delayed completion of project.	Completion of work started in 2018. Remaining work is soffit repair and concrete weather proofing by County Bridge Crew.	\$	75,000	\$ 75,000	Reserves CF	10-6000-6035
RB05000-01	Tri-County bridge rehabilitation	Bridge	early winter prevented completion of coatings on beams.	Work substantially completed in 2019 by contractor, minor work to be completed in 2020 as weather permits.		16,500	\$ 16,500	Reserves CF

COUNTY OF HURON 2020 BUDGET

Emergency Management Services

CORPORATION OF THE COUNTY OF HURON

2020 - Huron County Emergency Services Consolidated Budget Narrative

PREAMBLE:

The Huron County Emergency Services Department is comprised of four programs, each with a budget developed. The various programs consist of the Paramedic Services (HCPS), Paramedic Fleet, Emergency Management (EM), and Paramedic Special Projects.

The Paramedic Program is a cost shared program with the Province of Ontario at a rate of 50:50. At this time, there has been no formal indication from the Province of Ontario regarding any potential changes regarding the current funding mechanism of 50 percent for the calendar year 2020. Although initially the Government announced a funding freeze and reduction back to the 2018 fiscal year, subsequent notification restored our current funding allocation and has indicated that "municipalities can expect continued growth" however the percentage increase has not been released.

The **Huron County Paramedic Services** (HCPS) and the **Emergency Management** (EM) programs are legislated entities within the Emergency Services Department.

The Ambulance Act, the various regulations and standards arising from this Act, govern the actions of Paramedic Services and establishes the province's legal basis and framework for the provision of ambulance service in the Province of Ontario. The Public Access Defibrillation (PAD) program is included in the Paramedic Services section for budgeting purposes. Fleet is an indirect requirement that is not specifically referenced within the Act, however, the types of vehicles, design, construction and specifications are documented under Ambulance and Emergency Response Vehicle Standards and procurement and decommissioning are controlled within the standards.

As we enter 2020, Paramedic Services will see continued changes and oversight with relations to new and changing legislation. The Ambulance Act had not been updated or revised in over twenty (20) years, however the Act received a major revision in 2018 and further changes are expected in 2020. Some of these changes will have a direct impact on Paramedic operations. Patients will be transported to alternative treatment facilities if the Emergency Department is not appropriate, Ambulance Communications Center's will be improved to better triage patients to allow for appropriate resources to be sent, Paramedics will be able to treat patients in the homes and "release or refer" thereby not requiring transport to the Emergency for all clients, and finally an increase in care in the home (first 72 hours, palliative care plans, etc.) which will require an increase in the Community Paramedicine Program.

As hospitals continue to reorganize for specialized care, our Paramedics will be required to transport patients further to allow for the patient to receive the right care, at the right time, in the right place. This currently includes by-pass protocols such as Stroke by-pass, STEMI by-pass (Heart Attack), and Trauma by-pass however, additional alternate destination protocols such as mental health, obstetrics and others may be implemented. Although this is the best care for the patient it taxes our resources as more patients are

being transferred directly to the specialized hospital instead of the local Emergency Department.

The Supporting Ontario's First Responders Act is a definite step forward in helping our Paramedics seek treatment and support when dealing with workplace post-traumatic stress disorder and other occupational stress disorder illnesses. It does, however, significantly increase the back fill component of Paramedic staffing. This continues to increase the amount of PTSD claims and our WSIB costs related to PTSD and Mental Health. As a result our staffing costs have correspondingly increased to meet the demand.

Huron County, and Ontario in general, has an aging population which is living in their own homes for longer periods. As this population trend continues it will add increased pressure to Paramedic Services and the associated call volumes. Increasing call volumes coupled with specialized by-pass requirements, and alternate transport destinations will continue to put added pressure on our Paramedic resources. We are currently seeing an approximate year over year call volume increase of roughly 2% - 4%. Careful planning for additional required resources in the future will be a necessity to ensure Paramedic Services are positioned appropriately for future growth.

Huron County and CUPE 4513 have a collective agreement that expires on December 31, 2019. It is expected that negotiations for the next collective agreement will start in early 2020. Although the percent increase for wages and benefits is not known at this time, a small increase has been included in this budget proposal.

Emergency Management is governed by the Emergency Management and Civil Protection Act (2009) and this legislation establishes the province's legal basis and framework for managing emergencies in the Province of Ontario. In 2017 the County of Huron started to provide shared Emergency Management services with eight (8) of the nine (9) Huron County member municipalities. The County Emergency Management Coordinator (CEMC) acts as the Emergency Management Coordinator for these member municipalities as well as ensures their Emergency Management Program achieves the requirements required under the Act.

The **Community Paramedicine** program is not legislated under the Ambulance Act, however, it is expected that the current Provincial Government will continue to concentrate on providing better community health programing to help citizens live in their homes safely for as long as possible. This position coordinates all Community Paramedicine events/programs such as patient referrals to Community Care Access, Community Wellness Clinics, Flu Immunization clinics, Project Lifesaver, as well as oversees the Community Public Access Defibrillation Program and provides training to Paramedics on topics related to Community Paramedicine. The Community Paramedicine Coordinator position is a 0.5 FTE accommodated work position.

The Emergency Services staffing compliment is broken down into three sections: Paramedic Services, Emergency Management, and Community Paramedicine and is shown in the following chart.

Position	2020	2020 FTE	2020 Total
	Hours	Addition/Reduction	FTE
Paramedic Services			
(50% funded by			
MOHLTC)			
Admin Staff	10,920	0	5.50
Paramedic	12,230	0	5.60
Supervisors (FT) & (PT)			
CP Coordinator	1040	0	0.5
PCP (FT)	117,936	0	54.00
PCP (PT)	39,974	0	18.30
Leave Top ups			
Sub – Total	182,100	0	83.90
Emergency			
Management			
(100% County			
Funded)			
CEMC	2080	0	1.0
Sub-Total	2080	0	1.0
TOTAL	184,180	0	84.90

The breakdown for the Paramedic Services Administration staff listed above includes: Half (0.5) Director of Operations, one (1) Chief Emergency Services, one (1) Deputy Chief Operations, one (1) Deputy Chief Professional Standards, two (2) Administration Coordinators, and one (1) part time Community Paramedicine Coordinator.

NOTE: As stated above the Supporting Ontario's First Responders Act is a definite step forward in helping our Paramedics seek treatment and support when dealing with workplace post-traumatic stress disorder and other occupational stress disorder illnesses. It does, however, significantly increase the back fill component of Paramedic staffing. The additional increase in backfill hours in the Part Time Paramedic salaries budget line is specifically due to increased backfill hours for coverage of Full Time Paramedics away from work for Short Term Disability, Long Term Disability, WSIB, and a small amount of time for normal vacation backfill increase.

The call volume for Huron County Paramedic Services from <u>January 1 – October 31</u>, <u>2019</u> is detailed below and is based on the data collected by the Province of Ontario Ambulance Dispatch Reporting System (ADRS).

The projected call volume for 2019 is 6,916 calls for service which would represent an approximate call volume increase of 2.1% over the 2018 year. The average call volume increase for the last three (3) years is approximately 4 percent per year.

Year	Code 1 Non-Urgent	Code 2 Scheduled	Code 3 Urgent	Code 4 Threat to Life/Limb	Totals
2015	350	90	2,124	3,302	5,866
2016	418	96	2,200	3,437	6,151
2017	365	50	2,390	3,589	6,394
2018	318	66	2,588	3,804	6,776
2019	251	8	2,118	3,386	5,763

All four programs noted above are reflected in the Emergency Services Consolidated Budget narrative and the consolidated budget will address major variances that have been identified in these programs.

BUDGET:

The MOHLTC cost shares the Paramedic Services budget increases and decreases at the 50% subsidy level which are realized in the following budget year.

Salaries and Benefits

There is a proposed increase for CUPE and a non-union salary increase included within the budget. There is an increase in the part time salaries due to an increase in backfill hours for extended WSIB, Long Term Disability claims, Short Term Disability and increase vacation coverage. These adjustments result in an overall increase of \$304,704 to the salary line.

Statutory Benefits, Extended Benefits and OMERS have increased with a net change of \$114,806. This increase is as a result of the cost of living increase in the salaries which causes the corresponding increase in benefits. Overall, the result is an increase in the Salaries and Benefits of approximately \$419,510 or 4.24%.

The salaries and benefits increase in the budget of \$419,510 represents 88% of the total increase to the Emergency Services operational budget.

