COUNTY OF HURON 2021 BUDGET

Consolidated

CORPORATION OF THE COUNTY OF HURON TREASURY FINANCE

TO: Chair and Members of the Committee of the Whole

FROM: Michael Blumhagen, Treasurer

DATE: March 3, 2021

SUBJECT: 2021 Budget Commentary

2021 BUDGET COMMENTS:

The 2021 County of Huron budget has been approved at a levy increase of \$872,927 or 1.99% year over year to a total of \$44,648,115.

The 2021 returned roll for property assessment value has increased by \$149,429,491, therefore, if the County were to maintain the same tax rates as 2020, it would support a 1.14% on the levy, or an increase of \$498,459. To fund the proposed 2021 draft budget increase of 1.99%, the County would see a tax rate increase of 0.77%.

The average impact of the draft 2021 budget increase on \$100,000 residential assessment is an increase of \$3.54. On the median residential property for Huron County valued at \$208,000, the proposed increase in 2021 is \$7.35. For farmland, the increase per \$100,000 is \$0.88 and on the median farm property valued at \$985,200, the increase is \$8.71.

New net assessment growth in 2021 for the County was \$149,289,256 in total taxable assessment with a tax impact to the County of \$498,459 or approximately 1.14% on the levy. This growth helps to mitigate the 2021 levy increases for existing assessment.

It is important to note that the tax roll for 2021 is based on the same current value assessment roll as 2020, so any changes in the assessment roll is based on new net growth. There will not be any significant tax shifts in 2021 for the farm class as we have seen in the last 8 years.

One change approved for 2021 is the elimination of the 30% tax reduction for the vacant and excess land for industrial and commercial subclasses. The impact for the residential rate results in a reduction of 0.08%, with a shift of \$32,659 in taxes to the vacant and excess land subclasses from the other tax classes, such as residential and farmland. While the overall impact is minor, this brings the vacant and excess land subclasses in line with the changes made by the province for the education rates.

The operational details for the Health Unit have been removed from the detailed schedules, and only their budget request of \$1,192,693 has been included in the Consolidation.

Included in the budget package are a number of schedules:

- Consolidated Net Levy
- Assessment and tax rate calculations

- Capital Budgets
- Departmental Budgets
- Reserve Schedule

Key Budget Considerations for 2021:

- In respect of Council's desire to limit staff salary increases we have set non-union salary increases at 1.5% for 2021. Staff will strive that future union settlements will fall in-line within this amount. Union salaries continue to cause pressures as many settlements are based on arbitrated settlements. The non-union salaries are being kept in-line with 2017-2020 at 1.5% in an effort to mitigate overall budget increases.
- The only grants currently included in the budget to be funded from the levy is for the Huron County Food Bank Distribution Centre - \$66,000. The balance of the grants to REACH - \$20,000, and Goderich Hospital - \$150,000 are funded from reserves. 2020 was the final year for the contribution to the Wingham Hospital, and 2021 will be the final year for REACH. There is no additional funding included in the budget for any grants as there is a current moratorium on grants until it is reviewed by the this term of Council.
- Funding from Gas Tax in 2021 is as follows: 2021 allocation \$1,880,613
- The 2021 Ontario Community Infrastructure Fund (OCIF) allocation of \$2,417,826 is currently not included in 2021 budget and will be parked for future infrastructure projects. Due to the focus on urban road renewals and bridge work, rural paving projects being proposed in 2021 are minimal.
- Two bridge projects are being proposed for 2021, utilizing debentures in the estimated amount of \$4.3 million. There is the option of offsetting some of the proposed debenture financing with the 2021 OCIF allocation.
- Staff are proposing a self funding IT Fleet model, where the computer and computer peripheral purchases are being centralized into one budget, with the ongoing cycle replacements scheduled throughout the year. This model is to be funded by an intra county IT fleet lease charge being allocated to each department based on number of devices. The current IT reserve will also be leveraged where required over the four-year program to fund any current year shortfalls.

ONGOING BUDGET PRESSURES

With the County only eligible for the Transitional Assistance (a non-core grant) of the OMPF, it is expected that the OMPF for the County will be eliminated within the next several years. This assumption is based on the recent trend in reallocating the non-core transitional assistance to the core grants. For 2021, the decrease was \$187,300 to a total of \$1,061,700.

Labour represents a significant portion of the County budget with approximately \$46,656,374 in total labour costs (salary and benefits). This figure excludes the amalgamated Huron Perth Health Unit. Staff have included 1.5% in the budget for non-union and Council per diems. Union increases are based on existing agreements or estimated settlements. Grid movements and job evaluation results are also to be factored in. Total salary and benefit increases are estimated to be \$1,008,000. While some of these salary costs are provincially funded, we are often seeing the provincial funding increases falling short of the increases in collective agreements.

For 2021, staff have included \$2,187,000 of estimated 2020 operating surplus, plus \$1,811,654 in estimated Public Works capital surplus into the budget in an effort to reduce the overall 2021 estimated levy increase. Staff had previously estimated that we would be in an overall surplus position for 2020, final quarter events in various departments have reduced previous estimates but until year-end adjustments are finalized, the final year end surplus will not be known. To reduce the overall budget levy increase, additional reserve adjustments were made to offset the temporary loss in investment income of \$250,000, and a reserve adjustment of \$89,000 in recognition of the potential conference and travel savings across the corporation for 2021.

Insurance represents a significant budget pressure for 2021. The amount included in the 2021 budget is \$416,900 higher than the 2020 budget, or an equivalent of 0.95% on the levy. For 2020, staff did not adjust the budget figure for the large increase seen in the 2020 premium. These costs are reflected throughout the various departmental budgets. The actual premium increase is \$203,000 over 2020.

Total Capital and Asset Management Program For the year ending December 31, 2021

Multi Year Capital - Only design/engineering Costs 2021 Budget does not include construction costs for 2022

Capital Expense	CAPITAL COST	
Public Works		
CR 25 / CR 4 Intersection Improvement - Intersection		
Improvement: 2020 budget is engineering/permits/public		
consultation/tender drawings and specs, inspection. Estimate		
for construction cost in 2021 is \$1.5M + contingency + land		
acquisition costs with potential construction in 2022 pending		
budget approvals. Stakeholders of Central Huron, North Huron, and Cowbell are contributing to this phase of the project to		
ensure alignment with mutual interests in current and future		
needs of residents, visitors, and patrons.	\$	125,000
	· ·	,
CR83 / Airport Line Intersection Improvement - Intersection		
Improvement: 2020 budget is engineering/permits/public		
consultation/tender drawings and specs, inspection. Estimate		
for construction cost in 2021 is \$1.5M + contingency + land		
acquisition costs with potential construction in 2022 pending budget approvals.	\$	200,000
budget approvais.	Φ	200,000
Rehabilitation of Forester's Bridge (31-26.6) - Work needed to		
proceed in 2021 to proceed to tender/construction in 2022.	\$	35,000
Rehabilitation of Zetland Bridge (86-32.8) - Work needed to		
proceed in 2021 to proceed to tender/construction in 2022.	\$	85,000
product in 2021 to product to terracinosite determined	Ψ	00,000
Replacement of Boundary Bridge 23 - Work needed to proceed		
in 2021 to proceed to tender/construction in 2022 or 2023.	\$	80,000
CR84 - Zurich Urban Renewal - Engineering & Consultation for		
construction in 2022 / 2023 in collaboration with Bluewater	\$	350,000
		,
CR84 - Hensal Urban Renewal - Engineering & Consultation for		
construction in 2022 / 2023 in collaboration with Bluewater	\$	350,000

CR83 - Exeter Urban Renewal - Engineering & Consultation for	
construction in 2024 collaboration with South Huron	\$ 100,000
Multi Year Capital Costs - Engineering/Design only	\$ 1,325,000
(Does not include 2022 construction costs)

COUNTY OF HURON 2021 BUDGET

COUNCIL

Corporation of the County of Huron

County Council

2021 Budget

The County Council budget represents those expenditures related to attendance at Council and Committee meetings, board meetings, mileage, conference and convention attendance for all Councillors, the Warden, and all appointed members of the various boards.

County Council provides overall direction for all program responsibilities. Council is accountable to the taxpayers of Huron County.

Section 224 of the Municipal Act states that it is the role of Council:

- (a) to represent the public and to consider the well-being and interests of the municipality;
- (b) to develop and evaluate the policies and programs of the municipality;
- (c) to determine which services the municipality provides;
- (d) to ensure that administrative practices and procedures are in place to implement decisions of council;
- (e) to maintain financial integrity of the municipality; and
- (f) to carry out the duties of council under this or any other Act.

Salaries and Benefits

Salaries and benefits are calculated based on each councillor and board member. Certain assumptions are made in determining this budget item. It is assumed that all councillors will have 100% attendance at the required meetings such as council and committee meetings and at a full day's rate. This budget includes a total of 15 councillors plus citizen members of the Library Board.

Staff assumes there will be special meetings that councillors will need to attend from time to time as well as strategic planning days and two bus trips.

The budget includes the \$5,728 Councillor annual honorarium, the Warden's honorarium at \$20,906 and conference allowance at \$3,871. Library Board member's conference allowance is \$1,250. Full day per diem is \$335.64 and a half day per diem is \$191.78.

The (4) Board of Health Huron councillors are now to be paid directly from the County, increasing costs by \$16,000

New Equipment

There are no anticipated equipment purchases for 2021, however, a small amount is being included for unexpected costs.

Purchased Service

In preparing a budget for Council, staff must make assumptions on the activities in which Council wishes to participate or become involved. One assumption is strategic planning. \$10,000 is being included within the Council budget for such activities.

Operational

Operational expenditures are those expenditures that occur in most program areas in order to be able to function. The expenses include office expense, travel and meals, training, publications, memberships, postage, etc.

The conference budget is based on each councillor utilizing their full conference allowance of \$3,871, with no limit for the Warden. Past experience has shown than many councillors will not utilize their full allowance. Library Board member's conference allowance is \$1,250.

Overall, the operational accounts are reflecting an increase over 2021 of \$4,150.

Program

Included in this area are expenses for promotional/public relations and special events such as a council bus tour, the Warden's banquet and reception and other events. There is no change in the program account budget for 2021.

Summary

Overall, Council's budget is planned to increase by \$16,850 or 2.82% to a total of \$613,360.

COUNTY OF HURON 2021 BUDGET

CORPORATE EXPENSE

Corporation of the County of Huron

Corporate Expense

2021 Budget

The types of expenditures captured in the Corporate Expense budget are those that cannot be allocated to a specific department or program. These include general legal and consulting fees, Council approved grants to various organizations, provision for unforeseen/contingencies, the County's share of tax write-offs, cost of MPAC, etc.

Purchased Services

There is \$15,000 budget for general consulting costs in 2021. \$39,000 is also being included in this budget line for the ECM program and Novus Agenda – which is the annual support costs required for ongoing maintenance, upgrades and support of the system.

Operational

There are no changes in 2021 for the operational expenses.

Program

Council has approved the following grants to various organizations:

Recipient	2021	2022	2023
REACH	\$20,000		
Goderich	\$150,000	\$150,000	\$150,000
Hospital			
Total	\$170,000	\$150,000	\$150,000

In addition to the above amounts, \$66,000 has been included in the budget for the Huron County Food Bank Distribution Centre. The \$66,000 for the HCFBDC is being funded by the levy, the balance of the grant funding is from reserves.

MPAC expenses are also increasing by 2% to \$1,271,230. MPAC charges the upper tier municipality to provide assessment services to the overall County and its local municipalities.

Other Expenditures

There are no provisions currently built into the budget for any additional 2021 grant requests.

Capital

Asset Management software - \$60,000 has been included in the Corporate budget. The project work on asset management software was initiated in 2018 with the integration between the GIS and Worktech systems. Work will continue into 2021.

Reserve Usage

Reserves are being utilized in order to offset current budget pressures. \$60,000 is being used to cover Asset Management, while a total of \$2,187,000 is being funded from the 2020 estimated annual surplus. Additionally, \$250,000 of reserves is being used to cover the short term shortfall of interest income, and \$89,000 is being used to offset estimated savings in conference and travel expenses across the corporation.

\$170,000 relates to the funding for the REACH and Goderich Hospital which is to be funded from reserves. \$150,000 is for the Corporate Kaizen project.

Corporate Special Projects

\$150,000 is being budget for the Corporate Kaizen project, to be funded from reserves. The one-time Efficiency funding from the Province is proposed to be used for the following: Human Resource Information System estimated at \$300,000, and \$80,000 for a remote access IT solution for County staff. A total of \$380,000 of the one time finding is being allocated in the 2020 budget.

COVID Costs

Estimated COVID costs are being included in the 2021 budget at \$344,200, funded from the balance of the safe restart funding that will be carried forward from 2020.

Revenue

The 2021 OMPF funding is reduced by \$187,300 to a total of \$1,061,700. Interest income decreased by \$250,000 based on current rates.

Summary

Overall, the levy required to support corporate expenses is increasing by \$85,721 or 3.36% from the 2020 budget. This increase is due to the estimated the loss in OMPF.

COUNTY OF HURON 2021 BUDGET

CAO/ CLERK/ CORPORATE RECORDS / ACCESSIBILITY

Corporation of the County of Huron

CAO/Clerk/Corporate Records and Accessibility

2021 Budget

The CAO/Clerk budget represents the cost of operating the CAO and County Clerk offices.

The Municipal Act, 2001 section 229 states the Chief Administrator position can be expected to be responsible for:

- Exercising general control and management of the affairs of the municipality for the purpose for of ensuring the efficient and effective operation of the municipality
- Performing such other duties as are assigned by the municipality

The Clerk position is mandated and the duties are listed in the Municipal Act, 2001 Section 228 (1).

Salaries and Benefits

Salaries and benefits are calculated on an employee by employee basis. Each annual grid movement is calculated as is the general wage increase for all non-union employees. All positions in the CAO/Clerk area are non-union. Each statutory deduction, extended benefit, and pension plan deduction is calculated separately on an individual basis.

Overall, total salaries and benefits are increasing by \$32,870 over the previous year's budget. There are no changes in the FTE's.

The Communications Coordinator position was funded in 2020 from reserves as a pilot project, and for 2021 is proposed to be funded by the levy.

Equipment

There are no proposed changes in equipment expenditures for 2021.

Purchased Service

Purchased service costs cover insurance and legal fees. The changes in 2021 relate to additional consulting, printing and software licensing for the communications team, and the increase in insurance costs.

Operational

Operational expenditures are those expenditures that occur in most program areas in order to be able to function. The expenses include office expense, staff travel and meals, training, publications, postage, etc. The budget for these

expenditures is increasing on a year over year basis by 3.23% or \$2,489, primarily due to an increase in staff training expenditures.

Revenue

There is an increase of \$18,157 in the anticipated recovery from the departments.

Capital Budget

\$5,000 is being budget for office furniture, and a camera for the communications team

Corporate Records

The responsibility for the County's corporate records has shifted from Cultural Services over to the CAO/Clerk's department. Overall costs are increasing by \$3,309.

Accessibility

The overall budget for Accessibility is increasing by \$700 to a total of \$66,700. Currently, a 3rd party consultant is providing the required services for the department. Total program budget for various accessibility initiatives is set at \$11,000, plus an additional \$7,000 one-time carryforward in unused 2020 project funding, for a total of \$18,000. Fees for the consultant services are \$37,000.

Existing Staff:

Chief Administrative Officer
County Clerk
Executive Assistant
Admin Clerk
Deputy Clerk
Corporate Records Coordinator
Communications Coordinator

Summary

The overall county levy requirement for the CAO/Clerk's operating budget is increasing by \$109,122 or 15.51%. This increase is primarily due to one-time reserve usage in 2020.

COUNTY OF HURON 2021 BUDGET

FINANCE

Corporation of the County of Huron

Finance Department

2021 Budget

The Treasurer's position is mandated by the Municipal Act, 2001 section 286(1): A municipality shall appoint a treasurer who is responsible for handling all of the financial affairs of the municipality on behalf of and in the manner directed by the council of the municipality.

This position is not able to fulfill this mandate without the team in the Treasury department. The Treasury Department serves both needs of Council and the needs of the other departments within the County.

