

NOTICE TO RESIDENTS

Re: Replacement of Structure 83.15-7 on Dashwood Road

Be advised that replacement of the above-noted structure will begin on the week of August 8th, 2017 and will require the complete closure of the Dashwood Road (Huron County Road 83) between Ausable Line and Parr Line from August 8 to approximately November 2017. Access for local traffic will be maintained on sections of the roadway from the east or west, however access over the crossing will not be possible during the entire construction period.

A detour route has been established on adjacent County and Provincial roadways to detour through traffic around the site for the duration of the road closure. The map below illustrates the proposed detour route for east bound and west bound traffic.

If you have any questions regarding this project, please contact the project engineers, B.M. Ross & Associates Ltd., at (P) 519-524-2641 x-205, Attn. Ryan Munn, P. Eng. or by email at rmunn@bmross.net.

This Notice Issued on June 28, 2017.

Steven Lund, P. Eng.,
County Engineer