Equipment

Paramedic Services – There is an increase of \$20,992 in the vehicle lease and operation section of the equipment budget. This is an increase to the leasing costs charged to Paramedic Services for the Paramedic vehicles. This increase results in a 2.96% increase operations budget.

Emergency Management – There is no change expected for 2020.

Purchased Service

Paramedic Services - There is an increase of \$15,000 for Occupational Accident Insurance which is more in line with the 2019 projected actuals.

There is a decrease in consulting of \$44,900 as we are not expecting or planning any to utilize any consultants in 2020. The remaining \$5,100 is the final payment for the Deployment and Base Review Report scheduled to be presented to County Council in February 2020.

There is an increase in the Intra County Purchases line of \$43,107. This is the amount charged to Emergency Services by the County for support services such as Human Resources, Information Technology, Finance, and Administration.

There is a \$7,000 increase in insurance based on estimates given by our insurance company.

The Maintenance Contracts has in increase of \$16,650. Currently our Automatic Vehicle Locator (AVL) provider is Fleetmatics, which is located in USA. This company will no longer qualify to be part of the Mobile Data Exchange program with the Ontario Ministry of Health and the Central Ambulance Communications Centre for both transmitting data and receiving data for the Paramedics with relation to address routing, patient information, fleet management, and other data that cannot be hosted in USA. The increase of \$16,650 is budget pricing for a Canadian based AVL provider's annual fees. The expected transition date to a Canadian based provider would be approximately June / July 2020.

Emergency Management – There is no expected change for 2020.

Overall, the result is a net increase for Purchased Service of \$37,027 or 4.67% in the consolidate budget.

Operational

Paramedic Services – With the move of Emergency Services Administration to the Clinton Fire Hall there is a decrease in the rent budget line of \$7,718.

The increase in the telecommunications line is to allow our ambulance units to become hot spots for data exchange. This is required to be included as part of the Ministry Mobile Data Exchange program as well as to transmit our 12 Lead findings on our patients experiencing STEMI symptoms to the Cardiologist in London or Kitchener.

There is also a small increase in the Travel/Meals and the Conference lines to account for a Mental Health Conference for our Peer Support Team and some other associated travel.

The depreciation on Capital Assets has increased by \$60,526.

Emergency Management – There is no expected change for 2020.

Overall, the result is a net increase for the Operational budget of \$62,163 or 6.17% in the consolidate budget.

Program

Paramedic Services – There is a slight increase in the uniform budget of \$3,635 and an estimate of a \$5,000 Cross Border Payment to Perth County included in the Program Supplies budget.

The Purchase of Service is increased by \$15,100. This increase, similar to the AVL increase, is due to our current vendor for electronic patient charting indicating that their current program will not be supported in the future (although currently still is being supported) and therefore will not be advanced to be compatible with the Province's Mobile Data Exchange program. If we wish to remain with the same vendor, we would need to upgrade to their new program or move to a new vendor. The increase in the budget is general budget pricing for a new electronic patient charting program.

The overall Paramedic Services Program budget is increasing by \$23,635.

Emergency Management – There is no increase to the Program budget in 2020.

Overall the result is a net increase in the program budget of \$23,635 or 7.94% in the consolidate budget.

Capital Assets

Those assets that are over \$1000 and are a single purchase that have been included in the capital assets section as follows:

Paramedic Services

<u>Ambulances</u>

The Huron County Paramedic Services (HCPS) is on a sixty (60) month replacement of vehicles with the vehicle being purchased in the sixth year. For 2020 we are recommending the replacement of two (2) conventional ambulances. We are also recommending that we only retire one (1) ambulance this year and maintain one (1) in service for an additional year. This will bring our total number of physical ambulances up from 11 units to 12 units.

Although we have an equipment sharing agreement with both Perth County and Bruce County to allow us to request to borrow equipment, such as an ambulance when needed, we found that over longer periods of borrowing time this is not feasible for either service. Both Bruce County and Perth County have limited spare vehicles making it difficult to borrow a vehicle for periods longer than one or two days. Both of the previous two years, we have had an ambulance accident taking a vehicle completely out of service for periods of up to six months. During these periods, when we have not been able to borrow from Perth or Bruce we have missed servicing appointments and making repairs to minor issues. This has meant that at times we are not meeting the standards set within the Ontario Regulations.

In addition, over the last two years Perth County has implemented equipment, such as a different stretcher, that are not compatible with our vehicles. In these situations we would have to train our staff on the proper use of this equipment. In the case of the stretcher, this training session is more than two hours per individual.

Response Unit

One of the current administrative/command vehicles is due for normal replacement in 2020. An administrative vehicle carries minimal equipment and is able to respond, when driven by a Paramedic or Paramedic Manager, to stop the clock for response time standards but has very limited ability to provide any level of care to the patient. This vehicle is also a car which is not practical in the winter months to use for any type of response when needed.

With the current deployment schedule, Superintendent vehicle requirements, and use by the Community Paramedic Program for events such as the Wellness Clinics, Flu shot clinics, and other educational events, it would make operational sense to replace this unit with a Rapid Response Unit which can be used for Administration, Superintendent Responses and when required Community Paramedic events, in addition to being used as a normal Rapid Response unit when required.

The cost of this vehicle would be approximately \$90,000 which includes the purchase of the vehicle, conversion and vehicle identification.

Power Stretcher and Power Load System

Staff is recommending that we continue again this year with purchasing power lift stretchers and the accompanying power loading system. Research has shown that using this type of system significantly reduces the chance of back injuries from improper lifting or over lifting. By using a power lift stretcher and the power load system we are effectively reducing the number of manual patient lifts by as many of six (6) per call. Each patient call can have up to ten (10) lifts depending on the type of call. Reducing the number of manual lifts by as many as half reduces the risk of Paramedic back injuries. Therefore we are requesting to purchase power stretchers and power lifts to be installed on the 2020 ambulances purchased. The total cost for two power load systems including two (2) power stretchers is \$124,000.

Stairchair

A Stairchair is a piece of equipment to move patients safely up and down stairs. This piece of equipment is used frequently and is required to be maintained properly to ensure the safety of both the patient and the Paramedic. Our current stock of stairchairs were purchased several years ago and are starting to reach the end of their life cycle. It was proposed to start replacing stairchairs at a rate of two per year starting in 2016. The current stairchairs are out of warranty and are starting to require an increase in repairs due to their age. We have currently budgeted to replace two stairchairs for an approximate price of \$8,000. Replacing two stairchairs in 2020 follows the requirement outlined in Asset Management Plan for Paramedic Services.

Paramedic Defibrillators

In 2013 we started to replace aging Paramedics Defibrillators at a rate of two (2) units per year. The request is to continue this process and replace two (2) Paramedic Defibrillators in 2020. The two (2) units purchased in 2020 will replace two (2) units originally purchase in 2013. Those units are outside of warranty (extended warranty is four years from time of purchase) and are approaching the end of life which is recommended to be six (6) to eight (8) years. The budget to replace two (2) Paramedic Defibrillators is \$65,000.

Medical Bags

Medical equipment bags have a lifespan of five (5) to six (6) years. Our current supply of medical bags are at that age. We are looking to continue to replace two (2) sets of medical bags this year as we have for the last few years. The approximate cost for replacement of two sets of medical bags in \$6,000.

Computer Replacements

The current recommended replacement suggested by IT staff is the length of the warranty with possible an additional year of use depending on the condition of the computer. Paramedic Services has typically kept our computers longer than the recommended cycle. The request in this budget is for \$33,000 to replace four administrative computers and several mobile units in the field.

Base Furnishings

A few bases require replacement of individual pieces of aging furniture. The budget amount of base furnishings requested is \$7,500.

Paramedic Helmets

Paramedic helmets are covered under the CSA standard for a period of 10 years. We are currently experiencing several Paramedic staff helmets that are approaching the ten year mark. Under both the Health & Safety legislation as well as the Ambulance Equipment Standards Regulation helmets are required to be issued and meet CSA legislation. We are requesting to purchase approximately 20 new helmets at an estimated cost of \$10,000.

AVL Equipment Upgrade

As outlined in the operational budget, currently our Automatic Vehicle Locator (AVL) provider is Fleetmatics, which is located in USA. This company will no longer qualify to be part of the Mobile Data Exchange program with the Ontario Ministry of Health and the Central Ambulance Communications Centre for both transmitting data and receiving data for the Paramedics with relation to address routing, patient information, fleet management, and other data that cannot be hosted in USA. The amount listed in the operational budget is for the annual service costs, however the actual AVL equipment required is a capital purchase of approximately \$60,000 to retrofit all vehicles within our fleet. This is based on generic pricing. It would be expected that we are able to receive improved pricing during the RFP process. The expected transition date to a Canadian based provider would be approximately June / July 2020.