The Treasury department serves Council by:

- Assuring the protection of the County's assets by having adequate internal controls in place and that these controls are adhered to.
- Providing Council with information with respect to the financial affairs of the municipality as it requires or requests
- Co-ordinating, analyzing and presenting a consolidated budget that provides the basis to identify the levy requirement and provide Council with a benchmark for the activities in the year
- Ensuring compliance with legislative and regulatory guidelines related to financial controls and reporting
- Achieving an unqualified audit opinion on the County's corporate financial statements each year
- Providing appropriate insurance claims management and risk management to protect the County's assets and personnel

The Treasury department serves the other County departments by:

- Preparing reports for the various programs to assist in obtaining Ministry grants and funding
- Assisting in interpretation of policy and internal controls
- Ensuring accuracy and reliability in pay and compensation systems
- Providing analysis of the financial information
- Providing assistance in preparing of departments budgets and financial statements
- Ensuring the correct recording of costs and liabilities to ensure the accuracy of the financial system and records

The budget being presented is in full compliance with PSAB. Capital requirements are budgeted separate from the operational costs. Depreciation is budgeted as an operational cost. The levy raised to fund depreciation is used for the cost of replacing and upgrading those capital assets.

Third Party Recoveries

Other departments within the County receive funding from the various Ministries. Most grants allow a portion of the funding be used for overhead or administration piece. Because the financial piece of the County is within the Treasury department, Treasury recover its services from the other departments for the service. There is a small increase of \$2,549 being charged out.

Salaries and Benefits

Salaries and benefits are calculated on an employee by employee basis. Annual grid movements are calculated.

Salaries are slightly lower by \$794 than the previous year, due to maternity leave costs in 2020. The maternity leave savings are offset by the 1.5% Non-union pay increase for 2021 and staff grid movements. There are no FTE changes proposed for 2021, however, the current accounts payable position is being redesigned to provide ongoing payroll support and ensure succession planning for a key payroll position.

Equipment

These expenditures consist of rental of office equipment and repairs for computers and replacement of minor equipment. These costs are consistent with 2020.

Purchased Services

These expenditures include audit, insurance and consulting. This group of costs increased by \$12,930.

Operational

Operational expenditures are costs incurred so that the Treasury department can function. This includes office expense, staff travel, training, postage and depreciation etc. There is a decrease in the budget of \$4,492 for 2021. This is due to a decrease in depreciation, which is offset in purchased services by intra county IT fleet costs.

Capital Budget

The capital budget request is for office furniture. The total costs are \$5,000, with \$3,000 carried forward from 2020.

Summarv

Overall, the net change in the Treasury budget is an increase of \$4,612 or 0.53%.

COUNTY OF HURON 2021 BUDGET

Business Technology Solutions

Corporation of the County of Huron Corporate Services Department (BTS) Business Technology Solutions 2021 Budget

Background:

The Business Technology Solutions (BTS) budget includes 3 sub-budgets: IT, GIS (Geographic Information System), and 9-1-1.

BTS uses a modified zero-based budgeting approach where major budget lines are built up from zero based on the expected needs for the coming year. Each budget line item has detailed information supporting the figures, which are available to review upon request.

2020 Highlights:

- Developed, configured and deployed multiple Work from Home solutions in response to COVID-19 including:
 - Remote Access solutions, including Multi-Factor Authentication
 - Softphone application
 - Internet Hubs
 - Additional cell phone provisioning
 - Hardware procurement and setup for staff Work from Home requirements
- Launched and implemented Zoom Pro, Zoom Webinar and Zoom Chat in addition to developing associated Safe Use Guidelines and Job Aids
- Implemented Citizen Inquiry Line for Homes for the Aged in response to COVID-19 and maintain messaging
- Successfully delivered 13 projects to the business
- Responded to approx. 2600 IT Help Tickets from staff for IT and GIS services
- Processed 81 IT Purchase Orders on behalf of corporate departments
- Upgraded network infrastructure in Goderich Data Centre
- Upgraded enterprise email infrastructure
- Provisioned and configured new server for video surveillance system allowing for centralized management of 132 video cameras
- Developed an online, interactive Business Map for Economic Development
- Developed and launched electronic forms and processes for:
 - o Payroll Change Notice
 - Staff Covid-19 Screening Assessment
 - Visitor Covid-19 Screening Assessment
 - Staff Work from Home Assessment
- Completed Information Classification and Privacy Impact Assessments for:
 - PreHos (Paramedic Services Electronic Patient Call Report and Community Paramedicine system)
 - PRAN AVL (Paramedic Services)
 - Yardi Voyager 7 (Housing Property Management System)
 - FileBRIDGE (Electronic Records Management for Corporate Records)
 - First Response Mental Health PeerConnect App (Paramedic Services)
- Developed On-Call Model, policy and procedure
- Developed and implemented IT Asset Management Plan with fleet replacement model
- Provided Cyber-Awareness Campaign during Cyber-Awareness Month (October)

Work Plan

BTS ensures that corporate systems, business applications and mission critical services are readily available and reliable. BTS partners with County departments to provide technical leadership, consultation and solution-based services encouraging collaboration across the corporation. IT is involved with ongoing and planned projects including software and application implementation, new build and renovations, web development, training, technology purchases, and ongoing advancements in technology.

Planned activities in 2021 include:

- Migration of Novus Agenda to the Cloud Systems
- Upgrade ECM Application Laserfiche
 - o Digitization Project
 - Secure file sharing
 - Electronic forms
- Launch selected ERP/ECM business solutions and processes in collaboration with business units (Treasury, HR and Clerk's Office) and the TIM – Ongoing
- Facilitate prioritization of 57 BTS projects for 2021
- Enhance remote access solutions
- Research enterprise collaboration solutions
- Upgrade network infrastructure in Clinton Data Centre
- Continue bringing new policies to address the known information security gaps and establish required controls
- Migrating from the legacy systems and continue decommissioning older systems
- Corporate Information Security Project Continued
 - Network Security Audit
- Continue providing strategic solutions for technical services and capacity management including (but not limited to): data integrity, data security, data privacy, database development, network storage, back-up systems, and systems support

Both the IT and GIS operating sub-budgets are funded from the County levy, with intra-County recoveries related to IT fleet corporate service allocations and EMS for services delivered. External funding from the Huron Perth Public Health for contracted IT services ended December 31, 2020.

IT Fleet Model

Staff are proposing a self funding IT Fleet model, where the computer and computer peripheral purchases are being centralized into one budget, with the ongoing cycle replacements scheduled throughout the year. This model is to be funded by an intra county IT fleet lease charge being allocated to each department based on number of devices. The current IT reserve will also be leveraged where required over the four-year program to fund any current year shortfalls.

Computers and peripheral purchases are estimated at \$288,000 for 2021, with an annual lease charge of \$249,212 being charged out to departments. \$38,788 is being funded from reserves as there are more computers being replaced in the first year of the plan versus the other three years.

Staff

BTS staffing includes technical, programming, GIS, and business process specialized positions.

Status	Hours	2020 FTE	# Positions	Vacancies	2021 FTE Additions/Reductions	Total 2021 FTE
Regular	Full-time	11 IT/BTS <u>6</u> GIS/911 17	17	1 IT/BTS 2 GIS/911 3	0.0	17.0
Occasional (students)	Full- time/Part- time	0.4 IT <u>1.0</u> GIS 1.4	2	0	0.0	1.4
Total		18.4	19	3	0.0	18.4

BUDGET IMPACTS

Overall costs have been moderated by controlling operating expenses where possible, and introducing an IT Asset Management plan and fleet model. The attached budget accommodates the core functions of the department, shared technology infrastructure services and priority projects for the coming year. The overall levy increase is \$94,410 which is largely attributed to lost funding from Huron Perth Health Unit, staff grid movements, proposed on-call compensation, and some additional consulting for staff cyber security programs.

County of Huron Information Technology Total Capital Requirements For the year ending December 31, 2021

Capital Expense	Asset Type	Reason for Request	Priority	Description	Total Cost	External Funding Amount	External Funding Source

COUNTY OF HURON 2021 BUDGET

COURT SERVICES - PROVINCIAL OFFENCES

CORPORATION OF THE COUNTY OF HURON

2021 BUDGET

HURON COUNTY COURT SERVICES – PROVINCIAL OFFENCES

The Provincial Offences budget is comprised of all costs relating to the administration, adjudication, and prosecution of charges laid under Parts I, II, III of the Provincial Offences Act. Acts which fall under POA include some of the following: Highway Traffic Act, Liquor Licence Act, The Cannabis Licence Act, The Cannabis Control Act, Trespass to Property Act and Compulsory Automobile Insurance Act. Other charges under Provincial Offences jurisdiction include contraventions to municipal by-laws and minor federal statutes such as Fish and Game.

2021 Budget Changes

Salaries and Benefits

Salaries and Benefits are decreasing by \$27,874 or 10.48%, primarily due to the decreased volume of charges. Staffing compliment is expected to change by 0.5 part time staff for 2021.

Total approved Full Time Equivalents –2.5. There are 2.0 full time staff and 1 casual staff for court reporting and office backfill.

Purchased Service

The bulk of the consulting fees relate to the collection agency commissions being charged for POA collections. The agency charges a 32% commission, however, this cost is passed on to the debtor, and collected along with the fine amount. Therefore, the net impact to the County for collections is 1.76% due to the non-rebate able portion of the HST on the collection agency commission. Based on the current collection results, we have increased the agency commission to reflect actuals.

Overall, purchased service costs are expected to increase by \$6,150.

Operational

Operational expenditures are those expenditures that occur in most program areas in order to be able to function. The expenses include office expense, staff travel and meals, training, publications, postage, etc.

Program

The program items relate to non-discretionary expenditures such as monitoring and enforcement fees, prosecution, adjudication and ICON usage. For example, the County must pay \$1.95 for every charge entered in ICON. The Victim Fine Surcharge, Dedicated Fines, and Fines – Other Court Areas relate to monies the

County collects on behalf of the province and other municipal courts. Each dollar collected on behalf of another court is reflected as revenue in the County's ledger, with the corresponding expense. The net impact is zero.

With the decrease in charges programming costs are expected to decrease. However, this is a number that we have little control over and is based on the actual volumes, payment activity and court time for 2021.

Revenue

POA revenue is difficult to accurately forecast as the County has limited control in the process. Budgets are being adjusted downward based on current results. Some variables impacting fine revenue are the number of charges being issued across the County, court rulings, and the success of the collection agency.

Capital Budget

Capital assets being requested in 2021 relate to cycle replacement of the staff and courtroom computers.

Summary

The net revenue estimate to the County Levy on a year over year basis is a decrease in net revenue of \$23,776 to \$160,606.

COUNTY OF HURON 2021 BUDGET

Human Resources

CORPORATION OF THE COUNTY OF HURON

2021 BUDGET

HUMAN RESOURCES DEPARTMENT

The Human Resources Team supports over 630 full, part-time, casual and seasonal staff across the County's 13 departments. The Team consists of 5 Human Resources professionals who are responsible for all areas of Human Resources Management to include recruitment and selection, onboarding, training and development, labour relations, job evaluation, pay equity, compensation to include employee group benefits, organizational development and change management, employee engagement, leadership development, health and safety to include mental health in the workplace, WSIB and return to work programs, human resources information system software and all human resources policies, procedures and practices.

The Human Resources Team also has the responsibility for ensuring that the County of Huron is compliant with all relevant legislation. The Human Resources Team serves to negotiate and administer four collective agreements with accompanying provincial union representatives as well as all employment policies, salaries and benefits with the non-union employees.

The Human Resources Team leads with values to include respect, integrity, honesty, inclusiveness, understanding, trust and excellence.

Human Resources Team:

Director of Human Resources Senior Manager of Human Resources Safety & Wellness Supervisor Total Rewards Advisor Talent Acquisition Specialist

2021 Budget Changes

Salaries

The 2021 HR Salary and Benefits line has increased by \$19,331 bringing the total budgeted amount to \$589,999. This increase is a result of an existing maternity leave scheduled until February 2022, while still accounting for the budgeted 1.5% non-union pay increase for 2021.

Purchased Services

Consulting/Professional Fees has increased by \$21,250 this increase is a result of bargaining four collective agreements as well as the continuation of the Job Evaluation (JE) Audit as part of Human Resources Strategic Plan. Through this project we have migrated to an online job evaluation questionnaire tool for the JE process. In addition we continue to work with Gallagher and Associates to complete a market and compensation review.

Operational

Corporate wide Staff Training has increased by \$2,875 to \$63,625. This includes our Management and Leadership series which is fully funded through the HR budget and services all departments county wide. Other training needs are first aid, mental health first aid, and mandated training such as AODA (Accessibility for Ontarians with Disability Act), and other health and safety programs. Our Safety and Wellness Supervisor will continue to be engaged in Mental Health/Mindful certification training to help support our psychologically healthy and safe workplace initiative. We are continuing to partner with Thomas International using both recruitment and leadership tools as an additional resource for staff moving though the talent pipeline as well as provide additional resources for any areas of performance improvement.

Conventions / Conferences has been decreased by \$3,125 due to HR staff taking relevant HR courses virtually saving on travel and meal expenses. We will continue to attend the now virtual Human Resources Professional Association Conference as well as the Ontario Municipal Human Resources Association's (OMHRA) spring and fall conference.

Human Resources Information System software project has been carried forward from 2019's budget and is currently in the vendor demonstration stage of the project. It is of crucial importance that the HRIS software work seamlessly with the ECM software. This will assist in service improvements by reducing duplication of work, tracking of employee information, reporting and improved efficiencies.

Programs

Special consideration in 2021 as we continue through the COVID pandemic for our frontline staff resulting in an increase of \$5,000 in our Wellness Program.

Summary

The total Human Resources budget is projected to increase by \$46,412 to \$704,279 for the 2021 budget year, or an increase of 7.06%.

COUNTY OF HURON 2021 BUDGET

Public Works / Fleet / Hazardous Waste

CORPORATION OF THE COUNTY OF HURON 2021 BUDGET

PUBLIC WORKS / HIGHWAYS DEPARTMENT

BACKGROUND

The Public Works Department, including Highways and Fleet services, has a combined staff of 51.48 FTE (48.50 Full time, 2.98 Part Time) employees to maintain approximately 775 km of County Roads (including 66 km of urban streets), 293 large bridges and culverts, along with thousands of smaller culverts. As well, the Public Works Dept provides administration of Fleet vehicles & equipment and highway facilities owned by the County.

Organizationally, Highways and Fleet is represented by the following table showing the staff complement, paid hours, and expenses:

Division	Full Time Equivalent (FTE)	Annual Hours	Total Salary & Benefits
Highways	47.67	99,297	\$4,383,585
Fleet	3.81	7,873	\$ 412,125
Total	51.48	107,170	\$4,760,710

Summary of Expense Categories

Operations and Maintenance

The Maintenance/Operations and Administration component of the 2021 Public Works Budget was prepared based a review of 2019 actuals and 2020 forecasted values.

Actual forecasted values in the 2020 budget have been referenced in preparing this budget, however, 2020 is not expected to reflect a typical year in operating or capital expenditures due to impacts of COVID-19. Some of those impacts are deferred or delayed capital work with some re-allocation of efforts on a backlog of repairs and maintenance items on roads, drainage, and bridges. From this perspective, 2019 actuals were also referenced along with anticipated ongoing impacts of COVID-19 into 2021.

With the introduction of Corporate Attrition Plan a number of re-allocations have taken place for workload between Fleet, Roads, Bridges, and Administration. While the net change has not impacted total salaries, it has resulted in a minor re-allocation of salary expenses between functional areas within the Public Works budget.

All bridge, culvert and road sections proposed for rehabilitation in 2020 were selected based on site inspections, technical analysis, Pavement Condition Index (PCI) scores, Ontario Structure Inspection Manual (OSIM) bridge inspections, prioritization based on the optimal timing for rehabilitation and in progress of being updated in the revised Asset Management Plan.

Rural Road Renewal Program

A review of the County Road renewal program began in 2017 and has continued through 2019 that re-focus renewal of roads based on industry best practice of being driven by the current condition of pavement and base and best value investments that manage the road base, shoulder, drainage, and road surface at acceptable levels for the longest period of time at the lowest average annual cost. This approach incorporates the principals of Asset Management full life-cycle planning.