Renovation to Zurich Base

Currently the Paramedics share the lunch room at the Zurich public works building as their EMS area. This limits the use of this lunch room for the Public Works staff as well as it does not allow for any privacy for either party. The Paramedics require privacy for numerous reasons including debriefing after a bad call, completing patient confidential records, discussions with supervisors or other management staff. This request is to complete a renovation to the Zurich public works building to add an EMS area. Once this area has been added to the building the lunch room will remain a shared lunchroom. The Paramedics will have a private area of their own to allow for the uses required and mentioned above. In 2017 the request for the renovation was \$50,000. Due to a reassessment of the scope of the project the initial \$50,000 was requested to be carried over from the 2017 to the 2018 budget. Due to unforeseen delays in getting this project complete a request to carryover the remaining funds from 2018 has occurred. The new costing of this project is estimated as \$80,000 of which \$67,000 will be funding through the carryover of funds from 2019 Capital.

<u>Autopulse Replacement</u>

The Zoll Autopulse machine is used in cases of cardiac arrest. The patient is place on the Autopulse unit which provides mechanical CPR. The benefit of mechanical CPR is that the rate and depth of compressions is accurate to 92% of the time compared to roughly 10% accuracy for manual CPR conducted by a Paramedic. In addition, when the Autopulse is in place and the patient is placed in the ambulance the Paramedic can now be seated and belted in place as they will not be required to stand freely to complete manual CPR. This is a health and safety improvement for our staff.

We currently have an Autopulse in each of our units, however, the majority of the units were manufactured and purchased in 2008. These units are starting to reach the end of their life cycle and we are seeing an increase in repairs and maintenance required.

We are requesting to start replacing the units a few at a time, starting with the oldest units. The request for this year is that we replace three (3) units. This would be an approximate cost of \$44,000.

<u>Clinton Administration – Electronic Sign</u>

When the move of the Emergency Services Administration to the Central Huron Fire Hall occurred the ability to identify to the public where the administration was located was lost. The current fire hall does not have road signage for either Paramedic Services or Fire Services.

The request is to cost share the installation of an electronic sign, similar to the current sign at the Historic Goal, to indicate the location of both Huron County Emergency Services and Central Huron Fire Services.

In addition, with a sign similar to the current one in Goderich, we can advertise safety messages, wellness clinics, and other messages to the public.

The cost of this sign and installation would be cost shared with Central Huron.

Emergency Management – There are no capital requests for Emergency Management.

Steve Lund, Director of Operations

County of Huron Emergency Services Total Capital Requirements For the year ending December 31, 2020

COUNTY OF HURON 2020 BUDGET

LIBRARY SERVICES

Huron County Library Budget 2020

Vision Statement

Huron County Library is an inclusive and vibrant community hub. It builds community, enriches lives and fosters creativity by providing access to information, skills and ideas.

Mission Statement

Huron County Library provides the community with inviting and accessible facilities, engaging virtual spaces, comprehensive collections and user-friendly technology. Welcoming and knowledgeable staff and volunteers provide innovative services and programs that contribute to community vitality.

Huron County Library

In 2017, the Huron County Library Board developed and received a new strategic plan with new vision, mission and value statements and strategic priorities for the library system to follow over the next five years. The strategic priorities outlined in the new strategic plan are:

- 1. Deliver services, programs and collections that meet community needs;
- 2. Deliver innovative and reliable technology that supports and enhances library services and programs to meet community needs;
- 3. Promote and strengthen partnerships with community members and organizations in order to better understand and respond to community needs and initiatives:
- 4. Build relationships with funding sources to maintain and improve practices and services;
- 5. Promote and strengthen library culture of teamwork and collaboration;
- 6. Create dynamic spaces that are accessible, welcoming and safe for patrons.

In order to realize these goals over the next five years, the strategic action plan is reflected in the 2020 budget.

Huron County Library, both now and in the future, provides library services to all residents of Huron County in the following manner:

- Service points at 12 library branches Bayfield, Blyth, Brussels, Clinton, Exeter, Goderich, Hensall, Howick, Kirkton, Seaforth, Wingham, Zurich;
- Over 529,000 books and other items, computer software, ebooks and audiobooks, digitized files of historic newspapers;
- 14 full-time and 26 part-time staff, plus 72 volunteers;
- Safe and free community space for all ages to meet and socialize;
- Access to quality electronic services free public access to computers and wireless networks as well as electronic resources downloadable from within the library or from home and hubs for loan to provide home Internet;
- Programs to support enjoyment of reading and lifelong learning.

Huron County Library's Strategic Plan places increased attention and focus on engaging with our communities and enhancing service through partnerships with other local organizations.

The 12 library branches share administrative resources which allows for an efficient use of the resources outlined below.

- Centralized administration, ordering, processing, cataloguing new materials:
- Shared professional and program staff;
- Distribution and shared rotation of library materials;
- Van delivery to library branches four times per week;
- Integrated library information system with online access for patrons;
- Interlibrary loan.

Every year, the Library engages in a week long annual survey as mandated by the Ontario Ministry of Heritage, Sport, Tourism and Culture Industries. Combining our regular statistics, and data gleaned during the survey week in 2018, the residents of Huron County:

- Had 18,370 current library memberships;
- attended 2,256 library programs (with a total attendance of 24,631);
- asked 4,700* reference questions; 800* electronic reference questions;
 5250* reader's advisory; and 6150* technology questions (taking an average of 4.46 minutes to answer);
- received services, equipment or materials for accessible purposes (for patrons with physical or print challenges) 19,950* times;
- used 44,900* newspapers, reference and other materials in the library;
- visited their libraries 185,800* times in person and 155,532* times virtually;

- used library computer workstations 24,550* times (mainly for Internet access);
- used wireless 14,850* times to connect to the Internet using their own devices;
- visited our on-line catalogue 61,918 times;
- downloaded 62,931 audio, music, film and e-books;
- and borrowed 383,931 items (all materials, traditional and electronic).

*annual statistics projected from results of the Annual Survey Week (November 2018) by Provincial formula = weekly count x 50 weeks or 52 weeks for online services.

Other interesting statistics from 2018:

- Volunteers donated 734 hours of their time at the library;
- 86 people borrowed 280 packets of seeds from the seed library;
- Electronic databases were accessed 35,746 times.
- Patrons received 4,508 items through interlibrary loan; 3,764 items were loaned to other libraries.
- 64,786 holds were placed on library materials by staff or by patrons online.

Background to the 2020 Budget

The Library continues to use a zero-based budget where each budget line is built on the expected needs for the coming year.

The following sections are used in the Library's Budget:

- Administration for overall administrative expenses and the operation of the Library Administrative office which handles the selection, ordering, cataloguing, processing, and exchanging of library materials to the branches, interlibrary loan, electronic services, payroll, accounts, supplies, supervision, and other administrative functions;
- Branch Services includes wages and benefits for the staff working at the twelve library branches, books and materials, maintenance grants for host municipalities, and furniture and equipment under \$1,000 per unit for library branches;
- Special Projects continuing to digitize local materials.
- Summer Reading Program encourages literacy skills in elementary school-age children. Students are hired to develop and deliver weekly programs at all branch libraries during the summer. Usually successful in obtaining student grants for this program.

2020 Budget

This budget aligns with changes to the provision of library service in Huron County as set out in the new Strategic Plan.

Resources first raised in 2015 in hope of a renovation project in Clinton are once more being brought forward to 2020.

The Library will continue to participate in the Ontario Library Consortium (OLC) for Integrated Library System (ILS) software and online catalogue and other group software costs covered under Maintenance Contracts. Reduced costs have been realized due to additional members joining the OLC. (Costs are shared among members). To better meet user needs, a library app will be added in 2020.

Collection initiatives include the continued investment in significant numbers of eresources to provide online access to more e-books, music, movies, television shows and comic books online. As much as possible, funds are continuing to be transitioned from traditional materials to on-line and innovative materials rather than requesting additional funds. Changes in the licenses of eBooks/eAudio have resulted in a portion of the collection being accounted for in the operational budget while print materials and eBooks/eAudio with perpetual licenses will remain capital items. The strength of the Canadian dollar does impact buying power both in traditional and electronic products.

2020 will see the ongoing replacement of hardware at the libraries. A regular replacement schedule keeps annual costs reasonable and maintains reliable service.

We continue to focus on working collaboratively with other agencies and organizations to increase capacity.

Revenue

Most of the funding for the Library comes from the Corporation of the County of Huron. The Province provides a fixed operating and pay equity grant.

As in past years, application will be made for Young Canada Works in Heritage Organizations and Canada Summer Jobs (CSJ) grants to assist with summer student wages.

Fine revenue continues to decline although the rate seems to have slowed somewhat. Donations and Third Party Recoveries reflect purchases made with donated funds, Friends of the Library sponsorship, community partner grants and recoveries from photocopy fees, coffee donations and other fees.

Expenditures

Staffing

Core Library staff and non-project based students participate in the County of Huron's non-union employee group, of which the wage rates and cost of living increases are established by the County of Huron. A 1.5 % increase has been included in the budget numbers for wage increases in 2020.

Library Core Staff Component

	2019 FTE	2020 FTE
Administrative office	9.8	9.3
5 Branch Managers	5.0	5.0
30 Branch Assistants, 10 student pages (approx.)	15.9	16.4
	30.7	30.7

The full-time Community Information Librarian contract position will end July 2020. Upon thorough assessment of the work that has been done and with a vision to continue to build on the success and relationships that have been established, it is proposed that these hours be made permanent through a dispersed model. One Branch Assistant would add to their hours to work full time. The remaining hours would be spread among the remaining teams to allow them the flexibility the work requires. This would allow for all libraries to continue the 'Libraries Transforming Communities' model.

The admin budget part-time salary line has been impacted by part-time staff covering a leave for a full-time position. A minor impact is also felt as a result of coordinating delivery exchange with Perth libraries using the library's existing Driver's and vehicle.

In 2020, digitization will be funded primarily through a special Library reserve. Grant funding will continue to provide support for special projects such as summer programming with contract workers, usually students.

There is minor budget pressure as a result of the cancellation of the Southern Ontario Library Service (SOLS) run Interlibrary Loan system. This has resulted in increased postage costs as well as the aforementioned staffing implication.

Capital Expenditures

Traditional collections plus computers and equipment with a value of over \$1,000 are contained in the Library's capital budget. Through ongoing replacement requirements, computers and receipt printers will be purchased this year. Other priorities will be the addition of new creative collection materials and updates to interior library spaces to reflect community hub work.

In 2020, the Library continues to reallocate resources from the purchase of traditional print materials in order to further the inclusion of unique and innovative collection materials, the digitization of historic newspapers and electronic materials.

Summary

The goals and strategies of the Huron County Library's new Strategic Plan and the strategic priorities of the County of Huron have been used to focus budget priorities. Key priorities to roll out in 2020 include the continuation of the digitization project, outcome measurement, update of library spaces to meet community needs and structural changes to make the community hub project a permanent part of library service. In addition, Health & Safety is a priority in every budget line. This is reflected in the training, equipment and security budget lines.

Beth Rumble, BBA MLIS County Librarian

County of Huron LIBRARY SERVICES Total Capital Requirements For the year ending December 31, 2020

Capital Expense	Asset Type	Reason for Request	Priority	Description	Total	Cost	External Funding Amount	External Funding Source
Books and Materials					\$	271,000		
eBooks					\$	5,000		
Clinton Library					\$	55,000	\$ 55,000	prior year carryforward
Desktop Computers					\$	34,500		
Goderich Refresh					\$	15,000

COUNTY OF HURON 2020 BUDGET

CULTURAL SERVICES

Huron County Cultural Services Department Budget 2020

Background to the 2020 Budget

The Huron County Cultural Services Department has responsibility for the Huron County Library, Museum, Historic Gaol, County Archives, Heritage Fund, Art Bank, and Cultural Program. This budget relates to all non-Library related functions of the Department.

2020 Budget

The Cultural Services Department uses a zero-based budgeting approach, where each budget line is built on the expected needs for the coming year. To align with the way in which the Department functions, various programs of the Department are broken down in the separate sections of this budget narrative.

Huron County Museum & Historic Gaol (including Archives)

Mission & Vision Statements:

Vision:

The vision of the Huron County Museum & Historic Gaol is to nurture and inspire heritage and culture.

Mission:

The Huron County Museum & Historic Gaol engage our community in preserving, sharing, and fostering Huron County Culture.

The core business of the Museum is to operate a year-round museum, meeting all of the Ministry of Tourism, Culture & Sport standards, as well as the Huron Historic Gaol, a National Historic Site, for six months of the year, plus special events and exhibits, Huron County Archives, and Tiger Dunlop Tomb. Outreach programs and exhibits associated with the Museum travel to locations and functions across the County of Huron throughout the year.

The physical plants of the Museum building and Historic Gaol are managed by the County Property Services, and the Museum and Gaol pay rent for space to the County.

In 2019, the Huron County Museum and Historic Gaol underwent a comprehensive strategic planning process. The resulting Plan was approved by Council in mid-2019. Central to the new plan is:

- Engaging with more people
- Long-term sustainability
- Diversity and Inclusion
- Flexibility

Specific action items included in the Museum & Gaol's 2020 Budget are the result the Museum and Gaol's Strategic Plan as well as the County of Huron's Strategic Priorities Chart.

Revenue

Most of the funding for the Huron County Museum and Historic Gaol comes from the Corporation of the County of Huron. The Province of Ontario provides the Community Museum Operating Grant (CMOG) subject to conditions and standards being met. This CMOG funding received yearly is \$63,226 for the purpose of enhancing the heritage activities of the Museum.

Federal and provincial staffing and project grants are utilized when available, in particular Young Canada Works in Heritage Institutions and Young Canada Works Building Careers in Heritage Internships.

Museum and Gaol admissions can vary according to the interest of visitors and tourists. This can be affected by weather, travel plans, and changing exhibits at the Museum. Free admission for Huron County Library card holders was introduced in 2018 along with new procedures and fees to be applied to out-of-county visitors and specialized rental groups.

Through a new sponsorship opportunity, the Museum has been able to offer subsidized travel to school groups. This has significantly increased the number of school groups visiting the Museum and Gaol and is reflected in the increased revenue to Educational Programs.

Diversifying revenue through Sponsorships & Donations continues to be a priority for the Museum and Gaol in 2020. Partnerships and rentals with groups such as St. John Ambulance and Rural Response for Healthy Children are anticipated to continue in 2020.

The development of a unique value proposition is underway and research has been completed to specifically understand segmented user needs. This will allow for the appropriate message to be marketed through the appropriate channel, the intended result being a higher return on investment with respect to marketing dollars.

Expenditures

Salaries and Benefits

Museum employees participate in the County of Huron's non-union employee group.

Museum Core Staff Component (Including Gaol)

Position	2019 FTE	2020 FTE
Director	.3	.3
Senior Curator	1	1
Curator of Engagement & Dialogue	1	1
Registrar	1	1
Archivist	1	1
Administrative Assistant	1	1
Business Development Manager	1	1
Museum Technician	1	1
Museum Technician Assistant	.5	.5
	7.8	7.8

The student and part-time staff component varies each year in response to grants received. Students participate in the non-union employee grid as directed by County Administration. Funding will be sought to offset costs for summer student positions through Young Canada Works and other grant programs as available.

The addition of a student Collections Assistant has been added this year. This position would assist with the backlog of uncatalogued materials that exist within both collections and archives. Young Canada Works offers six month internships that run October to March. This would cover 60%-75% of the cost. The position would not be filled if grant funding is not successful.

The Museum's full time salary budget shows an increase as a full time staff person who was previously being paid from the part time budget (while on contract) is now represented in the full time budget.

Exhibits

Exhibit priorities for 2020 include continued redevelopment of the Museum's permanent Galleries including a complete redesign of the Industry Gallery. An existing bequest will offset a substantial portion of the redesign.

The Temporary Exhibits in 2020 will include a highly interactive exhibit highlighting Huron County's symbiosis with water and the need to protect the environment. Additionally, the Museum will partner with several local organizations to complete smaller temporary exhibits, celebrating the Goderich Mason's 175th anniversary and artist Jack McLaren.

At the Huron Historic Gaol, a new display will feature stories of the women and children of the Gaol along with the more unusual stories.

Programming

The Museum will continue to pursue partnerships in order to deliver new and exciting programs to the residents of Huron County. The momentum generated from an influx of school groups will be carried into 2020 and the creation of an Education Committee will help inform these visits. The development of partnerships in order to maximize the capacity and potential of the Museum has played an important role in the reestablishment of the Huron County Museum and Historic Gaol as a leader in the cultural sector in Huron County, in recent years.