The County completed its first major road rehabilitation project in 2020 having completed remediation of the granular base of County road 87 between County Road 86 and County Road 28 (11.2 km). This project confirmed that base remediation is required on many of County Roads as distresses shown on the surface were due to a number of underlying issues which can only be addressed with full pavement removal and base remediation.

There are no major road renewal projects in the 2021 capital budget as there is a focus on urban road renewals as well as conflict with the bridge replacements on County Road 83. Rural roads in the south part of Huron County that are in most need of remediation at this time (i.e. CR 84, CR 83) are also needed as detour routes for bridge and planned urban renewal projects. As a result, rural road renewal of these roads are being deferred.

Rural road work in 2021 will include the following:

Pavement Preservation

There are pavement preservation opportunities such as micro-surfacing to extend the life of pavement to align with next major pavement treatment of adjacent sections of road. Examples of micro-surfacing can be seen on Highway 8 completed by MTO a few years ago. Applying a micro-surface to a road that is good condition extends the life of the underlying asphalt by several years. These locations include:

- County Road 5 PCI 74 (2.0km) from Airport Line to Highway 4
- County Road 21 PCI 72 (1.7km) from Huron Park Road to County Road 10
- County Road 31 PCI 75 (4.1km) from County Road 84 to Kippen Road

County Road 30 from County Road 87 to Howick Minto Line (15.53 km) Detailed Investigations for future renewal

This road currently has a PCI of 60 with an AADT of 1,100. Last Rehabilitated in 2009 using CIR. CR 30 is showing signs of significant localized distresses including severe alligator cracking. The County has had to repair multiple sections on CR 30 using Hot Mix Asphalt Patching as well as spray patching over the last 2 years. Detailed investigations will confirm the extent to which the road base requires remediation, what sub-drainage work may be needed, the suitability of existing asphalt for recycling options, and culvert replacements.

County Road 7 from County Road 4 to Fordwich Line (20.14 km) Detailed Investigations for future renewal

This road currently has a PCI of 65 with an AADT of 700. This road was Pad & Paved in 2004. Slurry Seal was applied in 2019 as a preservation strategy with the aim to delay major rehabilitation by 2 - 5 years. County Road 7 is showing severe transverse cracking throughout as well as localized areas of moderate to severe alligator cracking. Detailed investigations will confirm the extent to which the road base requires remediation, what sub-drainage work may be needed, the suitability of existing asphalt for recycling options, and culvert replacements.

County Road 83 from Highway 21 to West Urban Limits of Exeter (18.52 km) Detailed Investigations for future renewal

This road currently has a PCI of 73 with an AADT of 7,800. This road was last rehabilitated in 1998 using CIR. County Road 83 is starting to show moderate to severe distresses, particularly transverse cracks. As the County's busiest road that is often used by oversize loads, CR 83 should be rehabilitated before it deteriorates further significantly. Detailed investigations will confirm the extent to which the road base requires remediation (if any), what sub-drainage work may be needed, the suitability of existing asphalt for recycling options, and culvert replacements.

Urban Road Renewal Program

The 2021 road program continues to focus on urban road renewal which involves full re-construction of the road including underground infrastructure (Sanitary, Storm, Water) along with general improvements in downtown locations for pedestrian access and safety in collaboration with local municipalities.

County Road 4 – Clinton Urban Renewal (Combined project with Central Huron)

Site investigations, engineering, public consultation, designs and permits are in progress for the urban reconstruction of Clinton as part of the 2020 approved budget. Additional funding for the urban road reconstruction of County Road 4 through Clinton consists of full replacement of water infrastructure, storm infrastructure, and portions of sanitary sewers through the downtown core of Clinton along with improvements for parking, sidewalks, and pedestrian crossings. Accessibility to storefronts will be improved to the extent possible with adjustments in road/sidewalk elevations and grades. Additionally, the road will be milled and

paved from Base Line road southward to the downtown core reconstruction limits with minor curb repairs and adjustments in curb/gutter/surface drainage at the intersection of County Road 4 and County Road 15. An estimate for the Huron County portion of the project is \$1.9M. Costs associated with water, sanitary sewer, sidewalks, and other improvements are budgeted by Central Huron.

County Road 12 – Seaforth Urban Renewal (Combined project with Huron East)

The downtown core of Seaforth has been completed in 2020, however, a portion of County Road 12 south of the railway tracks has been deferred to 2021 as a result of a delay to the start of the construction season while COVID-19 protocols were being developed in the industry. Costs directly associated to construction not completed in 2020 are being carried forward to 2021, however, additional costs for site supervision/inspections and contract administration to carry this project to an additional year have been added to the 2021 budget to enable successful completion of this project in 2021.

County Road 84 (1.17 km) - Zurich Urban Renewal from 162m west of Walnut St to 150m East of East St (Combined project with Bluewater)

This urban section of County Road 84 was last rehabilitated in 2000 using a Mill & Pave (50mm) treatment. Preliminary storm sewer inspections indicate the urban drainage infrastructure is in poor condition requiring replacement. In collaboration with the Municipality of Bluewater, work will begin on the design, public consultation, permit applications, and tender package preparation for the re-construction of the planned for 2022. This project will also include water and sanitary system renewals as well other urban streetscape enhancements in collaboration with local businesses. A cost estimate for construction is not yet available as the scope of work is to be finalized through the work being completed in 2021.

County Road 84 (1.10 km) – Hensall Urban Renewal from 190m west of Elizabeth St to Highway 4 (Combined project with Bluewater)

This urban section of County Road 84 was last rehabilitated in 2000 using a Mill & Pave (50mm) treatment. Preliminary storm sewer inspections indicate the urban drainage is in fair condition but is undersized and may require some re-configuration. In collaboration with the Municipality of Bluewater, work will begin on the design, public consultation, permit applications, and tender package preparation for the reconstruction planned for 2023. This project will also include water and sanitary system renewals as well other urban streetscape enhancements in collaboration with local businesses. A cost estimate for construction is not yet available as the scope of work is to be finalized through the work being completed in 2021.

County Road 83 – (700m) Exeter Urban Renewal from Highway 4 to West Urban Limits (Combined Project with South Huron)

This work involves the planning, design and tender of the reconstruction of County Road 83 from Highway #4 to the railway tracks (GEXR) including storm, sanitary, and water infrastructure in collaboration with South Huron.

A cost estimate for construction of this section of CR #83 is not yet available as the scope of work is to be finalized. This work is expected to be completed in 2024. County #83 is our busiest highway.

Large Culvert and Bridge Program

The County of Huron Public Works Department is dedicated to maintaining a high quality road network that includes bridges and large culverts. In order to be efficient with capital funding, the County has implemented asset management planning into their everyday roles in order to make the most financially responsible decisions.

For bridge and large culvert projects, the County uses regular maintenance, industry best practices, and asset management planning to prioritize capital funding. In an effort to prevent major structure replacement projects from occurring simultaneously, the County is recommending to complete a greater number of small-scale rehabilitations. At the same time, structures that have deteriorated beyond repair or have been prioritized through asset management planning are being recommended for replacement. By replacing structures before severe deterioration has become critical, the County is able to keep the road network safe and avoid lengthy closures or high engineering fees. Smaller rehabilitations are more cost effective when timed appropriately.

Bridges and large culverts have a recommended expected life of 75 years. The expected life can be extended by regular maintenance and timely rehabilitations. Currently, the County owns 81 bridges and 211 large culverts.

In 2021, the Public Works Department is proposing the following bridge/large culvert projects.

RB01249 – Rehabilitation of 01-24.9 (Cooke's Bridge)

Rigid Frame, Built = 1960, Current BCI = 71, Deck Length = 13.7m, Spans = 1 This bridge was scheduled for rehabilitation by the County's Bridge Crew in 2020. However, due to COVID-19 the bridge crew focused less on large capital projects and more on minor maintenance. This bridge was last rehabilitated in 2008 (new barrier walls). The bridge is generally in good condition but the asphalt is showing signs of bottom up defects indicative of problems with the concrete deck. Patching the deck and waterproofing and paving the bridge is expected to extend the life by at least 10 years to 2045. Design work has already been completed in anticipation for this project.

RB19183 – Rehabilitation of 19-18.3 (Brown's Bridge)

Rigid Frame, Built = 1956, BCI = 71, Deck Length = 17.2m, Spans = 1 This bridge was scheduled for rehabilitation by the County's Bridge Crew in 2020. However, due to COVID-19 the bridge crew focused less on large capital projects and more on minor maintenance. This bridge was last rehabilitated in 1988 (patch, waterproof, and pave). The bridge is generally in good condition. However, new barriers and waterproofing would extend the service life of the bridge by at least 15 years to 2046. New guiderails will also be installed to replace the substandard end treatments. Design work has already been completed in anticipation for this project.

RB20246 – Re-Pave Approaches at Marnoch Bridge (20-24.6)

Deck on Concrete Girders, Built = 1966, BCI = 73, Deck Length = 86m, Spans = 3 This structure is generally in good condition and was last rehabilitated in 2006. The 2006 rehab included patch, waterproofing, and paving the bridge deck and expansion joint seal modifications. Since 2006, the approaches to the bridge have settled and cracked creating a rough riding surface leading up to the bridge. The approaches should be repaved to avoid further settlement. This work is not expected to increase the expected service life.

RB30059 – Re-Pave Fordwich Bridge (30-05.9)

Rigid Frame, Built = 1954, BCI = 66, Deck Length = 39m, Spans = 2

This structure is generally in good condition and was last rehabilitated in 2001. The 2001 rehab included patch, waterproofing, and paving the bridge deck. Since 2001, the asphalt over the bridge has cracked leading to an increased rate of deterioration. The Public Works Department is recommending to mill and pave the top lift of asphalt from the bridge to extend the expected service life of the bridge by approximately 5 years.

RB30087 – Re-Pave Bridge 30-08.7

Rigid Frame, Built = 1958, BCl = 74, Deck Length = 16m, Spans = 1

This structure is generally in good condition and was last rehabilitated in 2007. The 2007 rehab included a concrete overlay, waterproof, and pave as well as barrier replacement. Since 2007, one approach has settled and there are transverse cracks in the asphalt at the ends of the bridge leading to an increased rate of deterioration. The Public Works Department is recommending to mill and pave the top lift of asphalt from the bridge to extend the expected service life of the bridge by approximately 5 years.

RC08140 – Replacement of Culvert 08-14.0

Corrugated Steel Pipe Arch, Built = 1970, BCI = 45, Span = 1.83m This steel culvert is in very poor condition with severe corrosion and perforations. The culvert bottom is starting to show signs of uplift which creates uneven stresses on the barrel walls. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has been awarded and construction is anticipated in summer 2021.

RC17061 – Replacement of Culvert 17-06.1

Corrugated Steel Pipe, Built = 1955, BCI = 35, Span = 2.44mThe culvert is in poor condition with severe corrosion and perforations. The high water mark is also high inside the culvert. This may be an indication that the culvert is undersized hydraulically. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has been awarded and construction is anticipated in summer 2021.

RB31266 – Rehabilitation of Forester's Bridge (31-26.6)

Deck on Concrete Girders, Built = 1984, BCI = 70, Deck Length = 150m, Spans = 5 This structure is generally in good condition and was last rehabilitated in 2011. The 2011 work included slope protection to prevent washouts in front of the south abutment. There has been no other significant work done to the structure since 1984. The Public Works Department is recommending to patch, waterproof, and pave the bridge deck, upgrade the barrier system, and replace the expansion joints. This work is estimated to extend the expected service life by approximately 15 years. Forester's Bridge is estimated to be the second most expensive bridge in the County's inventory so investing in the longevity of this bridge pays dividends in the future. Design work is anticipated in 2021 with construction in 2022.

RB86328 – Rehabilitation of Zetland Bridge (86-32.8)

Deck on Steel Girders, Built = 1965, BCl = 72, Deck Length = 93m, Spans = 3
This structure is generally in good condition and was last rehabilitated in 2007. The 2007 rehab included abutment bearing replacement, expansion joint seal replacement, and some structural steel girder repairs. Since 2007, the top lift of asphalt has been replaced as part of a larger paving contract on Amberley Road. Replacing the top lift of asphalt does not improve the condition of the waterproofing or deck and covers up any indication of distresses in the concrete deck. The Public Works Department is recommending to coat the girders, patch the abutments, replace the deteriorating barriers, and patch, waterproof, and pave the bridge deck. This work is estimated to extend the service life of the bridge by approximately 15 years. Design work is anticipated in 2021 with construction in 2022.

RBBB23 – Replace Boundary Bridge 23

Rigid Frame, Built = 1961, BCI = 44, Deck Length = 9m, Spans = 1

This structure is located on Line 183 which is a boundary road between the Municipalities of Huron East and West Perth. The structure has the lowest BCI of any bridge in Huron County and is beyond repair. Huron County owns 50% of the structure with West Perth has confirmed that replacement should go ahead in year 2023. Additionally, once the bridge is replaced, Huron County can download their 50% share to Huron East with no additional payments. The Public Works Department is recommending to replace this structure in partnership with West Perth in 2023 and design work beginning late 2021. West Perth has confirmed their funding for 2021.

RB83147 – Replacement of 83-14.7 (Black Creek Bridge)

Rigid Frame, Built = 1948, BCI = 55, Deck Length = 20.1m, Spans = 1 This bridge was last rehabilitated in 1998 (patch, waterproof, and pave). The bridge is in fair to poor condition with substandard railings. Additionally, hydraulic investigations indicate that the span was undersized.. Replacing the bridge will provide 75 years of service and has a similar annual average cost vs. rehabilitation. Replacement at this time offers the longest life and aids the County in long term capital planning. Design and permit work commenced in 2019 with Environmental Assessment and Public Information Sessions in 2020. Replacement of this structure is scheduled to be tendered in 2020 with award and construction in 2021.

RB83192 – Replacement of 83-19.2 (Ausable River 1 Bridge)

Rigid Frame, Built = 1948, BCI = 55, Deck Length = 20.1m, Spans = 2
This bridge was last rehabilitated in 1998 (patch, waterproof, and pave). The bridge is in fair to poor condition with substandard railings. Replacing the bridge will provide 75 years of service and has a similar annual average cost vs. rehabilitation. Replacement at this time offers the longest life and aids the County in long term capital planning. Design and permit work commenced in 2019 with Environmental Assessment and Public Information Sessions in 2020. Replacement of this structure is scheduled to be tendered in 2020 with award and construction in 2021.

RC04294 – Replacement of Culvert 04-29.4

Open Footing Concrete Box, Built = 1950, BCI = 42, Span = 2.65m

This concrete box culvert is in poor condition with delaminations and concrete erosion. The structure had concrete extensions added at an unknown date. The Public Works Department is recommending to replace this structure at the same time as 04-29.4 which provides economical benefits in the construction contract. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has commenced on this structure in 2020 and is scheduled to be tendered in spring 2021 with construction in fall 2021.

RC04362 - Replacement of Culvert 04-29.7

Open Footing Concrete Arch, Built = 1950, BCI = 38, Span = 2.75m

This concrete arch culvert is in poor condition with delaminations and concrete erosion. The structure had concrete extensions added at an unknown date. The Public Works Department is recommending to replace this structure at the same time as 04-29.4 which provides economical benefits in the construction contract. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has commenced on this structure in 2020 and is scheduled to be tendered in spring 2021 with construction in fall 2021.

RC86154 - Replacement of Culvert 86-15.4

Open Footing Box Culvert, Built = 1940, BCI = 26, Span = 3.65m ***Shared project with Bruce County***

The culvert is in poor condition. A new culvert would provide a 75 year life and improved hydraulic capacity. Design has been awarded in 2020 and construction is anticipated in summer 2021. Bruce County has confirmed funding for their 50% share of this project.

RB08063 – Rehabilitation of 08-06.3 (Summerhill Bridge)

Deck on Steel Girders, Built = 1959, BCl = 62, Deck Length = 57.6m, Spans = 3 This bridge is in fair condition and was last rehabilitated in 2006 (patch, waterproof, and pave with barrier replacement. Conversion to semi integral abutments) by the County Bridge Crew. The recent rehabilitation addressed all issues above the deck but the abutments need to be patched for it to reach its design life. Coating the bridge girders and patching the abutments is expected to extend the life of the bridge by at least 15 years to 2049. Engineering has been awarded in 2020 and construction is anticipated in late spring 2021.

RB015069 – Rehabilitation of 15-06.9 (Westerhout Bridge)

Rigid Frame, Built = 1960, BCI = 65, Deck Length = 11.3m, Spans = 1 This bridge is in fair condition and was last rehabilitated in 1992 (patch, waterproof and pave). New barriers and waterproofing is expected to extend the life of the bridge by at least 10 years. The Public Works Department is recommending this project be completed by the County Bridge Crew in 2022 and engineering awarded in 2021. This project was deferred from 2020 to 2021 due to COVID-19 and complications with scheduling the Bridge Crew.

RB15146 – Rehabilitation of 15-14.6 (Wallace Bridge)

Rigid Frame, Built = 1956, BCI = 58, Deck Length = 21.0m, Spans = 1 The structure is in fair condition but new barriers and waterproofing would extend the service life of the bridge by roughly 15 years. The Public Works Department is recommending this project be completed by the County Bridge Crew in 2022 and engineering awarded in 2021. This project was deferred from 2020 to 2021 due to COVID-19 and complications with scheduling the Bridge Crew.

Patrol Yards & Equipment Capital

There are 12 buildings located in four patrol yards (Auburn, Wroxeter, Wingham and Zurich) which are maintained by the Public Works Department. Expenditures for regular maintenance items and small tool/equipment replacements are included in the capital budget and operating budgets. There is a gradual increase in operating costs associated with these buildings as components are aging and required higher order maintenance and/or replacements. Items include windows, doors, locks, flooring, waste oil handling stations, etc. The KPMG Public works study was completed at the end of 2020. Recommendations and the implementation plan will be presented in 2021 for consideration in the 2022 and beyond budgets.

Road Safety Capital

A number of projects related to highway safety are proposed for 2021 and include:

- Replacement guide rails where are in need of replacement including extensions in length where they have been identified to be warranted. This work was approved in 2020, but, not tendered in 2020 due to a backlog of other guiderail work.
- Additional purchases of radar speed boards to further support traffic calming efforts.
- Replacement of aging traffic counters with current technology.
- Pedestrian safety review in the vicinity of CR86/CR4 in Wingham in response to additional recent developments being completed in the area.
- Installation of temporary pedestrian crossing(s) of County Road 4 in Blyth to align with re-location of event activities as a result of COVID-19.
- Undertake a study and public consultation process for an improvement to the intersection of County Road 83 and Airport Line to improve traffic flow as well as reduce the severity of accidents in this location. Project will include

- detailed design based on the results of the study and public consultation with construction anticipated in 2022 pending budget approvals.
- Undertake a study and public consultation process for an improvement to the
 intersection of County Road 4 and County Road 25 in Blyth to accommodate
 current and anticipated pedestrians, cyclists, traffic as well as address
 concerns of safety, speeding, and severity of accidents in this location.
 Project will include detailed design based on the results of the study and
 public consultation with construction anticipated in 2022/2023 pending budget
 approvals.

Drainage

Drainage improvements have been identified in a number of locations including:

- Replacement of a failed culvert and adjacent private drainage structures as a single municipal drain culvert on County Road 18.
- Ditch renewal and vegetation removal along County Road 18 along with installation of guiderail. This particular location is significantly grown-in impacting the drainage in this area. This work will be tendered as it requires specialized equipment due to its depth and slope.

Road Maintenance

The County is fortunate to have roads that are very good condition and held to a high standard. Maintaining roads at this level of service provides a safe, reliable transportation network for residents, visitors, and local economy and minimizes risk.

The County has received a spray patcher as part of the 2020 capital budget, however, the unit delivery and operations was delayed due to COVID-19 impacts. The unit was deployed successfully on a limited bases in 2020 with excellent results. It is anticipated that the unit will be fully deployed in 2021 and will be available to undertake work on local roads as requested by local municipalities within Huron County on a cost recovery basis.

Winter Maintenance

The County has adopted the Provincial Minimum Maintenance Standards (MMS) for winter control and provides staffing to minor and respond to winter weather conditions. The road class is based on speed limits and traffic volumes and are primarily class 2 and class 3 with lower speed limit sections being class 4 and class 5. Winter maintenance is provided by 4 Patrol Yards and 16 plow routes (3 plow routes by contracted services).

There remains an ongoing challenge in attracting and retaining qualified staff to patrol and plow roads through the winter months with seasonal and temporary staff. Un-filled positions as well as sick time of staff results in the remaining staff and management working overtime to cover patrol and plow routes. Some staff are more frequently working to the limits of provincial regulations (CVOR) in order to meet service levels. Addressing this challenge is expected to place an ongoing

pressure on future budgets to enable the County to continue to meet Provincial winter maintenance standards.

In response to attracting qualified snow plow operators the County began a training program for newer less experience operators in 2020. This strategy has proven somewhat successful to fill the shifts needed in order to satisfy the MMS.

The County Municipal Assistance Agreement was updated in 2020 with follow up meetings with County, Local Public Works and Emergency Services staff to discuss training and strategies to deal with service delivery issues in PW related to COVID, Weather, etc.

General Administration

In addition to road and drainage related infrastructure management, the Public Works Department comments on development controls, severances, rezoning, etc. along county roads, issues entrance permits and annual & oversize load permits, all in conformance with adopted County Policies and By-Laws.

The Minimum Maintenance Standards (MMS) for Municipal Highways, Ontario Regulation 239/02 dictates a minimum level of service required for operations. The on-going maintenance and good condition of the County's road-related assets assist in minimizing operational costs.

Budget Notes

Revenue

The County receives Provincial Grants in the form of OCIF (Ontario Community Infrastructure Funding) and allocates this revenue towards Capital projects to support ongoing renewal and replacement of infrastructure.

The OCIF 2021 allocation of \$2,417,826 is not reflected in the 2021 budget. The 2021 OCIF allocation is being recommended to be accumulated to fund a number of proposed road capital projects in 2022. The OCIF funding agreement permits allocations to be accumulated in this manner.

The County receives annual Federal Gas Tax Funding (GTF) and allocates this revenue to eligible capital expenditures. In 2021, it is valued at \$1,880,613 and is nominal increase over 2020.

Salary

In 2020, a number of changes in staff responsibilities as a result of Attrition have adjusted responsibilities between staff but has not directly resulted in a salary increase for Public Works 2021 budget. However, 2020 salaries are showing lower then budget values as a result of the following:

- Job Evaluations for several positions as a result of Attrition have not yet taken place and may result in salary increases effective to Jan 1, 2020 that have not yet been reflected in the current expenditures.
- A number of vacancies have not been filled in 2020 as a result of onboarding challenges under COVID-19 conditions.
- Two positions on LTD have not been back-filled through the summer months.
- Three summer positions (fleet, bridge, and asphalt students) have been eliminated through attrition plans.
- An overstatement of estimated stand-by and acting lead hand hours.

The 2021 salary budget incorporates the following adjustments resulting in both a lower FTE count and total salary budget for 2021 in comparison to 2020:

- Several re-allocations of staff time from Public Works Administration as a result of an Attrition plan.
- Re-allocation of a portion of staff time from Public Works Operations reflecting maintenance hours by Road staff on equipment not previously recognized in the Fleet budget.
- A correction to a calculation error related to stand-by and acting lead hand hours that over-stated the estimated total salary budget for PW in 2020.
- A correction to the FTE calculation that inadvertently included non-productive staff hours.

The net changes above reflect a reduction in salaries and benefit budget of 2.50% (\$104,423) in the 2021 PW budget as well as a re-statement of FTEs within Public Works.

Intra-County Purchases

Adjustments in fleet costs reflect the following changes:

- 1) Increased insurance costs.
- 2) Re-allocation of staff costs to support Fleet as a result of Attrition.
- 3) An increased recognition of staff time associated with fleet maintenance activities as opposed to being recognized in the roads area (net zero impact).

Consulting/Professional Fees

This cost comprises approximately 97% capital expenditures providing a wide variety of external specialized professional services such as: site investigations, material sampling, topographic surveying, hydrological surveys and studies, drainage design/review, geometric design, structural review/analysis/design, preparation of tender drawings and specifications, onsite construction supervision and inspection, various permit applications, hosting public information sessions, and validation of invoiced/certificate quantities and invoices. Collectively, these services are commonly referred to as 'Engineering Services'. These professional services are being provided at the direction and supervision of in-house staff.

The variance shown in this budget reflect a normal year-to-year fluctuation to support capital work and includes budget values approved for multi-year capital construction projects and carried forward from 2020. In particular, the 2021 increased costs is due to a significant increase in urban road reconstruction (Hensall, Zurich, Clinton, Seaforth, Exeter) as well as two significant intersection upgrades (Blyth, 83/Airport Line) requiring a wide variety of professions services.

Projects of this nature require RFPs to be issued for multiple years as larger capital projects require one to two years of design, field work, public consultation, permit applications, coordination with other utilities, circulation to other stakeholders. Following this process, upon budget approval, the construction phase is tendered with supporting consulting services including site supervision, inspection, and contract management as the project moves into the construction phase.

As such, the current budget reflects multiple years of expenditures enabling the RFPs to be awarded and includes provisional items to support the future construction phase. Funds not expended in the current year are carried forward for approved construction phases of the project. Should the project not be approved for construction, the funding associated with provisional items within the RFPs are held back and returned to original funding sources (typically reserves).

Operating costs in this category are associated with regulated bridge inspections (OSIM) and a nominal allocation towards re-active specialized consulting needs to address traffic and drainage issues that arise throughout the year.

Capital/Maintenance Contracts

This cost comprises 90% capital expenditures related to construction.

The reduction in this year's budget reflects a reduction in new projects being undertaken in 2021 to catch-up on approved capital projects in prior years that have not yet been completed

Operations costs within this category vary from year to year and substantially impacted by Municipal Drain works petitioned through the Drainage Act along with an aging network of rural ditches that require re-active repairs. The 2021 budget includes the outstanding Municipal Drain work (\$650k) that has been completed and not been billed by local municipalities along with commitments on municipal drain projects yet to be undertaken.

Purchase of Services

This cost includes both capital and operating expenses in which the capital component fluctuates substantially each year based on the capital projects being undertaken in the current year. The increase shown in the budget

reflects a work related to capital projects such as surveying, soil sampling, compaction testing, CCTV, etc..

Program Supplies & Costs

This cost includes both capital and operating expenses in which the capital component fluctuates substantially each year based on the capital projects being undertaken in the current year. In 2021, the operating component includes \$2.1M (79%) and is comprised of winter materials such as salt, sand, and de-icing liquids, gravel for shoulder renewals, and pavement marking supplies.

The remainder (21%) is associated with capital projects and minor capital purchases

- one-time equipment replacements related to traffic safety
 - o traffic counters,
 - UPS for traffic signals,
 - o purchase of radar boards
- Aging equipment replacements at patrol facilities
 - o garage door openers,
 - o pressure washer,
 - o security cameras.
- Electronic exterior door locks

2021 DEPARTMENT SUMMARY

The Public Works Department 2021 budget reflects a responsible funding level in order to maintain the required level of service and supports operational changes that address the need for succession planning, mitigating liabilities, and improvement in business continuity.

A good balance of maintenance and reconstruction funding results in the good quality infrastructure that residents and visitors of Huron have come to enjoy and appreciate. This enhances the quality of life, economic return to commerce and overall health of the County.

OTHERS CONSULTED:

- Public Works Management Team
- Chief Administrative Officer
- Treasurer & Treasury Staff
- Consulting Engineers (OSIM Bridge & Culvert Inspections)

OVERAL BUDGET IMPACTS

The proposed 2021 Public Works Budget has utilized revenue and funding from several sources to assist the County in reducing the overall levy impact, including a debenture of \$4,300,000 to funding the replacement of two bridges on County Road 83.

The Public Works Department's 2021 budget proposes a year-over-year levy reduction of \$7,551 which translates into a 0.05% decrease for the County's Public Works budget from 2020.

Of particular note, Capital expenditures on rural roads are low in 2021 as available resources are focused on a backlog of urban road re-construction projects in collaboration with local municipalities. Capital expenditures are expected to increase in the following years to address the deferral of rural road renewal projects in 2021 as well as an ongoing backlog.

Steven Lund, P.Eng., PWLF,

County Engineer/ Director of Operations

COUNTY OF HURON 2021 BUDGET

Emergency Management Services

CORPORATION OF THE COUNTY OF HURON

2021 - Huron County Emergency Services Consolidated Budget Narrative

PREAMBLE:

The Huron County Emergency Services Department is comprised of four programs, each with a budget developed. The various programs consist of the Paramedic Services (HCPS), Paramedic Fleet, Emergency Management (EM), and Paramedic Special Projects.

The Paramedic Program is a cost shared program with the Province of Ontario at a rate of 50:50. At this time, there has been no formal indication from the Province of Ontario regarding any potential changes regarding the current funding mechanism of 50 percent for the calendar year 2021.

The **Huron County Paramedic Services** (HCPS) and the **Emergency Management** (EM) programs are legislated entities within the Emergency Services Department.

The Ambulance Act, the various regulations and standards arising from this Act, govern the actions of Paramedic Services and establishes the province's legal basis and framework for the provision of ambulance service in the Province of Ontario. The Public Access Defibrillation (PAD) program is included in the Paramedic Services section for budgeting purposes. Fleet is an indirect requirement that is not specifically referenced within the Act, however, the types of vehicles, design, construction and specifications are documented under Ambulance and Emergency Response Vehicle Standards and procurement and decommissioning are controlled within the standards.

As we enter 2021, Paramedic Services will see continued changes and oversight with relations to new and changing legislation. The Ambulance Act had not been updated or revised in over twenty (20) years, however the Act received a major revision in 2018 and further changes are expected in 2021. Some of these changes will have a direct impact on Paramedic operations. Patients will be transported to alternative treatment facilities if the Emergency Department is not appropriate, Ambulance Communications Center's will be improved to better triage patients to allow for appropriate resources to be sent, Paramedics will be able to treat patients in the homes and "release or refer" thereby not requiring transport to the Emergency for all clients, and finally an increase in care in the home (first 72 hours, palliative care plans, etc.) which will require an increase in the Community Paramedicine Program. A fair amount of the proposed changes were originally scheduled or expected to occur in 2020, however, with COVID-19 the majority have been placed on hold or not released by the Province.

As hospitals continue to reorganize for specialized care, our Paramedics will be required to transport patients further to allow for the patient to receive the right care, at the right time, in the right place. This currently includes by-pass protocols such as Stroke by-pass, STEMI by-pass (Heart Attack), and Trauma by-pass however, additional alternate destination protocols such as mental health, obstetrics, hospice centres, and others may be implemented. Although this is the best care for the patient it taxes our resources as

more patients are being transferred directly to the specialized hospital instead of the local Emergency Department.

The Supporting Ontario's First Responders Act is a definite step forward in helping our Paramedics seek treatment and support when dealing with workplace post-traumatic stress disorder and other occupational stress disorder illnesses. It does, however, significantly increase the back fill component of Paramedic staffing. This continues to increase the amount of PTSD claims and our WSIB costs related to PTSD and Mental Health. As a result our staffing costs have correspondingly increased to meet the demand.

Huron County, and Ontario in general, has an aging population which is living in their own homes for longer periods. As this population trend continues it will add increased pressure to Paramedic Services and the associated call volumes. Increasing call volumes coupled with specialized by-pass requirements, and alternate transport destinations will continue to put added pressure on our Paramedic resources. We are currently seeing an approximate year over year call volume increase of roughly 2% - 4%. Careful planning, as outlined in the 2020 ORH report, for additional required resources in the future will be a necessity to ensure Paramedic Services are positioned appropriately for future growth.

Huron County and CUPE 4513 have a collective agreement that expires on December 31, 2019. Negotiations were delayed due to COVID-19, however, they have since started and dates have been set in November & December for further negotiation sessions. Although the percent increase for wages and benefits is not known at this time, a small increase has been included in this budget proposal.

Emergency Management is governed by the Emergency Management and Civil Protection Act (2009) and this legislation establishes the province's legal basis and framework for managing emergencies in the Province of Ontario. In 2017 the County of Huron started to provide shared Emergency Management services with eight (8) of the nine (9) Huron County member municipalities. The County Emergency Management Coordinator (CEMC) acts as the Emergency Management Coordinator for these member municipalities as well as ensures their Emergency Management Program achieves the requirements required under the Act.