Programs planned for 2020 include a variety of workshops and speaker programs at the Museum as well as the Gaol, day camps, public programs, and the very popular Gaol Behind the Bars program.

The Gaol is in the process of applying for a grant that encourages 'shareable moments'. If successful, this would allow for the creation of an interesting photo opportunity located at the Gaol. The grant offers matching funds.

Operational

The Huron County Museum and Historic Gaol will continue to undertake its reorganization of artifacts and storage areas in order to maximize space available, focusing on Museum Main Storage and Off-site storage. Inventory of Museum Main Storage has been completed, leading to the 2020 focus of further research of artifact provenance and development of a list of potential deaccessions according to the Museum Deaaccessioning Policy.

During 2020, Property Services will be undertaking remedial work at Off-site storage. This will allow artifacts that were previously unsafe to access the opportunity to be catalogued and evaluated. At this time, all artifacts moved will be evaluated for deaccessioning.

The Collections Committee will continue to serve as a collections and advisory committee.

Huron Heritage Fund

In 2019 a variety of heritage projects received funding from the Huron Heritage Fund to enhance the variety of heritage projects ongoing in the County. All \$25,000 in funds

2020 Budget November 2019 M-4

were allocated by the Huron Heritage Fund. In 2020, the Committee will continue to assess applications for the grant in May and November.

Cultural Program

The County of Huron's Strategic Plan articulates that "a vibrant cultural sector" is a key characteristic of Huron County. A cultural component to the Cultural Services Department in Huron County has been in place since 2011. Over the course of 2019 consultation took place to redevelop the Cultural Plan. Based on initial findings, funds have been included in this budget to begin work on a new Cultural direction.

In 2020, the Cultural Development Officer will continue participation in various County initiatives including Alice Munro Festival of the Short Story and the Huron Multicultural Festival, as well as support other culture-based initiatives.

The Cultural budget for 2020 is experiencing an increase to account for the department supporting new initiatives that arose through consultation for the new Cultural Plan and in light of reduced grant funding for programs, such as the Multicultural Festival.

Cultural Services Staff Component

Position	2018 FTE	2019 FTE
Cultural Development Officer	1	1

Capital Expenditures

Through ongoing replacement requirements, computers will be purchased this year. Office furnishings include the final stage to update staff workspace to make more efficient use of existing office footprint. This will also allow for an exhibit preparation area. A portable stage will allow for more frequent events to occur, including an annual fundraiser.

2019 Capital Expenditures	Amount
Computer Replacement	\$6,000
Office Furnishings Update/art room	\$13,000
Permanent Gallery Cases (carryover)	\$7,500
Portable stage and event lighting	\$9,000
Theatre Seating (carryover)	\$8,000
Rental Furnishings	\$2,000

COUNTY OF HURON 2020 BUDGET

PLANNING and DEVELOPMENT

CORPORATION OF THE COUNTY OF HURON

Planning and Development Department

To: Warden and Members of County Council – Day 1

From: Sandra Weber, Director

Date: December 10, 2019

Subject: Planning and Development

Proposed Work Plan and Budget for 2020

BACKGROUND

The Planning and Development Department provides a range of services including land use planning, community development, sustainability planning, forest conservation, stewardship, climate change and energy. There are 3 sub-budgets including planning, water protection, forestry and stewardship. The budget accommodates the core functions of the Department and priority projects for the coming year.

COMMENTS

2019 Highlights

Under last year's work plan, the following achievements are noted:

Planning

- Processed 249 development applications under the Planning Act within legislated timelines (90 of those were severance applications);
- Completed community consultation and draft policies for County Official Plan 5 Year Review (final public meeting expected early 2020);
- Completed a Natural Environment Update for Huron County;
- Draft approval of 3 Plans of Subdivision (Exeter, Seaforth and Clinton);
- Implemented continuous improvements to planning processes e.g. Follow-up planning satisfaction survey, User Guides, tracking study requirements;
- Organized a workshop for municipal staff on historic landfill sites;
- Initiated Growth Planning Best Practices and Housing focused projects;
- Presented at the Ontario Heritage Conference held in Bayfield and Goderich;
- Hosted the Ontario Heritage Planners Network in Clinton and Vanastra;
- Hosted the Ontario County Planning Directors Conference;
- Hosted 3 themed meetings of the Sustainable Huron Steering Committee on Sustainability Indicators and myPerthHuron Website, County Official Plan Update, and Climate Change and Energy Reduction;
- Implemented 2019 recommended actions from the county-wide Cycling Strategy (e.g. Advisory Committee meetings, education and awareness events for June Bike Month, update of cycling routes map).

Water Protection

- Coordinated meetings of the Water Protection Steering Committee covering Nutrient Management and related strategies to protect water quality; drainage innovation; local approaches to tackling plastics; Nuclear Waste Management Organization and our water;
- Approved funding for 261 clean water projects (in line with the 10 year average of 252 projects per year), allocating \$400 000 for stewardship projects.

Forestry and Stewardship

- Monitored forest harvest activities from 175 Notices of Intent filed under the Forest Conservation By-law;
- Sheppardton Tract Hwy #21/Nile Road, ACW -rebuild and grading of logging road in many places over 2km stretch using corduroy logs, gravel and custom bulldozer operator paid for in part by logging contractor; harvest of 200 acres with the objectives of ash salvage, forest health improvement and increased growth and future value of timber (approx. 30K); installation of 300' boardwalk to connect Nile Road and Highway #21 entrances –all material sourced from County forests; installation of small parking lot/log landing on Nile Road
- Stevenson Tract Morris Road and Clyde Line, MT- salvage of 12K worth of Ash; grading of trails with rented bulldozer:
- Redmond Tract –Westfield Road, ACW salvage of approximately 10K worth of Ash; grading of trails and parking area; installation of walking bridge over municipal drain to reconnect trails (100% of material sourced from county forests):
- Stingel Tract Glens Hill Road, ACW repair of seriously damaged trail areas; grading and gravelling with backhoe;
- Moreland Tract Hawkins Road, ACW repair of seriously damaged trail areas, large holes filled with broken concrete cleaned up at former Varna Pit, topped with locally sourced gravel; grading and gravelling with backhoe and rented bulldozer; repair of culverts;
- Bannockburn Tract (former Varna Pit) Bannockburn Line, BL salvage of 14K worth of ash; installation of walking bridge (100% of material sourced from County forests); mapping and installation of a scenic walking trail; grading of topsoil and sand mounds with rented bulldozer for risk management; creation of natural log berm to reduce ATV access; spraying of Phragmites patches;
- Taylor Tract Hwy #87, Howick installation of small parking area/log landing;
- In partnership with the Huron Stewardship Council, secured \$55 000 for the protection of species at risk; \$25 000 in-kind from the Toronto Zoo for species at risk recovery; created 3 local jobs (2 seasonal positions and 1 fully year position); provided education to over 3000 students and residents on water and wildlife conservation.
- Began a partnership with the Canada Conservation Corps program providing seasonal employment for 6 youth to assist with forestry and stewardship work at no cost to the County.

Climate Change and Energy

- Updated the County's Conservation and Demand Management Plan;
- Worked with the Conservation Committee to begin implementing actions from the 2019
 Conservation and Demand Management Plan;
- Joined the Partners for Climate Protection Program;
- Developed a 2017/2018 Corporate Greenhouse Gas Emissions Inventory;
- Compiled data on climate projections for the County, which will be used to complete a vulnerability and risk assessment for the County's climate adaptation plan;
- Meetings with all County Departments to raise awareness about energy conservation and the importance of corporate leadership.

Budget Summary

Notable changes in the budget for the coming year include:

Staffing: There are no staffing changes proposed for 2020. The Climate Change and Energy position approved last year with 80% funding from the Federation of Canadian Municipalities will continue in 2020.

Planning– Planning Application Fees: Projected revenue from Planning Application Fees has been increased by \$50 000 based on actuals from the previous 2 years. There has been an increase in the

number of Consent (severance) applications and Plans of Subdivision/Condominium which is expected to continue through 2020.

Printing: The printing budget has been reduced by \$3000. Reduced need for printing as the Planning Act was updated to allow notices to be sent by e-mail.

Special Events: The Planning Special Events budget has been reduced by \$4000 which was increased in 2019 to accommodate the County Planning Directors Conference.

Projects: A carry forward of \$23 000 has been included in the Consulting budget for completing the Growth Planning Best Management Practices Project. This project began in October, 2019 and will be completed in early 2020. The Residential Intensification Guidelines project which was approved by Council as part of the Housing Initiatives report is included in the budget at a cost of \$40 000.