The County Emergency Manager has been busy with the Global COVID-19 Pandemic for the majority of the 2020 year. The expectation/trending is showing that this Pandemic will last well into the 2021 year. Although there are only minor changes to the Emergency Management budget it should be noted that post Pandemic there could be new expectations announced by the Provincial and/or Federal Government that could affect the overall Emergency Management budget.

The **Community Paramedicine** program is not legislated under the Ambulance Act, however, it is expected that the current Provincial Government will continue to concentrate on providing better community health programing to help citizens live in their homes safely for as long as possible. Recently the Ontario Premier has indicated that Community Paramedicine is a priority for the Province, especially with relation to COVID-19, Long Term Care waitlists, and High-Risk patients within the community.

At the request of our Provincial stakeholders, County Council approved the re-introduction of the Community Care Team for a period ending April 30, 2021. This team is operational for 12 hours per day, seven (7) days per week and will be dealing with the identified patient groups listed above. As such, you will notice that a Community Care Team budget has been added to this year's overall Emergency Services budget.

During this project, Paramedic Leadership are exploring funding options that are available through Ontario Health, Ontario Health Teams, and possibly Family Health Teams. The Province continues to indicate that funding is coming for Community Paramedicine programs, however, there has not been any written confirmation received.

The Community Paramedicine Coordinator coordinates all Community Paramedicine events/programs such as patient referrals to Community Care Access, Community Wellness Clinics, Flu Immunization clinics, Project Lifesaver, as well as oversees the Community Public Access Defibrillation Program and provides training to Paramedics on topics related to Community Paramedicine. The Community Paramedicine Coordinator position is included in the 50/50 funding allocation and is currently 0.5 FTE position.

The Emergency Services staffing compliment is broken down into three sections: Paramedic Services, Emergency Management, and Community Care Team and is shown in the following chart.

Position	2021	2021 FTE	2021 Total
	Hours	Addition/Reduction	FTE
Paramedic Services			
(50% funded by			
MOHLTC)			
Admin Staff	10,920	0	5.50
Paramedic	12,230	0	5.60
Supervisors (FT) &			
(PT)			
CP Coordinator	1040	0	0.5
PCP (FT)	117,936	0	54.00
PCP (PT)	39,974	0	18.30
Sub – Total	182,100	0	83.90
Community Care			
Team			
PCP (FT)	756	+ 0.35	0.35
PCP (PT)	942	+ 0.43	0.43
Sub-Total	1,698	+ 0.78	0.78
F			
Emergency Management			
(100% County			
Funded)			
CEMC	2080	0	1.0
Sub-Total	2080	0	1.0

Position	2021	2021 FTE	2021 Total
	Hours	Addition/Reduction	FTE
TOTAL	185,878	0.78	85.68

The breakdown for the Paramedic Services Administration staff listed above includes: Half (0.5) Director of Operations, one (1) Chief Emergency Services, one (1) Deputy Chief Operations, one (1) Deputy Chief Professional Standards, two (2) Administration Coordinators, and one (1) part time Community Paramedicine Coordinator.

The call volume for Huron County Paramedic Services from <u>January 1 – October 31</u>, <u>2020</u> is detailed below and is based on the data collected by the Province of Ontario Ambulance Dispatch Reporting System (ADRS).

The projected call volume for 2020 is 6,427 calls for service which would represent an approximate call volume decrease of 8% over the 2019 year. The average call volume increases for the last three (3) years is averaging 4 percent per year. The 2020 call volume will be subject to extra ordinary variances due to the global COVID-19 pandemic. Huron County experienced decreases in volumes of as 26% per month during the COVID-19 first wave lock down and as much as a 5-6% increase in call volumes as the initial lock down measures were lifted. Currently as we enter the 2^{nd} wave we are again experiencing a significant drop in call volumes as COVID case counts increase and people head in doors from the weather.

Year	Code 1 Non-Urgent	Code 2 Scheduled	Code 3 Urgent	Code 4 Threat to Life/Limb	Totals
2015	350	90	2,124	3,302	5,866
2016	418	96	2,200	3,437	6,151
2017	365	50	2,390	3,589	6,394
2018	318	66	2,588	3,804	6,776
2019	297	75	2,544	4,035	6,951
2020	272	50	2,330	3,146	5,798

All four programs noted above are reflected in the Emergency Services Consolidated Budget narrative and the consolidated budget will address major variances that have been identified in these programs.

BUDGET:

The MOHLTC cost shares the Paramedic Services budget increases and decreases at the 50% subsidy level which are realized in the following budget year.

Salaries and Benefits

There is a proposed increase for CUPE and a non-union salary increase included within the budget. There is an increase in the part time salaries due to an increase in backfill hours for extended WSIB, Long Term Disability claims, Short Term Disability and increase vacation coverage. There is also an increase for staffing hours of the Community Care Team from January 1st until April 30th, 2020. These adjustments result in an overall increase of \$255,626 to the salary line.

Statutory Benefits, Extended Benefits and OMERS have increased with a net change of \$65,337. This increase is as a result of the cost of living increase in the salaries which causes the corresponding increase in benefits. Overall, the result is an increase in the Salaries and Benefits of approximately \$320,963 or 3.11%.

The salaries and benefits increase in the budget of \$320,963 represents 87% of the total increase to the Emergency Services operational budget.

Equipment

Paramedic Services – There is an increase of \$22,308 in the vehicle lease and operation section of the equipment budget. This is an increase to the leasing costs charged to Paramedic Services for the Paramedic vehicles. There is also a \$10,000 increase to the equipment repair and maintenance section. This increase is do to increase pricing in parts and maintenance of our vehicles, and large medical equipment such as power stretchers, paramedic defibrillators and auto-pulse machines. These changes result in a \$31,183 or 4.27% increase to the equipment portion of the Paramedic operations budget.

Emergency Management – There is no change expected for 2021.

Purchased Service

Paramedic Services - There is a small decrease in consulting of \$2,100 as we are not expecting or planning any to utilize any large consultant projects in 2021. There is also a decrease of \$7,400 in the maintenance contracts with the elimination of the Fleetmatics Automatic Vehicle Locator (AVL) system. This system is replaced by the PRAN system and has an on-going operating cost that is estimated to be more economical than Fleetmatics.

Insurance is increasing by \$32,000 for the Emergency Services Department.

There is an increase in the Intra County Purchases line of \$29,221. This is the amount charged to Emergency Services by the County for support services such as Human Resources, Information Technology, Finance, and Administration. An additional \$15,500 is added for IT Fleet costs.

Emergency Management – There is no expected change for 2021.

Overall, the result is a net increase for Purchased Service of \$52,771 or 6.36% in the consolidate budget.

Operational

Paramedic Services – When the North Huron Fire Department closed the Emergency Services Training Centre and open their new Blyth Fire Hall, Paramedic Services was unable to secure any storage in the new Fire Hall therefore the lease agreement in Blyth was terminated. This has resulted in a \$5,892 decrease to the Rent budget line.

There is a small decrease in the telecommunications line due to some efficiencies in pooling of data for the vehicle hot spots for Paramedics to transmit 12 Lead ECG's to the Cardiologists.

There is also a small decrease in the Travel/Meals and the Conference lines to account for the decrease in travel and on-site meetings due to COVID restrictions

The depreciation on Capital Assets has increased by \$61,274.

Emergency Management – There is no significant change for 2021.

Overall, the result is a net increase for the Operational budget of \$47,597 or 4.45% in the consolidate budget.

Program

Paramedic Services – There are slight decreases in uniforms, cross border payments, and program supplies and costs resulting in a savings of \$4,918.

Emergency Management – There is no increase to the Program budget in 2021.

Overall the result is a net decrease in the program budget of \$4,918 or -1.53% in the consolidate budget.

Capital Assets

Those assets that are over \$1000 and are a single purchase that have been included in the capital assets section as follows:

Paramedic Services

Ambulances

The Huron County Paramedic Services (HCPS) is on a sixty (60) month replacement of vehicles with the vehicle being purchased in the sixth year. For 2021 we are recommending the replacement of two (2) conventional ambulances. Both of these units will be scheduled for their normal replacement during the 2021 year.

The cost to replace these vehicles would be approximately \$165,000 each which includes the purchase of the vehicle, shipping, electrical safety certification, vehicle identification, and licensing.

Response Unit

One of the current administrative/command vehicles was due for normal replacement in 2020 and the second unit is due for replacement in 2021.

Due to a shortage of chassis' during the COVID-19 lock down the vehicle for replacement in 2020 was not able to be purchased until November. Delivery of that vehicle is not

expected until approximately April 2021, therefore the funds have been carried forward to 2021.

The cost of the second vehicle would be approximately \$90,000 which includes the purchase of the vehicle, conversion, electrical safety, vehicle identification, and licensing.

Power Stretcher and Power Load System

Staff is recommending that we continue again this year with purchasing power lift stretchers and the accompanying power loading system. Research has shown that using this type of system significantly reduces the chance of back injuries from improper lifting or over lifting. By using a power lift stretcher and the power load system we are effectively reducing the number of manual patient lifts by as many of six (6) per call. Each patient call can have up to ten (10) lifts depending on the type of call. Reducing the number of manual lifts by as many as half reduces the risk of Paramedic back injuries. Therefore, we are requesting to purchase power stretchers and power lifts to be installed on the 2021 ambulances purchased. The total cost for two power load systems including two (2) power stretchers is \$130,000.

Stair chair

A stair chair is a piece of equipment to move patients safely up and down stairs. This piece of equipment is used frequently and is required to be maintained properly to ensure the safety of both the patient and the Paramedic. Our current stock of stair chairs was purchased several years ago and are starting to reach the end of their life cycle. It was proposed to start replacing stair chairs at a rate of two per year starting in 2016. The current stair chairs are out of warranty and are starting to require an increase in repairs due to their age. We have currently budgeted to replace two stair chairs for an approximate price of \$8,500. Replacing two stair chairs in 2021 follows the requirement outlined in Asset Management Plan for Paramedic Services.

Paramedic Defibrillators

In 2013 we started to replace aging Paramedics Defibrillators at a rate of two (2) units per year. The request is to continue this process and replace two (2) Paramedic Defibrillators in 2021. The two (2) units purchased in 2021 will replace two (2) units originally purchase in 2014. Those units are outside of warranty (extended warranty is four years from time of purchase) and are approaching the end of life which is recommended to be six (6) to eight (8) years. The budget to replace two (2) Paramedic Defibrillators is \$65,000.

Medical Bags

Medical equipment bags have a lifespan of five (5) to six (6) years. Our current supply of medical bags are at that age. We are looking to continue to replace two (2) sets of medical bags this year as we have for the last few years. The approximate cost for replacement of two sets of medical bags in \$7,500.

Computer Replacements

The current recommended replacement suggested by IT staff is the length of the warranty with possible an additional year of use depending on the condition of the computer. Paramedic Services has typically kept our computers longer than the recommended cycle. The request in this budget is for \$30,000 to replace three administrative computers and several mobile units in the field.

Base Furnishings

A few bases require replacement of individual pieces of aging furniture. The budgeted amount for base furnishings requested is \$8,000.

Paramedic Helmets

Paramedic helmets are covered under the CSA standard for a period of 10 years. We are currently experiencing several Paramedic staff helmets that are approaching the ten year mark. Under both the Health & Safety legislation as well as the Ambulance Equipment Standards Regulation helmets are required to be issued and meet CSA legislation. We are requesting to purchase approximately 20 new helmets at an estimated cost of \$10,000.

Paramedic Full Face Respirator Mask

As the COVID Pandemic continues and we enter the 2nd wave and understand that Provincial modeling would indicate that a possible 3rd and even 4th wave are possible unless a vaccination is available and utilized, the Paramedic Health & Safety Committee along with the management team are looking to ensure that our Paramedics remain safe and we utilize safety equipment that is sustainable and where possible reusable.

There are several models of a full-face respirator mask on the market that would eliminate the need for Paramedics to wear N-95 mask, goggles (eye protections), and a face shield all at the same time. The respirator mask has a breathing port that filters air coming into the mask and the air that the Paramedic is exhaling. Similar to a fire fighters SCBA mask, this Paramedic mask is not hooked up directly to a breathing apparatus but rather uses a high-level filter.

Currently Paramedics wearing an N-95, goggle, and face shield, as required, find it cumbersome and often times find that they can not complete their medical task properly because they can't see properly, are sweating profusely, or even having trouble breathing.

Whatever model of full-face respirator is purchased, will meet the MOHLTC equipment standards and will be able to be utilized post COVID for other outbreaks (Influenza), or situations that might occur.

The initial ask is to purchase the full-face respirators for our current full time and part time Paramedics, as well as our front-line Superintendents for a total approximate cost of \$22,000.

Auto-pulse Replacement

The Zoll Auto-pulse machine is used in cases of cardiac arrest. The patient is place on the Auto-pulse unit which provides mechanical CPR. The benefit of mechanical CPR is that the rate and depth of compressions is accurate to 92% of the time compared to roughly 10% accuracy for manual CPR conducted by a Paramedic. In addition, when the Auto-pulse is in place and the patient is placed in the ambulance the Paramedic can now be seated and belted in place as they will not be required to stand freely to complete manual CPR. This is a health and safety improvement for our staff.

We currently have an Auto-pulse in each of our units, however, several of the units were manufactured and purchased in 2008. These units have reached the end of their life cycle and we are seeing an increase in repairs and maintenance required.

We are requesting to continue replacing the units a few at a time, starting with the oldest units. The request for this year is that we replace four (4) units. This would be an approximate cost of \$60,000.

Public Access Defibrillators

Approximately 20 of our total 86 Public Access Defibrillators (PAD) within Huron County are ten years old or older. The warranty on that model of PAD is five (5) years. In 2018 County Council approved the replacement of approximately 25 units and through further fundraising and donation efforts a few additional units we purchased.

We are requesting \$35,000 which will replace approximately 20 additional units that have reached their recommended end of life.

Renovation to Zurich Base

Currently the Paramedics share the lunch room at the Zurich public works building as their EMS area. This limits the use of this lunch room for the Public Works staff as well as it does not allow for any privacy for either party. The Paramedics require privacy for numerous reasons including debriefing after a bad call, completing patient confidential records, discussions with supervisors or other management staff. This request is to complete a renovation to the Zurich public works building to add an EMS area. Once this area has been added to the building the lunch room will remain a shared lunchroom. The Paramedics will have a private area of their own to allow for the uses required and mentioned above. In 2017 the request for the renovation was \$50,000. Due to a reassessment of the scope of the project the initial \$50,000 was requested to be carried over from the 2017 to the 2018 budget. Due to unforeseen delays in getting this project complete a request to carryover the remaining funds from 2018 has occurred. The new costing of this project is estimated as \$80,000 of which \$80,000 will be funding through the carryover of funds from 2020 Capital.

<u>Clinton Administration – Electronic Sign</u>

Due to COVID-19 this project did not proceed in 2020 and it has been included in the 2020 capital carry over for consideration in 2021.

When the move of the Emergency Services Administration to the Central Huron Fire Hall occurred the ability to identify to the public where the administration was located was lost. The current fire hall does not have road signage for either Paramedic Services or Fire Services.

The request is to cost share the installation of an electronic sign, similar to the current sign at the Historic Goal, to indicate the location of both Huron County Emergency Services and Central Huron Fire Services.

In addition, with a sign similar to the current one in Goderich, we can advertise safety messages, wellness clinics, and other messages to the public.

The cost of this sign and installation would be cost shared with Central Huron.

Emergency Management – There are no capital requests for Emergency Management.

COUNTY OF HURON 2021 BUDGET

LIBRARY SERVICES

Huron County Library Budget 2021

Vision Statement

Huron County Library is an inclusive and vibrant community hub. It builds community, enriches lives and fosters creativity by providing access to information, skills and ideas.

Mission Statement

Huron County Library provides the community with inviting and accessible facilities, engaging virtual spaces, comprehensive collections and user-friendly technology. Welcoming and knowledgeable staff and volunteers provide innovative services and programs that contribute to community vitality.

Huron County Library

In 2017, the Huron County Library Board developed and received a new strategic plan with new vision, mission and value statements and strategic priorities for the library system to follow over the next five years. The strategic priorities outlined in the new strategic plan are:

- 1. Deliver services, programs and collections that meet community needs:
- 2. Deliver innovative and reliable technology that supports and enhances library services and programs to meet community needs;
- 3. Promote and strengthen partnerships with community members and organizations in order to better understand and respond to community needs and initiatives;
- 4. Build relationships with funding sources to maintain and improve practices and services;
- 5. Promote and strengthen library culture of teamwork and collaboration;
- 6. Create dynamic spaces that are accessible, welcoming and safe for patrons.

In order to realize these goals over the indicated time periods, the strategic action plan is reflected in the 2021 budget.

Huron County Library, both now and in the future, provides library services to all residents of Huron County in the following manner:

- Service points at 12 library branches Bayfield, Blyth, Brussels, Clinton, Exeter, Goderich, Hensall, Howick, Kirkton, Seaforth, Wingham, Zurich;
- Over 400,000 books and other items, computer software, ebooks and audiobooks, and 348,958 special collections items including digitized files of historic newspapers;
- 15 full-time and 26 part-time staff, plus numerous volunteers;
- Safe and free community space for all ages to meet and socialize;
- Access to quality electronic services free public access to computers and wireless networks as well as electronic resources downloadable from within the library or from home and hubs for loan to provide home Internet;
- Programs to support enjoyment of reading and lifelong learning.

Huron County Library's Strategic Plan places increased attention and focus on engaging with our communities and enhancing service through partnerships with other local organizations.

The 12 library branches share administrative resources which allows for an efficient use of the resources outlined below.

- Centralized administration, ordering, processing, cataloguing new materials;
- Shared professional and program staff;
- Distribution and shared rotation of library materials;
- Van delivery to library branches multiple times per week;
- Integrated library information system with online access for patrons;
- Interlibrary loan.

Every year, the Library engages in a week long annual survey as mandated by the Ontario Ministry of Heritage, Sport, Tourism and Culture Industries. Combining our regular statistics, and data gleaned during the survey week in 2019, the residents of Huron County:

- Had 18,141 current library memberships;
- attended 2,037 library programs (with a total attendance of 23,992);
- asked 5,400* reference questions; 364* electronic reference questions; 3,500* reader's advisory; and 3,700* technology questions (taking an average of 5.42 minutes to answer);
- received services, equipment or materials for accessible purposes (for patrons with physical or print challenges) 21,400* times;
- used 32,800* newspapers, reference and other materials in the library;
- visited their libraries 185,450* times in person and 140,712* times virtually;

- used library computer workstations 22,800* times (mainly for Internet access);
- used wireless 14,456* times to connect to the Internet using their own devices;
- downloaded 73,716 audio, music, film and e-books;
- and borrowed 392,534 items (all materials, traditional and electronic).

*annual statistics projected from results of the Annual Survey Week (November 2019) by Provincial formula = weekly count x 50 weeks or 52 weeks for online services.

Other interesting statistics from 2019:

- Patrons received 4,561 items through interlibrary loan; 2,057 items were loaned to other libraries.
- Programmes included early literacy & children's' programming, summer reading groups, teen programming, senior's programming, book clubs, and technology/computer literacy programmes.
- Non-traditional collections include a seed library, internet hubs, STEM activity kits, telescope and games.

Background to the 2021 Budget

The Library continues to use a zero-based budget where each budget line is built on the expected needs for the coming year.

The following sections are used in the Library's Budget:

- Administration for overall administrative expenses and the operation of the Library Administrative office which handles the selection, ordering, cataloguing, processing, and exchanging of library materials to the branches, interlibrary loan, electronic services, payroll, accounts, supplies, supervision, and other administrative functions.
- Branch Services includes wages and benefits for the staff working at the twelve library branches, books and materials, maintenance grants for host municipalities, furniture and equipment under \$1,000 per unit for library branches, and programming supplies.
- Special Projects continuing to digitize local materials. The programme has been reduced to part-time based on available funding.
- Summer Reading Program encourages literacy skills in elementary school-age children. Students are hired to develop and deliver weekly programs at all branch libraries during the summer. Usually successful in obtaining student grants for this program. For 2021, services may require virtual and arm's length programming if COVID-19 restrictions continue.

2021 Budget

This budget aligns with changes to the provision of library service in Huron County as set out in the new Strategic Plan.

Resources first raised in 2015 in hope of a renovation project in Clinton are once more being brought forward to 2021.

The Library will continue to participate in the Ontario Library Consortium (OLC) for Integrated Library System (ILS) software and online catalogue and other group software costs covered under Maintenance Contracts. To further enhance Library services through enhanced patron access, a mobile library app may be added in 2021. Determination of needs of the branches to allow for this to happen has been expedited due to COVID-19.

Collection initiatives include the continued investment in significant numbers of eresources to provide online access to more e-books, music, movies, television shows, magazines and comic books online. As much as possible, funds are continuing to be transitioned from traditional materials to on-line and innovative materials rather than requesting additional funds. With COVID-19 restrictions an increase in electronic access has increased importance. There have also been significant delays in publication delivery and a reduction in Interlibrary loan services.

2021 will see the ongoing replacement of hardware at the libraries. A regular replacement schedule keeps annual costs reasonable and maintains reliable service. Additionally, self-service kiosks will be added to five of the larger libraries.

As a response to Community Hub work, as well as the COVID-19 pandemic, county-wide programming and enhanced branch programming is reflected in the budget for 2021. We continue to focus on working collaboratively with other agencies and organizations to increase capacity.

With new agreements with the Huron Perth Health Unit in regards to the building that houses the Library Administration building, budget implications were seen through a reduction of rent services.

Revenue

Most of the funding for the Library comes from the Corporation of the County of Huron. The Province provides a fixed operating and pay equity grant.

As in past years, application will be made for Young Canada Works in Heritage Organizations grants to assist with summer student wages.

Donations and Third Party Recoveries reflect purchases made with donated funds, Friends of the Library sponsorship, community partner grants and recoveries from photocopy fees, coffee donations and other fees. Through the majority of 2020, the Library was fine free in response to COVID-19. The Huron County Library Board determined in December 2020 that fine free status would continue through 2021 which resulted in a change to the revenue line in the budget.

Expenditures

Staffing

Core Library staff and non-project based students participate in the County of Huron's non-union employee group, of which the wage rates and cost of living increases are established by the County of Huron. The Job Evaluation process which took place in 2020 resulted in wage increases for Branch Managers, Branch Assistants and the Systems Librarian which are reflected in the 2021 budget.

Library Core Staff Component

	2020 FTE	2021 FTE
Administrative office	9.42	9.07
5 Branch Managers	5.0	5.0
25 Branch Assistants, 10 student pages, 8 relief staff (approx.)	17.2	17.33
2 Summer Programming Staff	0.62	0.62
	32.24	32.02

The full-time Community Information Librarian contract position ended in August 2020. Hours from this contract position will be maintained in the budget to be distributed amongst the five library teams in particular to continue the 'Libraries Transforming Communities' model as well as community hub and programming work throughout Huron County. The Administration budget full-time salary line has been impacted by staff covering a leave for a full-time position.

In 2021, digitization will be funded primarily through a special Library reserve. The position will continue on a part-time basis. Grant funding will continue to provide support for special projects such as summer programming with contract workers, usually students.

Capital Expenditures

Traditional collections plus computers and equipment with a value of over \$1,000 are contained in the Library's capital budget. Through ongoing replacement requirements, computers and receipt printers will be purchased this year with guidance from the new IT Department fleet model. Other priorities will be the addition of new creative collection materials and updates to interior library spaces to reflect COVID-19 protocols and potential community hub work.

In 2021, the Library continues to reallocate resources from the purchase of traditional print materials in order to further the inclusion of unique and innovative collection materials, the digitization of historic newspapers and electronic materials.

Summary

The goals and strategies of the Huron County Library's Strategic Plan and the strategic priorities of the County of Huron have been used to focus budget priorities. Key priorities to roll out in 2021 include increased county-wide programming and activities, enhancement of patron services, marketing of services and branding of library assets, and update of library spaces to meet community needs. In addition, Health & Safety is a priority in every budget line. This is reflected in the training, equipment and security budget lines.

Elizabeth French-Gibson Interim County Librarian

COUNTY OF HURON 2021 BUDGET

CULTURAL SERVICES

Huron County Cultural Services Department Budget 2021

Background to the 2021 Budget

The Huron County Cultural Services Department has responsibility for the Huron County Library, Museum, Historic Gaol, County Archives, Heritage Fund, Art Bank, and Cultural Program. This budget relates to all non-Library related functions of the Department.

2021 Budget

The Cultural Services Department uses a zero-based budgeting approach, where each budget line is built on the expected needs for the coming year. To align with the way in which the Department functions, various programs of the Department are broken down in the separate sections of this budget narrative.

Huron County Museum & Historic Gaol (including Archives)

Mission & Vision Statements:

Vision:

The vision of the Huron County Museum & Historic Gaol is to nurture and inspire heritage and culture.

Mission:

The Huron County Museum & Historic Gaol engage our community in preserving, sharing, and fostering Huron County Culture.

The core business of the Museum is to operate a year-round museum, meeting all of the Ministry of Tourism, Culture & Sport standards, as well as the Huron Historic Gaol, a National Historic Site for six months of the year, plus special events and exhibits, Huron County Archives, and Tiger Dunlop Tomb. Outreach programmes and exhibits associated with the Museum travel to locations and functions across the County of Huron throughout the year.

The physical plants of the Museum building and Historic Gaol are managed by the County Property Services, and the Museum and Gaol pay rent for space to the County.

In 2019, the Huron County Museum and Historic Gaol underwent a comprehensive strategic planning process. Central to the plan is:

- Engaging with more people
- Long-term sustainability
- Diversity and Inclusion
- Flexibility

Specific action items included in the Museum & Gaol's 2021 Budget are the result the Museum and Gaol's Strategic Plan as well as the County of Huron's Strategic Priorities Chart.

Action items are also based on response planning to the COVID-19 pandemic.

Revenue

Most of the funding for the Huron County Museum and Historic Gaol comes from the Corporation of the County of Huron. The Province of Ontario provides the Community Museum Operating Grant (CMOG) subject to conditions and standards being met. This CMOG funding received yearly is \$63,226 for the purpose of enhancing the heritage activities of the Museum.

In 2020, the Department of Canadian Heritage provided Emergency COVID Funding through the Museum Assistance Programme (MAP) to cover the time period of April 2020 through March 2021. A portion of these funds is reflected in the 2021 budget with the purpose of the funds to be used to cover operating expenses and off-set Museum losses.

Federal and provincial staffing and project grants are utilized when available, in particular Young Canada Works in Heritage Institutions and Young Canada Works Building Careers in Heritage Internships. The Museum received an Internship grant in 2020 which continues until March 2021 with final payment at that time. Plans are underway for applications to the Young Canada Works summer employment programme which will be in line with enhanced services throughout the summer months.

Museum and Gaol admissions can vary according to the interest of visitors and tourists, as well as restrictions in place due to the pandemic. The temporary exhibits for 2021 will focus on local community subjects to encourage visitation by local residents and those within day visit distances. Various revenue lines within the Huron County Museum & Historic Gaol budget have been adjusted to reflect expectations of reduced public services due to the COVID-19 pandemic. These reductions have been covered by the MAP funding allocation.

Diversifying revenue through Sponsorships & Donations continues to be a priority for the Museum and Gaol in 2021 with a variety of fundraising events, enhanced programmes, and focus on investigations of outside sponsorships.

Expenditures

Salaries and Benefits

Museum employees participate in the County of Huron's non-union employee group.

Museum Core Staff Component (Including Gaol)

Position	2020 FTE	2021 FTE
Director	.3	.3
Senior Curator	1	1
Curator of Engagement & Dialogue	1	1
Registrar	1	1
Archivist	1	1
Administrative Assistant	1	1
Marketing & Branding Coordinator	1	1
Museum Technician	1	1
Museum Technician Assistant	.5	.5
	7.8	7.8

The student and part-time staff component varies each year in response to grants received. Students participate in the non-union employee grid as directed by County Administration. Funding will be sought to offset costs for summer student positions through Young Canada Works and other grant programs as available.

The student Collections Assistant internship continues until March 2021 to assist with the backlog of uncatalogued materials that exist within both collections and archives.

With various staff working in reassigned roles due to a staff leave, a Programming Coordinator contract position was developed and hired which will continue for 10 months of 2021. The position will be focused on enhanced programming for adults and youth. Much of this programming will be done virtually or arm's length according to COVID-19 restrictions and protocols.

Exhibits

Exhibit priorities for 2021 include continued redevelopment of the Museum's permanent Galleries including a complete redesign of the Industry Gallery. An existing bequest will offset a substantial portion of the redesign. This work was delayed in 2020 due to the COVID-19 closure.

The Temporary Exhibits in 2021 will include an extension of the *Reflections: Jack McLaren* exhibit in partnership with the Huron County Historical Society. Originally planned for early 2020 the exhibit was delayed due to the COVID-19 closure and opened later in the year and will continue through spring 2021. The interactive *Ripple Effect Lakes & Waterways* exhibit was developed in 2020 and will be opened in 2021 if COVID-19 restrictions are lessened or safety protocols enhanced. A new temporary exhibit, *Forgotten*, will be installed for summer 2021 with a focus on the unidentified photographs in the Huron County Archives, labeled only with local photographer marks. The exhibit will provide an opportunity to promote the holdings of the Archives and services available for researchers.

At the Huron Historic Gaol, a new display will feature stories of some of the cases and inmates of the Gaol, as well as enhanced signage throughout the building for smaller group tours.

Programming

The Museum will continue to pursue partnerships in order to deliver new and exciting programmes to the residents of Huron County. The momentum generated from an influx of school groups in 2019 was halted in 2020 with the pandemic and the closure of schools. Programmes planned for 2021 focus on virtual and arm's length offerings, including virtual field trips, outreach "History Unlocked" kits, and on-line speaker programmes for both the Museum and Gaol. Events typically held on-site will include virtual options as well as take home hands on workshop kits. Part of the 2021 budget request includes monies to develop these enhanced services.

A partnership event with Cultural Programmes and local municipalities to create a winter outdoor event in line with COVID-19 restrictions will take place if funding is received through donations and provincial grants (Celebrate Ontario). Other outdoor events, such as movies, musical activities or tours are also options if indoor restrictions continue.

Operational

The Huron County Museum and Historic Gaol will continue to undertake its reorganization of artifacts and storage areas in order to maximize space available, focusing on Museum Main Storage. Work in 2021 will focus in finalization of a new Collections Plan and further research of artifact provenance and potential deaccessions according to the Museum Deaccessioning Policy.

During 2021, Property Services will be undertaking remedial work to enhance accessibility to the Museum and replacement of the roof at the Gaol as part of our conservation efforts with support from Museum staff.

The Collections Committee will continue to serve as a collections and advisory committee. Further work to develop and Education Advisory Committee will be pursued.

2021 Budget November 2020

Huron Heritage Fund

In 2020 a variety of heritage projects received funding from the Huron Heritage Fund to enhance the variety of heritage projects ongoing in the County. All \$25,000 in funds were allocated by the Huron Heritage Fund. In 2021, the Committee will continue to assess applications for the grant in May and November.

Cultural Program

The County of Huron's Strategic Plan articulates that "a vibrant cultural sector" is a key characteristic of Huron County. A cultural component to the Cultural Services Department in Huron County has been in place since 2011. A new Cultural Plan was developed in early 2020.

The Cultural Services department will focus on virtual and in-person programming in 2021 including the Alice Munro Festival of the Short Story and the Huron Multicultural Festival, as well as support other culture-based initiatives.

The Cultural budget for 2021 is experiencing an increase based on the County Job Evaluation process for the Cultural Development Officer, and the large planned outdoor winter partnership event project which is dependent on Provincial Grant funding and local contributions.