Forestry Legal: A decrease of \$20 000 in the Forestry legal budget to \$10 000 as there are currently no active cases in Court and the number of violations is decreasing due to education and awareness.

Forestry Vehicle Lease and Operation: \$5500 has been added to the Forestry budget for a surplus Public Works truck to be available to the Forest Conservation Officer to pull the trailer and all-terrain vehicle used for maintenance in the County Forests and inspections for Notices of Intent. The overall impact to the budget is an increase of \$3400. The mileage budget is reduced as a result of a personal vehicle no longer being used to tow the trailer.

Clean Water Project: The Clean Water Project will continue to be offered and the County allocates \$400 000 to that project each year.

Climate Change and Energy: Costs associated with implementation of the Climate Change Adaptation Plan are proposed to be covered through the Forest Conservation reserve and the Sustainable Huron Reserve funds.

Work Plan

The Department's core functions include land use planning, water protection, forestry and stewardship and climate change and energy reduction. Each division develops a detailed work plan for the year. Work for the coming year will include:

- Housing initiatives (Residential Intensification Guidelines, Pre-zoning and review of Official Plan and Zoning Provisions)
- Continuing with process improvements in Planning, including the follow-up survey to applicants who have completed a planning application
- Local Official Plan and Zoning By-law updates
- Completion of the County Official Plan update
- Sustainable Huron, including implementing the Cycling Strategy
- Water Protection Steering Committee, including the Clean Water Program
- Forest Conservation and Stewardship
- Completion of the County Climate Change Adaptation Plan

Funding Sources

The operating budgets for each of the program areas are funded as follows.

Program	County Levy	User Fees	External Grants
Planning	84%	15.9%	0.1%
Water Protection	100%	-	-
Forest Conservation & Stewardship	90%	10%	-
Climate Change and Energy	20%		80%

Staff

There are no proposed changes in the Department staffing level for 2020.

Status	Hours	2019 FTE	# Positions	2020 FTE Additions/Reductions	Total 2020 FTE
Regular	Full-time	13.0	13	0.0	13.0
Regular	Part-time	1.2	3	0.0	1.2
Occasional (students)	Full-time/Part- time	1.0	1	0.0	1.0
Temporary (project staff – Climate Change and Energy)	Full-time	1.0	1	0.0	1.0
Total		16.2	18	0.0	16.2

FTE = Full Time Equivalents

OTHERS CONSULTED - Senior Planners; Department program staff; Treasury staff; CAO.

BUDGET IMPACTS

Overall costs have been moderated by controlling operating expenses where possible, and by securing external funding where possible. The attached budget would accommodate the core functions of the department, plus priority projects for the coming year.

COUNTY OF HURON 2020 BUDGET

Economic Development

CORPORATION OF THE COUNTY OF HURON

Economic Development

TO: Warden and Members of Council

FROM: Cody Joudry, Director of Economic Development

DATE: December 18, 2019

SUBJECT: Proposed 2020 Economic Development Budget

Highlights

The draft \$1.6 million Economic Development budget is decreased by 5.2% from 2019. It proposes \$1.25 million is funded from the County levy (decrease of 4.5%), \$0.36 million funded from grants (decrease of 23%), and \$0.18 million funded from reserves and accumulated surplus.

Priorities

Continuing the priorities outlined in the *Huron County Economic Development Plan 2016-2020*, the budget proposes continued implementation of: the Workforce Attraction & Retention Strategy; efforts to increase attainable housing, implementation of the Agri-Food strategy; and developing a new Tourism Strategy. In addition, it includes continuing to provide small business and entrepreneur support services and programs.

Revenue

We expect the County will receive \$359,846 in provincial and federal grants (22.3% of the proposed budget) to deliver the Small Business Centre, Starter Company Plus, Summer Company, and Immigration (LIP) programs. The following breakdown identifies the County contribution towards these programs.

Program	Total Expense	% External Funded
Small Business Centre	\$231,668	69%
Digital Main Street	\$ 30,000	100%
Immigration (LIP)	\$162,049	92%

The Small Business Enterprise Centre funding agreement with the Province is expires 2022. A proposed agreement with the Federal Government for a new 5-year agreement for the Local Immigration Partnership program will be coming in January 2020.

Expenditures

The draft \$1.6 million 2020 Economic Development budget is an overall decrease of 0.45% from 2019 (5.5% County Levy). Approximately half the costs (48.4%, decreased from 53.5% in 2019) are labour related. This represents 10.5 FTE, 5.5 of which are partially funded (increase of 1.0 FTE).

Relatively speaking the costs of the department have largely stayed the same with some adjustments within the budget. The largest changes in the budget represent decreasing staffing costs (14.5%) and increasing projects costs (18.5%).

Department Programs

The draft \$1,612,909 Economic Development budget can be broken down as:

- \$1,116,192 for business sector prosperity and economic challenge related activities;
- \$261,668 for business and entrepreneur support related activities; and
- \$162,049 for addressing immigration related work; and
- \$73,000 for the Board and related projects.

Summary

In summary the draft 2019 Economic Development budget proposes to continue to work towards the priorities set out in the *Huron County Economic Development Plan 2016-2020* with an emphasis on:

- (1) Individual Business Support Services;
- (2) Workforce Attraction and Retention;
- (3) Agriculture;
- (4) Tourism; and
- (5) Manufacturing.

COUNTY OF HURON 2020 BUDGET

Homes for the Aged

Long Term Care Homes – Budget Proposal for 2020 Huronview and Huronlea, Heartland and Highland Apartments

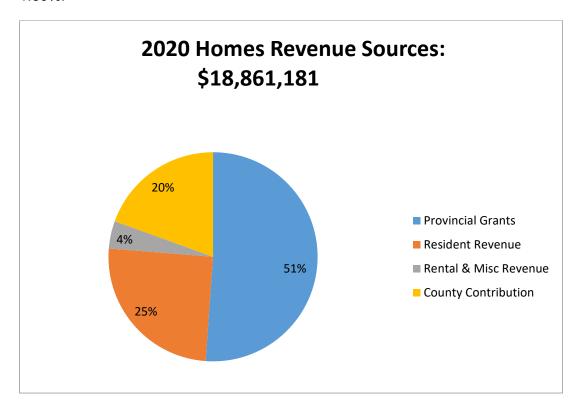

The original House of Refuge at the Huronview site was established in 1895. In 2020, the County Homes will have been in operation for 125 years. Today, the province mandates the operation of long term care beds by municipalities. The County of Huron operates two accredited long term care homes: Huronlea in Brussels, and Huronview in Clinton.

The Homes for the Aged 2020 budget proposes the same core services to the long term care residents of Huronview and Huronlea as in 2019. As in previous years, provincial funding has been maximized and is not keeping pace with the rising costs of salaries and benefits at the homes, particularly in the Nursing and Personal Care envelope.

Revenues

The County contribution to operate the two homes and apartments in 2020 is projected to be \$3,736,293.

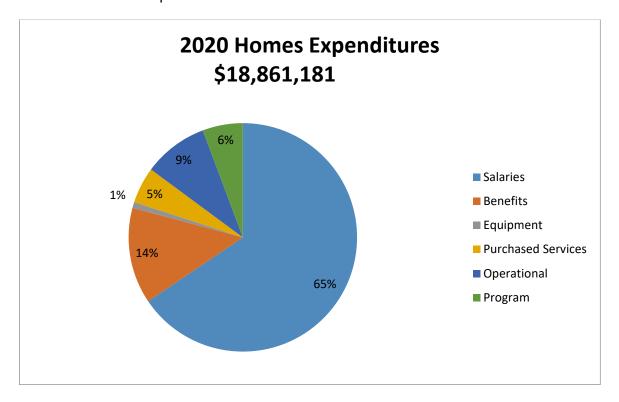

The following chart shows that 80% of revenues are from sources other than the county contribution. The Homes provincial operating grant revenue decreased \$156,065 from 2019 which is a decrease of 1.60%.

Expenditures

Salaries and benefits are the largest expenditures at the Homes as the delivery of long term care services to frail and vulnerable residents requires a skilled workforce. One of the major challenges is recruiting qualified employees especially in the Personal Support Worker, Registered Nurses, Cooks and Food Service Worker roles.

Wage rates are governed by collective agreements with the following labour groups: ONA, SEIU and IUOE. Administrative staff and leaders follow the County's non-union wage grids. 79% of the Homes expenditures are allocated for salaries and benefits.

Overall expenditures are proposed to increase by \$276,168 from 2019. Increases are budgeted for salaries and benefits (2.17%), equipment repairs and replacement (2.41%) and purchased services which includes professional fees and insurance (1.46%).

For general operational cost such as supplies and maintenance costs there is an anticipated decrease in expenditures of 1.86%. For program supplies there is an anticipated decrease of 1.29%.

There has been no significant change in the number of Homes staff in the past year. The County will be entering into contract negotiations with ONA and SEIU in 2020. Our contract with IUOE will expire December 31, 2020.

Strategic Plan, Key Projects & Priorities

The departmental managers set and achieve annual goals which are incorporated into an overall Homes Strategic Plan. This plan is presented to council for information purposes including progress reports. This plan is based on four major pillars:

Resident Safety & Quality, Excellent People and Learning, Operational Resources and Capital & Partnerships and Governance. There are potential planned budget impacts related to initiatives within the strategic plan.

Key Projects for 2020 include: preparing for an Accreditation survey in early 2020, completion of the replacement of the main sprinkler pipe throughout each of the Homes and the installation of several resident room ceiling mechanical lifts.

Ministry of Health Funding

One of the funding cuts to long term care homes is the Structural Compliance Premium. Huronview receives \$10,950 per month and Huronlea receives \$5,840 per month. It has been communicated by the Ministry of Health and Long Term Care that this funding will end March 31, 2020. The impact to the

Homes budget is anticipated to be \$98,550 for Huronview and \$52,560 for Huronlea. Combined this is a decrease of \$151,110 in funding.

There was also changes made to our RAI (Resident Assessment Instrument) funding. There will be a decrease of \$13,956 funding for both Homes for 2020.

Total Ministry of Health funding cuts, for both Homes, is anticipated to be \$165,066.

Huronview Executive Summary

Salaries and Benefits - Increase of 3.16% from 2019

There is no change to the staffing compliment at Huronview. This change is comprised of wages and statutory and extended benefit increases.

Equipment - Decrease of 0.41% from 2019

Repairs & Maintenance: Decrease of 6.78% from 2019 to reflect actual costs.

Equipment Replacement / New (under \$1,000): Increase in this line to changes in capital expenditures.

Purchased Service - Increase of 0.95% from 2019

This budget area is relatively stable and includes snow removal which is a predicted expenditure.

Operational – Decrease of 0.37% from 2019

An increase in maintenance repairs (building, electrical and plumbing) are offset by a reduction in the minor capital expenditures.

Program - Decrease of 1.27% from 2019

For the nursing department, there are increases for basic needs (incontinence products) and medical supplies. Costs for medical supplies increases yearly to meet demands of increasing infection control costs for supplies and supplies for skin and wound care. The estimated costs, per outbreak, at the Home is approximately \$7,000 for supplies.

Homes wide we anticipate no substantial increase for program supplies. These supplies include all paper products, garbage bags, Kleenex, floor cleaners, resident tub supplies, gloves etc.

Summary

Overall Expenditures for 2020 are projected to increase by 2.43% which includes salaries and benefits. It is projected that the Huronview total county levy portion will increase by \$288,990 or 13.86% from 2019. This increase in the levy portion is attributed to the increase in salaries of over 3%.

Huronlea Executive Summary

Salaries and Benefits – Increase of 0.27% from 2019

There are no proposed changes to staffing compliment at Huronlea Home for 2020. The increase is comprised of wages and statutory and extended benefits.

Equipment – Increase of 5.59% from 2019

Repairs & Maintenance: Increase of 4.44% to reflect actual costs.

Equipment Replacement / New (under \$1000): Increase of 36.59% reflective of changes in capital expenditures.

Vehicle lease & operation: No increase for 2020 as lease for Huronlea Home tractor was at end of tenure and purchased outright in 2018.

Purchased Service - Increase of 2.27% from 2019

Increase of 13.04% for 2020 snow removal contract and a noted increase of 30.99% for insurance.

Operational – Decrease of 4.11% from 2019

This decrease is directly related Building Capital at 60.45% and a decrease of 27.62% in Grounds Maintenance. Anticipated increase of 9.77% in water and sewer costs. We will be over budget at year end for 2018 and this increase reflects actual expenditures.

Program - Increase of 1.32% from 2019

No budgeted increase to Basic Needs Program costs or Medical Supplies for 2020. An overall decrease of \$5,220.00 for Programs in 2020, reflective of a decrease in Program Supplies and Costs.

Summary

Overall Expenditures for 2020 are projected to decrease by \$10,072.00 or 0.15%; which is inclusive of Salaries and Benefits. It is projected that the Huronlea total County Levy portion will increase by \$35,583 or 2.68% from 2019.

COUNTY OF HURON 2020 BUDGET

Social and Property Services

County of Huron Social and Property Services 2020 Budget Proposal

The Social and Property Services Department offers programs with a number of services on behalf of the Provincial and Federal governments, and the County of Huron, as follows:

- Ontario Works: employment and financial assistance, Pathways emergency assistance
- o Children's Services: EarlyON, home child care, child and family centres
- Housing Services: community housing, affordable housing, rent supplements, participation in provincial programs; Homelessness prevention programs, transitional housing, cold-weather emergency shelter, outreach services, addiction supportive housing
- Property Services: operational and capital components for the County's Municipal properties

Social Services Summary:

The County contribution to operate Social Services (Ontario Works, Children's Services, and Housing Services) in 2020 is projected to be \$4,928,783. This represents an increase of \$625,580 over 2019, or 14.54%

The total Social Services expenditures for 2020 is budgeted at \$21,466,234, which is a decrease of 1.06% over 2019. The Province of Ontario grants total \$14,165,983 (a 1.85% increase from 2019); the Federal government grants total \$751,887 (an increase of 13.59% from 2019), and other revenues, which includes rental and lease income of \$1,685,000, are anticipated in 2020.

The total number of staff delivering all programs is as follows:

Program	Full Time FTE	Part Time FTE		
Ontario Works	16.4	0.6		
Children's Services	10.95	3.85		
Housing	15.4	1		
Property Services	6.95	0.9		
Total	49.7	6.35		

Also included in the budget are the ongoing grid movements for employees.

1. Ontario Works

The provincial operating grants budgeted for Ontario Works have been stalled at the 2018 rates. The costs to deliver income supports and other benefits directly to clients is 100% provincially funded. The eligibility criteria is set by the province through legislation and covers expenses such as the cost of basic needs, shelter, temporary care allowance (for youth not living with their family), board and lodge allowances, special diet items, personal needs allowances, diabetic supplies, prosthetic appliances and discretionary benefits, to name a few.

The Employment Related Expenses are set at \$429,200 and issued as a 100% Provincial grant to provide services promoting job readiness and placements for clients, counselling, addictions

supports and assessments and benefits directly delivered to clients for training, licenses, job searching, safety clothing etc.

Administration for the Ontario Works program remains at 50/50 cost-shared by the provincial and respective municipal government. In 2020, the cost of administering the program will total \$1,736,000 which will be split 50/50 with the province. The majority of these costs (\$1,614,598) relate to salaries, statutory and extended benefits, and OMERS for the employees providing services to the clients: case managers, eligibility review officers, computer systems support, intensive and volunteer case managers, clerical and supervisory staff. The other large cost to the administration budget is the cost of rent paid to the County's Property Services for the office space required to house the program, at \$65,196 in 2020. With the province's roadmap anticipated to fundamentally change the delivery of social services and Ontario Works (OW) in 2021 and onwards, leadership is carefully reviewing strategies to maintain a workload balance with all the programs being delivered. The budget has been created to continue to allow for flexibility in deployment between OW, Children's Services and Housing supports as programming needs dictate in the coming years.

Provincial funding and the Community Homelessness Prevention Initiative funding have been utilized to develop the County's Pathways to Self-Sufficiency program. This program provides one-time targeted assistance to low-income clients (who are not on social assistance) in the following ways:

- Emergency Shelter
- Dental services
- Vision care
- Prescription medications
- Needle exchanges
- Moving expenses
- Transportation
- Hydro arrears
- Gas arrears
- Rent or mortgage arrears
- Food vouchers

Additionally, funding may flow to community agencies that have mandates of child poverty or homelessness such as Safe Homes for Youth or the YMCA through their Child and Youth Recreation and Leisure program.

Ontario Works has increased funding in the Equipment account to accommodate the Connect Text system which allows communication via text with participants through staff computers, and not cell phones. This is a growing and effective means of communication with clients. Bank costs have increased to accommodate the proposed Reloadable Payment Card Program launching in January 2020. This program allows individuals without a bank account to receive funds through a reloadable card.