Cultural Services Staff Component

Position	2020 FTE	2021 FTE
Cultural Development Officer	1	1

Capital Expenditures

Many capital expenditures for 2020 were not completed due to the pandemic and staffing restrictions. These items have been carried over to 2021. Office furnishings include the final stage to update staff workspace to make more efficient use of existing office footprint and also allow for an exhibit preparation area. A portable stage was purchased in early 2020 and the lighting will be purchased in 2021. With the remedial work completed at Off-site Storage, Museum staff are now able to access the artifacts more easily and continue the Re_ORG process.

2021 Capital Expenditures	Amount
Computer Replacement	\$6,000
Office Furnishings Update/art room	\$13,000
(carryover)	
Permanent Gallery Cases (carryover)	\$7,500

COUNTY OF HURON 2021 BUDGET

PLANNING and DEVELOPMENT

CORPORATION OF THE COUNTY OF HURON

Planning and Development Department

To: Warden and Members of County Council – Day 2

From: Sandra Weber, Director

Date: December 16, 2020

Subject: Planning and Development

Proposed Work Plan and Budget for 2021

BACKGROUND

The Planning and Development Department provides a range of services including land use planning, community development, sustainability planning, forest conservation, stewardship, climate change and energy. There are 3 sub-budgets including planning, water protection, forestry and stewardship. The budget accommodates the core functions of the Department and priority projects for the coming year.

COMMENTS

2020 Highlights

Under last year's work plan, the following achievements are noted:

Planning

- Processed 229 development applications under the Planning Act within legislated timelines (88 of those were severance applications);
- Completed a Residential Intensification Guideline document which is a housing initiative approved by Council;
- Completed a Growth Planning Best Practices Guide to assist municipalities and developers in planning for future growth;
- Completed an updated Terms of Reference for Nitrate Studies:
- Final approval of 4 Plans of Subdivision/Condominium (Exeter, Seaforth (2) and ACW);
- Implemented continuous improvements to planning processes e.g. Follow-up planning satisfaction survey, User Guides, tracking study requirements;
- Delivered annual planning workshop for municipal staff on Nitrate Studies and Residential Intensification Guide (26 participants including one for every local municipality);
- Initiated Growth Planning Best Practices and Housing focused projects:
- Assisted with organizing and presented at the November 2020 OMAFRA/Huron Agricultural Municipal Economic Development and Planning Conference;
- Assisted County Housing Committee with identifying options for housing development on County owned properties:
- Hosted 3 themed meetings of the Sustainable Huron Steering Committee on Climate Change, COVID-19 Recovery, and Agricultural Resiliency: Climate Change, Farm Debt and Food Security;
- Implemented 2020 recommended actions from the county-wide Cycling Strategy (e.g. Advisory Committee meetings, update of cycling routes map, Share the Road Workshop with 50 participants):
- Initiated the Bayfield Secondary Plan project.

Water Protection

- Coordinated meetings of the Water Protection Steering Committee covering The Challenge of Lakeshore Erosion – Lake Huron Isn't Bluffing; Is the Coast Clear Conference; Agricultural Resiliency: Climate Change, Farm Debt and Food Security;
- Approved funding for 288 clean water projects (in line with the 10 year average of 252 projects per year), allocating \$400 000 for stewardship projects.

Forestry and Stewardship

- Monitored forest harvest activities from 130 Notices of Intent filed under the Forest Conservation By-law;
- Rebuilt and rehabilitated over 1km of trails/logging roads in Sheppardton and Stingel Tracts;
- Graded over 5 km of trails/logging roads in Sheppardton and Stingel Tracts;
- Salvaged approximately 60,000 board feet of Ash timber and 300 bush cords Ash firewood from Hays, Moreland, Stingel and Collins Tracts contributing over \$40K to Forest Conservation Reserve (Moreland and Collins Tract harvests are weather dependent and pending for late Fall/Winter 2020/2021);
- Thinned 50 acres of conifer plantation in Moreland Tract resulting in harvest of 190 bush cords (harvest pending for late Fall/Winter);
- Installed culvert, parking/landing area and cut 500 metre trail through Hays Tract near Goderichresearch underway for possible accessible trail development in future;
- Sold 5K worth of salvaged logs/lumber from trail maintenance operations via GovDeals.ca;
- In partnership with the Huron Stewardship Council, secured \$223,795 through 2022 for the protection of species at risk and land stewardship; \$25 000 in-kind from the Toronto Zoo for species at risk recovery; created 3 local jobs (2 seasonal positions and 1 year long position);
- Collaborated with Maitland Trail Association, Lower Maitland Stewardship Group, and Municipalities to improve educational signage on trails in response to increased use during COVID:
- Continued partnership with the Canada Conservation Corps program providing seasonal employment for 2 youth to assist with forestry and stewardship work at no cost to the County.

Climate Change and Energy

- Facilitated two workshops with the County's Leadership Group to complete vulnerability and risks assessments, which helped identify our corporate priorities for climate adaptation;
- Hosted a climate change meeting with Sustainable Huron to gather community input for the County's Corporate Climate Change Adaptation Plan;
- Completed the County's Corporate Climate Change Adaptation Plan, 2020-2025, which sets out strategies to increase the resiliency of our services, operations, and assets to the impacts of climate change;
- Created a Framework for Consultation and Engagement to guide the development of the County's climate plan, which has been shared with municipalities across Canada;
- Developed a Single-Use Item Reduction Strategy for the Corporation;
- Continued to work with the Conservation Committee to implement actions associated with the 2019 Conservation and Demand Management Plan;
- Completed annual energy reporting for the County's facilities, as mandated by Ontario Regulation 507/18;
- Through the Conservation Committee, initiated an internal staff blog to raise awareness about environmental issues and share successes across the corporation;
- Established a Climate Change and Energy section on the County's website to keep the community informed about our ongoing efforts;
- In partnership with ChargerCrew and 3 local municipalities, were successful in securing funding for 26 electric vehicle chargers in Huron County;

Covid-19 Initiatives

- Prepared and posted bi-weekly Health Minds Staff Newsletter to help with the important issue of staff mental health and wellbeing
- Adapted to online consultation processes (virtual public meetings, virtual pre consultations, training on Bang the Table, etc)
- Supported Community Recovery Efforts (participation on County Recovery Advisory Group, Sustainable Huron meeting, facilitated Howick Recovery Group)
- Supported other Departments (calling for Ec. Dev. Biz Map, supported SSRF funding)
- Developed outdoor dining brochure, completed research on other emerging or potential issues

Budget Summary

Notable changes in the budget for the coming year include:

Staffing: The Climate Change and Energy Specialist position approved last year with 80% funding from the Federation of Canadian Municipalities will end on April 1st, 2021. The proposed budget includes a 9 month extension to this contract to December 31st, 2021. The additional budget to extend the contract is \$60,000. Funding for this is expected to come from an extension of the FCM funding and the balance will be funded from reserves. This extension will allow work to advance implementation of the actions approved in the Corporate Climate Change Adaptation Plan, and the County Conservation Demand and Management Plan. Having a dedicated staff person is essential to moving this important Climate Change work forward and has been identified by multiple County Departments as being a benefit to the County. The work that will be achieved through this contract extension includes the following:

- Integrating the climate lens that is currently being developed for the County. This could include
 introducing staff to the lens, including a climate lens section on reports to County Council,
 applying the lens to new projects, and when applicable helping departments apply the lens to the
 review and update of existing plans and policies;
- Working with Property Services and other departments to integrate the High Performance Building Standards that are currently being explored to improve the resiliency and efficiency of County facilities;
- Working with local municipalities and other services organizations to advance local efforts for climate change, including community-based adaptation;
- Establishing and working with an internal climate change committee to oversee the continued prioritization and implementation of the CCCAP:
- Starting to explore and plan for projects identified in the 2022 timeline for the CCCAP, including a
 policy to prioritize electrification of the County's fleet, a strategy to determine the value of the
 County's natural assets, an assessment to determine the impacts of climate change on County
 infrastructure, and exploring opportunities for pilot projects and innovation related to renewable
 energy generation and green infrastructure;
- Completion of annual energy reporting that is mandated by the Province;
- Continuing to advance the monitoring of energy use and greenhouse gas emissions in County facilities, and;
- Progressing the County in the Partners for Climate Protection (PCP) Program, by setting
 emissions reduction targets and looking for areas to integrate efforts with the County's Climate
 Change Adaptation Plan and Conservation and Demand Management Plan.

<u>Planning</u>: Planning Application Fees: Projected revenue from Planning Application Fees has been increased by \$5000 which reflects the 2% annual increase in fees that was approved by County Council when the fees were approved for 5 years from 2017 through to 2021. Planning fees are scheduled to be reviewed in 2021.

<u>Projects</u>: The Consulting budget has been reduced by \$63,000 as the 2 major projects under that budget line including the Residential Intensification Guide and the Growth Planning Best Practices Guides were both completed in 2020. \$10,000 has been included for Housing Initiatives including a public education campaign and housing data.

<u>Staff Training</u>: The Staff Training budget has been reduced by \$6000 as 3 staff members completed their Masters of Planning/Rural Planning in 2020.

<u>Clean Water Project</u>: The Clean Water Project will continue to be offered and the County allocates \$400 000 to that project each year.

<u>Climate Change and Energy Implementation</u>: Costs associated with implementation of the Climate Change Adaptation Plan are proposed to be covered through the Forest Conservation reserve and the Sustainable Huron Reserve funds.

Work Plan

The Department's core functions include land use planning, water protection, forestry and stewardship and climate change and energy reduction. Each division develops a detailed work plan for the year. Work for the coming year will include:

- Housing initiatives (Implementation of Residential Intensification Guidelines, Pre-zoning and review of Official Plan and Zoning Provisions with a housing lens);
- Implementation of the County Climate Change Adaptation Plan and the Single Use Item Reduction Strategy;
- Planning Fees Review;
- Continuing with process improvements in Planning, including the follow-up survey to applicants who have completed a planning application:
- Local Official Plan and Zoning By-law updates;
- Completion of the County Official Plan update;
- Sustainable Huron, including implementing the Cycling Strategy;
- Water Protection Steering Committee, including the Clean Water Program;
- Forest Conservation and Stewardship, including improvements to trails in County Forests for public use:
- Planning and Development Department 50th Anniversary.

Funding Sources

The operating budgets for each of the program areas are funded as follows.

Program	County Levy	User Fees	External Grants
Planning	83.7%	16.1%	0.1%
Water Protection	100%	-	-
Forest Conservation & Stewardship	89%	11%	-
Climate Change and Energy	88.7%		11.3%

Staff

The Climate Change and Energy Specialist Contract is proposed to be extended from April 1st, 2021 to December 31st, 2021 to implement the actions in the Corporate Climate Change Adaptation Plan.

Status	Hours	2020 FTE	# Positions	2021 FTE	Total 2020 FTE

Change and Energy)				1 to Dec. 31, 2021)	
Total		16.2	18	0.0	16.2

FTE = Full Time Equivalents

OTHERS CONSULTED - Senior Planners; Department program staff; Treasury staff; CAO.

BUDGET IMPACTS

Overall costs have been moderated by controlling operating expenses, and by securing external funding where possible. The attached budget would accommodate the core functions of the department, plus priority projects for the coming year.

COUNTY OF HURON 2021 BUDGET

Economic Development

CORPORATION OF THE COUNTY OF HURON

Economic Development

TO: Warden and Members of Council

FROM: Cody Joudry, Director of Economic Development

DATE: December 16, 2020

SUBJECT: Proposed 2021 Economic Development Budget

Highlights

The draft \$1.75 million Economic Development budget is an increase of \$0.13 million from 2020. The increase is primarily attributed to a required levy contribution as part of the existing 3-year agreement for Small Business Enterprise Centre programs.

Of the \$1.75 million, \$0.42 million is funded from grants (an increase of 18%) and other revenue sources, \$0.14 funded from reserves and surplus, and the remaining \$1.18 million funded from the levy.

Priorities

The priorities of the department continue to focus on economic: recovery, strategic initiatives, and planning. Specifically:

- Continue to support and guide the economic recovery as a result of the pandemic through information gathering and sharing, business support, and strategic projects that address foundational barriers to great prosperity;
- 2. Continue to guide economic development through targeted strategic initiatives in the agriculture, workforce, tourism, and manufacturing; and
- 3. Begin the development of a new five-year economic development strategy by gathering and analyzing: business intelligence data through a business retention and expansion program and collecting other information through existing sources.

Revenue

We expect the County to receive \$423,792 (an increase of 18%) in provincial and federal grants, and other revenue sources to primarily deliver the Small Business Centre, Starter Company Plus, Summer Company, and Immigration (LIP) programs as well as a number of specific projects like Digital Main Street and the Business Retention and Expansion.

The Small Business Enterprise Centre funding agreement between the County and the Province expires 2022. We would anticipate seeing a new draft agreement late in 2021 for a new SBEC

funding agreement that Council may consider at that time. The new 5-year agreement for the Immigration Partnership was executed earlier in 2020.

Expenditures

The draft 2021 budget for Economic Development is \$1,741,223 in total expenditures, an increase of 8% from 2020, but can primarily be contributed to funded initiatives like the Digital Main Street, Virtual Assist (a second business coach through a third-party) program which are 100% funded, and the Business Retention and Expansion project which is 50% funded. There are no changes to permanent FTE (full time equivalents), and staff cost increases are related to either normal staffing cost increases and temporary contract positions related to projects that are partially or fully funded.

Relatively speaking the costs of the department have largely stayed the same outside of projects, with some adjustments within the budget. Specifically some costs were moved from expenses under Programs to the Operational and Purchased Service areas.

The budget includes maintaining \$90,000 in Supporting Local Economic Development (SLED) funding, but Council may wish to increase this amount based on conversations earlier upon reviewing the report from staff related to 2020 applications.

Department Programs

The draft budget can be broken down as:

- \$1,117,040 related to sector development and strategic initiatives;
- \$400,893 for business and entrepreneur support related activities
- \$162,290 for addressing immigration partnership work; and
- \$61,000 for the Economic Development Board and related projects.

Summary

In summary the draft 2021 Economic Development budget proposes to continue economic recovery work as well as continue to work towards the priorities set out in the *Huron County Economic Development Plan 2016-2020* with an emphasis on:

- (1) Individual business support services and programs;
- (2) Workforce development and related market housing initiatives;
- (3) Agriculture economic development projects; and
- (4) Tourism and marketing projects including promoting local opportunities.

COUNTY OF HURON 2021 BUDGET

Homes for the Aged

Long Term Care Homes – Budget Proposal for 2021 Huronview and Huronlea, Heartland and Highland Apartments

Executive Summary

The Homes for the Aged 2021 budget proposes the same core services to the long term care residents of Huronview and Huronlea as in 2020. The management of the COVID-19 Pandemic will be our main priority. It is anticipated but not guaranteed that the province will continue to fund Long Term Care Homes for pandemic costs, as seen in 2020. Unforeseen expenses will be addressed as they arise, due to COVID-19.

Revenues

The County contribution to operate the two homes and apartments in 2021 is projected to be \$3,831,163.

81% of the Homes revenues are from sources other than the County contribution which consists of provincial grants, resident revenue and rental and miscellaneous revenue.

For 2021, the Homes provincial operating grant revenue is anticipated to increase \$150,594 or 1.57% from 2020. One time COVID relief funding of \$128,000 is also being included to offset additional staffing lines being added to support residents.

Revenue from both Heartland Apartments in Clinton and Highland Apartments in Brussels has been decreased to compensate for empty apartments that are being used to temporarily store pandemic PPE (Personal Protective Equipment) and for staff accommodations should the Home need to actively the COVID room.

Expenditures

Overall expenditures are proposed to increase by \$470,337 from 2020. This includes 2.44% for salaries and benefits, 1.89% for equipment repairs and replacement, 3.46% for program supplies and 7.92% for purchased services (professional fees and insurance).

New Staffing Proposals

The following are staffing increased proposals:

- 1) Increasing the Homes Social Worker from four days to five days per week with anticipated cost of \$17,000 per year.
- 2) New Infection Prevention and Control Nurse. There is one-time ministry funding for Long Term Care Homes for this role. This person would be shared between the Homes to ensure consistency in policies, procedures and best practices related to infection control. The anticipated cost of \$95,000 per year.
- 3) Two additional shifts per week are proposed for the Huronview housekeeping department schedule. This will ensure consistent staffing each day of the week as weekends currently are down staffed.
- 4) Two additional shifts per week are proposed for the Huronview Activation department schedule. This will ensure consistent staffing each day of the week as weekends currently were down staffed. For Huronlea, it is proposed to add two additional shifts per week, similar to Huronview.
- 5) An additional four hour shift is being proposed for the Huronview Dietary department schedule to enable more consistent staff co-horting to one area of the home. Currently staff move from area to area within their shift.