2. Children's Services

The County of Huron enters into two Service Agreements with the Ministry of Education to support Child Care and EarlyON services throughout the County. These services are legislated to be provided by each Consolidated Municipal Service Manager.

Child Care forms the largest part of the Children's Services 2020 budget, with provincial operating grants of \$5,299,777. The County supports the licensed child care operators in our area and directly operates the Huron County Community Home Child Care program. The general operating grant is to be used by child care operators to support the costs of operating licensed child care programs in order to reduce wait times and fees for services, stabilize service levels, retain staff and to improve access to high quality affordable early learning and child care services for children and their families.

The majority of expenditures for the Child Care program are found under the General Operating Grants which are issued to the Child Care Centres in the amount of \$1,750,000 and the program's Purchase of Service includes fee subsidy funds paid on behalf of financially eligible families and their children and flowing to licensed Child Care Centres in the County (including Seaforth Cooperative Children's Centre, Clinton Cooperative Care Centre, West Huron, Relouw, Town of Goderich, Township of North Huron, Municipality of Huron East). There is an increase in the Formal Child Care line as the Ministry is encouraging Ontario Works recipients to access Formal Child Care rather than informal or non-licensed care.

The costs increase for General Operating Grants, fee subsidy and special needs resourcing as we continue to increase the number of licensed spaces within the County.

The County employees include Resource Consultants who specialize in early childhood development and support the child care organizations, along with clerical and supervisory employees.

The EarlyON program is overseen by the Ministry of Education, and funding for 2020 will be \$830,544. The County directly operates the program in Clinton and Exeter areas and has taken over the contract in Seaforth for 2020. Huron County Child Care has contracts with the Town of Goderich, Cooperative Child Care Centre and North Huron for service delivery in each respective area. Our Child and Family Centres, co-located with Avon Maitland District School Board (Goderich and Clinton) and the newly created Royal Oaks location (North Huron) are the hubs for EarlyON programming, with additional outreach programs being delivered and planned in the community including municipal, faith and service club facilities. Additional costs will be incurred in 2020 as a result of a maternity leave in EarlyON staffing and the fact that Ontario Works no longer transfers \$25,000 to EarlyON to support programs and shared staffing through the Eat Play Learn program.

Child Care Expansion funding is being issued in 2020 with a provincial recommended cost share requirement of 80/20 totaling \$155,423 for the County's contribution. Although the 20% share by the County is not a requirement in 2020 in order to receive our 80% from the Province, it will be a requirement in 2021. Expansion funds are used to assist in the creation of child care spaces in response to a high wait list for child care spaces within Huron County, as well as to sustain the existing spaces. The County's cost share requirement of \$155,423 will create and maintain an additional 21 child care spaces.

Although the EarlyON program is fully funded by the province, note that since the transfer of the EarlyON program from the province to the CMSM, the County of Huron has committed up to \$30,000 annually to deliver the program. In addition, rent is paid by the program for the JMB space they occupy in the amount of \$22,000, which is the same rate as 2018.

3. Housing Services

The same level of basic services are anticipated to be provided in 2020 as in previous years. Under revenues, the provincial operating grant shows provincial funding in the amount of \$2,087,672 for 2020. The provincial operating grants in 2020 include the Investment in Affordable Housing (IAH) for the 12 unit rental build in Goderich in the amount of \$642,850; the 2020 IAH ongoing funding allocation to support rent supplements and housing allowances in the amount of \$381,458; and, the Community Housing Prevention Initiative (CHPI) funding in the amount of \$522,852; Strong Communities Rent Supplement of \$19,978; and, Ontario Priorities Housing Initiative of \$520,534. A portion of CHPI has been allocated to the Ontario Works budget for Pathways and the Yes I Can program in the amount of \$81,000.

The federal operating grant is set at \$751,887 for 2020. Federal operating grants will continue to decrease over the upcoming years until the operating agreements for all housing providers reach their end of operating date as per the agreements with CMHC.

Under salaries, the rising costs are due to movement through the salary grids and job evaluation, along with the 1.5% anticipated non-union increase comprise part of the costs. The Housing Outreach Worker position had been a contract position since 2015, through a combination of the services being provided by Family Services Perth-Huron, and then a contract directly through the County for the position. The contract ended in 2019, and it is proposed that the Housing Outreach Worker becomes a full-time permanent position as there are continued and increasing social services needs of the individuals utilizing social housing. This position would be cost shared between Public Housing and CHPI in the total amount of \$77,299.

Under the CHPI budget, costs continue to increase as this is an area where significant resources are required due to increasing homeless situation. A consultant is being retained in 2020 to assist Housing Services move toward our goal of Coordinated Access and developing a system to work with our community partners in this endeavor. Full details are outlined in the Five Year Review of the County's Housing and Homelessness Plan.

Minor capital costs have increased by \$183,369 over 2019 as a designated substance survey will be completed in half of our County community housing properties, with the other half to be completed in 2021. The anticipated cost is \$18,000 each year. Also, Building Condition Assessments and Energy Audits will be undertaken. In addition, we will begin the professional fees for the redesign of the air make up system at 85 West Street, anticipated to cost \$22,500, with the work to be completed in 2021.

Under Operational Services, the telecommunications costs shows an increase of \$5,000. This expense is for the cost of internet at each of the County's owned and operated apartment buildings. The internet is necessary as the coin-operated laundry machines are being replaced by laundry machines that accept only reloadable payment cards, and the internet is required to allow for the cards to be reloaded. This system is necessary as vandalism has become a recurring issue at the County's social housing apartment buildings and a system that does not have any money on-site is necessary. Overall, operational services are anticipated to decrease 5.95% based on 2019 expenditures.

Housing Services continues to investigate and participate in energy savings programs with energy management companies for potential cost savings and have received rebate payments for installing energy efficient equipment. These energy efficient measures have resulted in hydro

costs that have not been escalating as significantly as in previous years and have forecast another decrease in Housing hydro costs in 2020.

4. Property Services

Under the Property Services consolidated budget, the revenues are derived from rental and lease charges of \$1,561,088. This represents a decrease of \$124,347 (or a 7.38% decrease) from the previous year as it is anticipated there will be only 6 months of rent received from the Health Unit. The rent for the H&LC had been set at \$312,749 in 2019, however, the full decreased amount is not reflected here as the rent for the Ministry of the Attorney General space at the Courthouse increased due to a renegotiated lease effective January 2020.

Within salaries, the rising costs are due to movement through the salary grids and job evaluation, along with the 1.5% anticipated non-union increase comprise part of the costs. A decrease shows in the 2020 budget of \$129,163, or 16.05%, as a number of positions have been reassessed in terms of how the salary costs are divided between the Housing Services budget and the Property Services budget, and this now provides a more accurate representation of the work being performed. In particular, it is anticipated there will be only 6 months of janitorial costs and operational maintenance costs associated with the H&LC property in 2020. The Building Custodian position will then be realigned in the Housing Services budget to concentrate on move-out cleaning of the vacant Housing Corporation units, which is currently an area of pressure. The Maintenance Technician position will also be realigned with Housing Services to assist with building maintenance and move out unit readiness preparation.

Heat, hydro and sewer costs are anticipated to decrease in 2020 overall by \$48,400. These decreases are mainly due to no utility costs being attributed to the H&LC in 2020; and in addition, the continuation of energy efficiency measures being implemented at the municipal properties.

Under Purchased Services, the life safety systems account captures the monthly and annual testing of the life safety systems in the County's municipal properties. Property Services has a well-defined preventative maintenance system which ensures that the necessary life safety inspections, licenses and tests are completed. This includes such measures as the annual fire alarm testing, sprinkler inspections, and monitoring the fire alarm panels in the municipal buildings.

The building general, electrical, HVAC and plumbing accounts show a decrease of \$9,500 in 2020 over 2019, or 1.51%, due in large part to the elimination of this work being required at the H&LC for the last six months of 2020.

Minor capital costs show an increase of \$65,300 over 2019. Property Services plans to undertake building condition assessments and energy audits of the JMB, Courthouse and 57 Napier Street. There is an expense of \$5,600 in the Courthouse for the installation of a refillable water bottle station, to assist in the elimination of disposable water bottles and cups.

Under operational expenditures, waste removal shows a decrease in 2020 of \$7,000, or 31.25%, as a competitive procurement for waste removal services for four County departments, through an integrated procurement initiative, continues to allow for decreased waste removal service costs.