NOTE: The anticipated cost for #3 - #5 above is \$128,000 per year.

General notes

Salaries and benefits are the largest expenditures at the Homes as the delivery of long term care services to complex care residents requires a skilled workforce. Recruitment this past year has been the most challenging it has ever been and certainly not made easier with COVID-19. Overtime hours worked by our front-line works since the beginning of the pandemic exceeds 4,900 hours and is anticipated to continue increasing into 2021.

Wage rates are governed by collective agreements with the following labour groups: ONA, SEIU and IUOE. Administrative staff and leaders follow the County's non-union wage grids. 80% of the Homes expenditures are allocated for salaries and benefits.

There has been no significant change in the number of Homes staff in the past year. The County will be entering into contract negotiations with ONA, IUOE and SEIU in 2021.

For program supplies there is an anticipated increase of 3.46% which reflects the increase of high needs expenses. A similar increase in operating grants for high needs mitigates this expense. There is an increase in the Homes Medical Director fee which reflects a new agreement being signed for both Homes.

Strategic Plan, Key Projects & Priorities

The departmental managers set and achieve annual goals which are incorporated into an overall Homes Strategic Plan. This plan is presented to Council for information purposes including progress reports. This plan is based on four major pillars:

Resident Safety & Quality, Excellent People and Learning, Operational Resources and Capital & Partnerships and Governance. There are potential planned budget impacts related to initiatives within the strategic plan.

Key Projects for 2021 include: completion of the main sprinkler pipe replacement throughout each of the Homes and additional installation of resident room ceiling mechanical lifts. Due to COVID-19 there are several carryover capital projects for both Homes. Completion of these projects will be a priority for 2021.

Ministry of Health Funding

In 2019, the Ministry of Health and Long Term Care terminated the Structural Compliance Premium. In 2020 this was changed to Minor Capital Funding. Both Homes continue to receive the same level of funding as was under the Structural Compliance Premium. Huronview receives \$10,950 per month and Huronlea receives \$5,840 per month.

Huronview Budget Highlights

Salaries and Benefits – Increase of 4.06 % from 2020

Staffing changes have been previously noted in this report.

Equipment - Increase of 2.42% from 2020

Repairs & Maintenance: Increase reflect actual costs.

Purchased Service - Increase of 8.3% from 2020

This is mainly due to an increase in insurance costs and IT fleet costs.

Operational - Decrease of 3.15% from 2020

Maintenance costs for 2020 remained within budget allocations which resulted in no increases for 2021. Depreciation decrease offset with IT fleet lease costs.

Program - Increase of 3.69% from 2020

Overall, this budget area is anticipated to remain with budget allocations for 2020. The increase noted above relates to the high needs budget line which has been noted already.

Summary

Overall Expenditures for 2021 are projected to increase by 3.56 % which includes salaries and benefits. It is projected that the Huronview total county levy portion will increase by \$154,613 or 6.51% from 2020 which is down slightly from 2020.

Huronlea Budget Highlights

Salaries and Benefits – Decrease of 0.55% from 2020

Staffing changes have been previously noted in this report.

Equipment - Increase of 1.32% from 2020

Increase for 2021 reflects actual costs.

<u>Purchased Service</u> – Increase of 7.32% from 2020

This is mainly due to an increase in insurance costs and IT fleet costs.

Operational - Increase of 4.02% from 2020

Increase is reflective of increases to advertising, (minor) capital and building capital

Program - Increase of 3.05% from 2020

Overall, this budget area is anticipated to remain with budget allocations for 2021. The increase noted above relates to the high needs budget line which has been noted already.

Summary

Overall Expenditures for 2021 are projected to increase by \$40,542 or 0.60%; which is inclusive of Salaries and Benefits. It is projected that the Huronlea total County Levy portion will decrease by \$59,743 or -4.39% from 2020.

COUNTY OF HURON 2021 BUDGET

Social and Property Services

County of Huron Social and Property Services 2021 Budget Proposal

The Social and Property Services Department offers programs with a number of services on behalf of the Provincial and Federal governments, and the County of Huron, as follows:

- Ontario Works: employment and financial assistance; life stabilization skills; emergency assistance
- o **Children's Services**: EarlyON Child and Family Centres; child care fee subsidy; early learning resource consulting services; home child care; expansion plan
- Housing Services: Community housing; non-profit housing, rent supplement; affordable housing; provincial housing programs suchas the Ontario Priorities Housing Initiative; housing development initiatives; homelessness prevention programs and services such as transitional housing, cold-weather emergency shelter, addiction supportive housing
- Property Services: operational and capital components for the County's Municipal properties

Social Services Summary:

The County contribution to operate Social Services (Ontario Works, Housing Services and Children's Services) in 2021 is projected to be \$4,841,534. This represents a decrease of \$17,249 over 2020, or -0.36%.

The total Social Services expenditures for 2021 are budgeted at \$22,536,181, which is an increase of 5.33% over 2020. The provincial grants total \$14,419,301 (a 1.79% increase from 2020). The federal grants total \$762,746 (an increase of 1.44% from 2020). Other revenue from rental and lease income are anticipated in 2021 in the amount of \$2,083,600, which represents an increase of 10.68% from 2020.

Also included in the budget are the ongoing salary grid movements for employees.

The total number of staff delivering all programs is as follows:

Program	Full-Time FTE	Part-Time FTE
Ontario Works	15.3	0.6
Children's Services	10.7	3.4
Housing	14.75	4.7
Property Services	6.25	1.7
Total	47	10.4

1. Ontario Works

The provincial operating grants budgeted for Ontario Works have increased slightly in 2021 (from \$429,000 to \$431,000 for employment related supports and from \$868,000 to \$868,700 for administrative expenses). The costs to deliver income supports and other benefits directly to clients are 100% provincially funded, and are based on our direct program benefits to clients. The eligibility criteria is set by the province through legislation and covers expenses such as the cost of basic needs, shelter, temporary care allowance (for youth not living with their family), board and lodge allowances, special diet items, personal needs allowances, diabetic supplies, prosthetic appliances, and discretionary benefits.

The Employment Related Expenses are set at \$431,00 and issued as a 100% provincial grant to provide services promoting job readiness and placements for clients, counseling, addictions support, in addition to assessments and benefits directly delivered to clients for training, licenses, job searching, safety clothing, etc.

Administration for the Ontario Works program is set at \$1,737,400 which will be cost shared with the province at a rate of 50/50. The majority of these costs (\$1,481,227) relate to salaries, statutory and extended benefits, and OMERS for staff providing services to the clients (this staff includes case workers, eligibility review officer, computer systems support, life stabilization workers, clerical and supervisory staff). The other large cost to the administration budget is the cost of rent paid to the County's Property Services for the office space required to house the program, at \$67,804 in 2021 (a 4% increase from 2020). We can recoup 50% of the total costs for the capital project we have identified in the Property Services capital budget to redesign the front entrance of the JMB for safety measures (total of project is \$54,500 and the 50/50 cost share is \$27,250 for this project).

With the province's plan to fundamentally change the delivery of Ontario Works in 2021 and onwards, leadership is continues to review strategies to maintain a workload balance with all the programs being delivered. The budget has been created to continue to allow for flexibility in deployment between Ontario Works, Children's Services and Housing supports as programming needs dictate in the coming years.

Provincial funding and the Community Homelessness Prevention Initiative funding have been utilized to develop the County's Pathways to Self-Sufficiency program. In addition, Social Services participates in emergency funding programs such as the Emergency Community Support Fund and the Urgent Needs Fund. These programs provide one-time targeted assistance to low-income clients with funding for rent, utilities, transportation, food, emergency shelter, etc.

Additionally, funding may flow to community agencies that have mandates of child poverty or homelessness such as Safe Homes for Youth or the YMCA through their Youth Recreation and Sport Program.

The 2021 budget reflects an increase in funding for a consultant to review the legislated and internal policies in Ontario Works. Three FTE positions will not be replaced, however, to maximize the province's 50/50 cost share of administrative expenses, a review of administrative duties allowed for a greater percentage of administrative funding to be provided for staff duties pertaining to the delivery of Ontario Works support.

2. Children's Services

The County of Huron enters into two Service Agreements with the Ministry of Education to support <u>Child Care</u> and <u>EarlyON</u> services throughout the County. These services are legislated to be provided by each Consolidated Municipal Service Manager (CMSM).

Child care forms the largest part of the Children's Services 2021 budget, with provincial operating grants totaling \$5,612,485. The general operating grant is to be used by child care providers to support the costs of operating licensed child care programs to reduce wait times and fees for services, stabilize service levels, retain staff, and to improve access to high quality affordable early learning and child care services for children and their families. The County supports the licensed child care centres in our area and directly operates the Huron County Community Home Child Care program.

The majority of expenditures for the child care program are found under the General Operating Grants which are issued to the child care providers in the amount of \$2,098,626 (an increase from 2020 based on the addition of the provincial Safe Restart Funding); and the program's Purchase of Service, which includes fee subsidy funds on behalf of financially eligible families and their children and paid to the home child care providers and the licensed child care providers in the County (including Seaforth Cooperative Children's Centre, Clinton Cooperative Care Centre, West Huron, Relouw, Town of Goderich, Township of North Huron, Municipality of Huron East, Walton Little School, YMCA of South Western Ontario).

Within the Child Care Service Agreement, the County is mandated to contribute a minimum cost sharing allocation of \$371,358 annually. In addition, the County is required to cost-share child care expansion plan operating funding at a rate of 80/20 – this requirement was optional in 2020 (Council opted to contribute) and continues to be optional in 2021, with the County cost share totaling \$155,243. New in 2021 is the requirement to cost share expansion plan administrative funding at a rate of 50/50, with the County's cost share totaling \$17,269.

On January 1, 2022, the threshold for allowable administrative funding CMSMs can spend on child care will be reduced from 10% to 5%, in addition to the existing cost sharing requirements already introduced. Children's Services will begin reviewing impacts of this reduction and how to mitigate these impacts as much as possible.

In 2020, child care providers faced a series of significant challenges due to the pandemic response, including legislated closure for a period of time. The County continued to flow the regular monthly general operating grant to each provider to assist in maintaining stability in the sector. The County will reconcile the child care providers financials in 2021, as per Ministry requirements; however, reductions in parents paying child care fees has also impacted the child care centres. The sector continues to face challenges, including significantly reduced numbers of children attending the centres, a shortage of qualified Early Childhood Educators to staff the centres, and a reduction in the number of homes operating as licensed home child care.

The EarlyON program is overseen by the Ministry of Education. Funding for 2021 is anticipated to be the same as 2020, with the amount of \$830,544 identified in the 2021 budget. The County directly operates the program in Clinton, Exeter and Seaforth areas. Huron County Children's Services has contracts with the Town of Goderich and North Huron for service delivery in each respective area. Our Child and Family Centres, co-located with Avon Maitland District School Board (Goderich and Clinton) and the recently created Royal Oaks location (North Huron) are

the hubs for EarlyON programming, with additional outreach programs being delivered and planned in the community including municipal, faith and service club facilities. In a response to the pandemic, EarlyON staff were able to pivot and offer programming in a virtual format to ensure continuity of service and the virtual programming has been a success.

Although the EarlyON program is fully funded by the province, note that since the transfer of the EarlyON program from the province to the CMSM, the County of Huron has committed up to \$30,000 annually to deliver the program. Also, rent is paid by the program for the JMB space they occupy in the amount of \$22,000, which is the same rate as 2020.

3. Housing Services

The same level of basic services are anticipated to be provided in 2021 as in previous years, along with participation in programs funded through the provincial and federal governments. Under revenues, the provincial operating grant shows provincial funding in the amount of \$1,764,548 for 2021. The provincial operating grants in 2021 include the 2021 Investment in Affordable Housing ongoing funding allocation to support rent supplements and housing allowances in the amount of \$347,364; Community Housing Prevention Initiative (CHPI) funding in the amount of \$578,131; Strong Communities Rent Supplement of \$20,786; Ontario Priorities Housing Initiative of \$457,678; and, Social Services Relief Fund – Phase 2 of \$360,589.

The federal operating grant is set at \$762,746 for 2021, which includes \$423,030 for public rent-geared-to-income housing and \$337,716 for non-profit/co-op housing providers. Federal operating grants will continue to decrease over the upcoming years until the operating agreements for all housing providers reach their end of operating date as per the agreements with CMHC. This is an ongoing concern for CMSMs as service level standards are currently legislated to remain the same.

Under salaries, the rising costs at 16.75% are due mainly to the new positions of Housing Stability Worker, Housing Advocate and Homelessness Programs Coordinator, along with staff movement through the salary grids, and the 1.5% anticipated non-union increase. There is also a proposed increase in custodial staff from a 0.8 FTE to a Full Time 1.0 position. The province has legislated a rent freeze for all residential tenancies, including public housing. Rental revenue has been set in the 2021 budget at the amount anticipated to be the final rental amount received in 2020. An analysis of lost rental revenue will be conducted in 2021 to determine the full impact of this provincial directive.

Homelessness is a significant concern in the County, and homelessness programs have been developed to assist in addressing this issue. Until December 31, 2020, Housing Services will continue to operate both the motel and the emergency shelter, and based on usage and pandemic response requirements, will determine in December 2020 if both facilities are required to be in operation in January 2021 and onwards. The County has received the Social Services Relief Fund – Phase 2 (SSRF) in the amount of \$360,589 and will utilize this funding towards these homelessness programs. The County has also partnered with United Way Perth Huron who are providing funding in the amount of \$48,000 in 2021 for the Housing Advocate position and \$82,424 under the Emergency Community Support Fund for rental and utility arrears for low-income households. SSRF Phase 3 of \$299,700 has been included in the budget to assist in offsetting the additional costs of the Homelessness program.

Under Operational Services, insurance has increased by \$39,200 or 42%, as insurance costs have risen steeply in the sector. Minor capital has been increased by \$33,600 or 13%, to reflect required projects such as exterior door replacement and a fire-rated garbage chute prototype.

Housing Services continues to investigate and participate in energy savings programs with energy management companies for potential cost savings and have received rebate payments for installing energy efficient equipment. Housing Services will undertake an energy saving capital project at 52 Bristol Terrace, Wingham, to upgrade insulation and clad the outside of this apartment building.

The County is actively pursuing housing supply initiatives, including submitting an application for the Rapid Housing Initiative with the federal government, for a 20 unit apartment building for affordable housing in South Huron. This initiative will permit the County's OPHI funding (under the rental build component) of \$407,315 to be stacked with the federal Rapid Housing Initiative, should we be successful in our application. The OPHI rental build program requires a 25% funding commitment by the owner/developer (in this case, the County will be the owner/developer) and this totals \$101,829 which will be reflected in the County levy.

4. Property Services

The Property Services Rents/Leases revenue consists of internal County Department rents and external partner rents such as Service Ontario and the Ministry of Attorney General (MAG). For 2021, these rents total \$1,452,652 which is a decrease of 6.95% from 2020. The bulk of this decrease is a result of the sale of the Health Unit building. There is also a small decrease in revenue (\$24,179) from MAG in 2021 as they are in year two of their current lease extension, with year one used to recoup the leasing agent fees. Rent increased due to the Economic Development Department occupying the main floor of 57 Napier Street, and contributing rent of \$42,261; Ontario Works rent increasing by 4%, and the cost share of the front door replacement at the JMB, which is covered by MCCSS at a rate of 50/50, allowing for \$27,250 to be recouped, thus reducing the County's levy.

With regards to salaries within Property Services, overall they have been reduced by 6.4% for 2021. Labour has been moved out of Property Services to cover move out cleaning costs in Housing Services. This new labour in Housing Services will allow us to turn around vacant units more quickly to meet the housing demands.

Insurance costs have shown a significant increase at an estimated 54%, or \$20,750.

Heat, hydro, water and sewer costs are expected to decrease by an estimated \$50,900 (12.35%) in 2021 due to the sale of the Health Unit building.
